Refugees Extended Exile:

Refugees in Extended Exile Jennifer Hyndman, Wenona Giles, 2016-10-04 This book argues that the international refugee regime and its temporary humanitarian interventions have failed. Most refugees across the globe live in protracted conditions that extend from years to decades without legal status that allows them to work and establish a home. It is contended that they become largely invisible to people based in the global North and cease to remain fully human subjects with access to their political lives. Shifting the conversation away from the salient discourse of solutions and technical fixes within state-centric international relations, the authors recover the subjectivity lost for those stuck in extended exile. The book first argues that humanitarian assistance to refugees remains vital to people's survival even after the emergency phase is over. It then connects asylum politics in the global North with the intransigence of extended exile in the global South. By placing the urgent crises of protracted exile within a broader constellation of power relations both historical and geographical, the authors present research and empirical findings gleaned from refugees in Iran, Kenya, and Canada and from humanitarian and government workers. Each chapter reveals patterns of power circulating through the colonial present, Cold War legacies, and the global war on terror. Seeking to render legible the more quotidian struggles and livelihoods of people who find themselves defined as refugees, this book will be of great interest to international humanitarian agencies as well as migration and refugee researchers, including scholars in refugee studies and human displacement, human security, globalization, immigration, and human rights.

Refugees W. R. Smyser, 1987 One of this century's greatest tragedies and one of our greatest challenges has been the movement of millions of refugees. This book by an expert in the field gives a comprehensive view of where we have been and where we are likely to go in coping with this world's endless stream of refugees. Senator Edward M. Kennedy, Chairman Subcommittee on Immigration and Refugee Affairs. This survey of post-World War II refugees by a former UN Deputy High Commissioner for Refugees focuses on those assisted through the United Nations and its affiliated agencies: UNHCR, the International Committee for Migration, and the World Food Program. Smyser argues that refugee problems and crises are far from over and will continue to require urgent international cooperative treatment. He presents a lengthy agenda with recommendations to preserve the global structure of refugee protection and care to help those who need help to prevent abuse and to bring refugee concepts and practices into a framework appropriate to our troubled times.

Hosting States and Unsettled Guests Jennifer Riggan, Amanda Poole, 2024-02-06 As wealthy countries build walls to keep migrants out countries in the Global South are celebrated for their hospitality towards refugees Hosting States and Unsettled Guests asks the question did these policies enable refugees to consider their new country home Beginning in 2016 Ethiopia promoted local integration economic opportunities and access to education for refugees in order to encourage them to stay long term rather than migrate towards

Europe But by 2020 a political overhaul and the outbreak of war in Northern Ethiopia foreclosed these opportunities particularly for Eritrean refugees in Ethiopia How did Eritrean refugees envision their future in light of the discrepancy between promising policies and ongoing instability Using ethnographic interviews and participant observation with government officials NGOs and refugees in three camps in northern Ethiopia and Addis Ababa Jennifer Riggan and Amanda Poole explore refugee notions of progress care hope and futurity Caught at the intersection of teleological violence and temporal agency refugees endure the present and tenaciously produce a sense of the future even when their efforts to progress are repeatedly challenged An important read *Hosting States and Unsettled Guests* makes key empirical and theoretical contributions in forced migration studies East African studies anthropology and international education Riggan and Poole deftly shift the focus of refugee studies away from Europe to regions in the Global South to understand the violence of emerging forms of migration deterrence
