Reforming The Reforms A Critical Analysis Of The Presidential Selection Process:

Reforming the Reforms James W. Ceaser, 1982 Analyzes reforms in the Presidential selection process since the 1968 Democratic National Convention Examines the recent changes in delegate selection nature of candidates campaign strategies the influence of interest groups and the media the role of party leaders campaign financing and the extent and quality of participation Ceaser sees the reforms as a move away from a representative process to one based on direct democracy and calls on institutional theory to assess their impact in altering basic institutions and patterns of political behavior

Reforming the Presidential Nomination Process Steven S. Smith, Melanie J. Springer, 2009-11-01 The 2008 U S presidential campaign has provided a lifetime's worth of surprises Once again however the nomination process highlighted the importance of organization political prowess timing and money And once again it raised many hackles The Democratic contest in particular generated many complaints for example it started too early it was too long and Super Tuesday was overloaded This timely book synthesizes new analysis by premier political scientists into a cohesive look at the presidential nomination process the ways in which it is broken and how it might be fixed The contributors to *Reforming the Presidential Nomination Process* address different facets of the selection process starting with a brief history of how we got to this point They analyze the importance and perceived unfairness of the earliest primaries and discuss what led to record turnouts in 2008 What roles do media coverage and public endorsements play William Mayer explains the superdelegate phenomenon and the controversy surrounding it James Gibson and Melanie Springer evaluate public perceptions of the current process as well as possible reforms Larry Sabato *A More Perfect Constitution* calls for a new nomination system installed via constitutional amendment while Tom Mann of Brookings opines on calls for reform that arose in 2008 and Daniel Lowenstein examines the process by which reforms may be adopted or blocked

The Making of the Presidential Candidates 2012 William G. Mayer, Jonathan Bernstein, 2012 The newest installment in a quadrennial series that now spans five presidential elections this book presents a broad overview of the presidential nomination process and showcases some of the most interesting work now being done on the politics of presidential selection Written by leading experts including a former presidential candidate *The Making of Presidential Candidates 2012* covers a wide selection of topics including the Tea Party digital media campaigns how television covers the nomination process election forecasting and campaign finance *The Making of the Presidential Candidates 2012* is valuable for students specialists and all readers with an interest in the ever evolving presidential nomination process and American elections

The Rules and Politics of American Primaries Andrew E. Busch, 2019-11-08 Provides an invaluable resource for scholars students and political observers who want a comprehensive picture of the past and present of the U S presidential nominating system across every state In 2020 the parties will again nominate their candidates for president Those nominations will play out in a complicated system of federal law state law national party rules state party rules and informal norms that have developed over decades This resource provides a

roadmap for understanding the rules of the game and the ways in which they impact elections and politics across the United States This reference work is organized in two parts Part I consists of a series of short thematic essays discussing topics such as what primaries and caucuses are what the difference between open and closed primaries is varying methods used by the parties for delegate selection and how campaign finance works in the primaries Part II consists of a state by state description of recent primary caucus history and the methods currently used for delegate selection by Democrats and Republicans in each state

The New Hampshire Primary And The American Electoral Process Niall Palmer, 2018-02-19 New Hampshire is the subject of Palmer's book precisely because it serves as the first presidential primary every four years Many critics of the New Hampshire primary fault it for being too arcane too unrepresentative and too quixotic to use as a gatekeeper of who becomes President Palmer went to New Hampshire expecting to gather research that argued against New Hampshire as first primary As he finished he realized his findings pointed out the opposite that in fact and deed New Hampshire was as good a place to start the primary races as any other No single state is representative The retail politics that aspirants face in New Hampshire is a very useful winnowing device in which a candidate must actually come face to face with real voters who more often than not make a study of the issues and policies that they raise in their questions

The Making of the Presidential Candidates 2004 William G. Mayer, 2004 Annotation This is the third in a series of books about the United States presidential nomination process and shares the same goals as its predecessors and Mayer political science Northeastern U presents nine papers exploring significant components of the nomination process including financing incumbency polling and the role of organized labor The only non academic contributing to the proceedings is an editor who provides a discussion of the role of the press Annotation 2004 Book News Inc Portland OR booknews.com

Structure, Process and Party: Peter H. Argersinger, 2019-07-03 Challenging traditional approaches to the study of American political history the essays in this book establish the significance of the institutional framework of the electoral system and argue the importance of its interaction with political conditions

Strategic Decision-Making in Presidential Nominations Kenny J. Whitby, 2014-01-01 Seeks to understand and explain the behavior of party elites during the 2008 Democratic Party presidential race What is the dominant force in presidential nomination campaigns Are nomination outcomes decided largely by the political party or by the candidates and their activities In Strategic Decision Making in Presidential Nominations Kenny J Whitby aims to provide some answers to these important questions focusing on the closely contested 2008 race between Senators Hillary Clinton and Barack Obama It was this race that spotlighted the role played by superdelegates the unpledged party elites who were added to the nomination process in the 1980s Whitby's central argument is that superdelegates are strategic actors and their endorsements are a response to a variety of demographic institutional and campaign factors While some weigh in early with an endorsement many adopt a wait and see approach Using a novel framework generally known as survival analysis Whitby provides us with a method for understanding when and why party elites decide to chime in on their presidential nomination

campaign The Long War over Party Structure Byron E. Shafer, Regina L. Wagner, 2019-08-22 Discusses the structure of political parties in order to help understand modern American politics *Studies in US Politics* David Keith Adams, 1989
