## **Region Race And Reconstruction Essays In Honor Of C Vann Woodward:**

**Region, Race, and Reconstruction** J. Morgan Kousser, James M. McPherson, 1982 In this tribute to one of the foremost American historians the topics range from an intriguing analysis of taxation's role in the downfall of Republican state governments during Reconstruction to an investigation of the relationship between fencing laws and Populism from a study of the troubled experiment of educating blacks and American Indians together at Hampton Institute to an account of Booker T. Washington's relationship with Jews

**The Arrogance of Race** George M. Fredrickson, 1988 An investigation of the issue of race over a generation of labor

*Race and American Political Development* Joseph E. Lowndes, Julie Novkov, Dorian T. Warren, 2012-11-12 Race has been present at every critical moment in American political development shaping political institutions political discourse public policy and its denizens political identities But because of the nature of race its evolving and dynamic status as a structure of inequality a political organizing principle an ideology and a system of power we must study the politics of race historically institutionally and discursively Covering more than three hundred years of American political history from the founding to the contemporary moment the contributors in this volume make this extended argument Together they provide an understanding of American politics that challenges our conventional disciplinary tools of studying politics and our conservative political moment's dominant narrative of racial progress This volume the first to collect essays on the role of race in American political history and development resituates race in American politics as an issue for sustained and broadened critical attention

Unequal Freedoms Jeff Strickland, 2015-09-08 Focusing on Charleston South Carolina Jeff Strickland examines the ways that race ethnicity and class shaped the political economy of this vital Southern city during the second half of the nineteenth century

**The Black Tax** Andrew W. Kahrl, 2024-04-24 Andrew Kahrl's enraging national assessment of legal and financial dispossession proves that African Americans property owners have long been beset by racist practices invisible obstacles and hidden traps that leave them vulnerable to economic predation Kahrl focuses specially on how property taxes have been used to swindle African Americans out of their land with the cooperation of public officials and courts These racist regimes fund and reinforce inequity with blacks paying more in taxes than whites as they lose tremendous inheritable wealth to whites There is something more fundamental than the forty acres of settlement lore the taxes on them

From Cotton Field to Schoolhouse Christopher M. Span, 2009 In the years immediately following the Civil War the formative years for an emerging society of freed African Americans in Mississippi there was much debate over the general purpose of black schools and who would control them

*From Cotton Field to Schoolhouse* Jane Dailey, 2009-11-30 Long before the Montgomery bus boycott ushered in the modern civil rights movement black and white southerners struggled to forge interracial democracy in America This innovative book examines the most successful interracial coalition in the nineteenth century South Virginia's Readjuster Party and uncovers a surprising degree of fluidity in postemancipation southern politics Melding social cultural and political history Jane Dailey chronicles the Readjusters

efforts to foster political cooperation across the color line She demonstrates that the power of racial rhetoric and the divisiveness of racial politics derived from the everyday experiences of individual Virginians from their local encounters on the sidewalk before the magistrate's bench in the schoolroom In the process she reveals the power of black and white southerners to both create and resist new systems of racial discrimination The story of the Readjusters shows how hard white southerners had to work to establish racial domination after emancipation and how passionately black southerners fought each and every infringement of their rights as Americans *Lynching in the New South* W. Fitzhugh Brundage, 2022-08-15 Lynching was a national crime But it obsessed the South W Fitzhugh Brundage's multidisciplinary approach to the complex nature of lynching delves into the such extrajudicial murders in two states Virginia the southern state with the fewest lynchings and Georgia where 460 lynchings made the state a measure of race relations in the Deep South Brundage's analysis addresses three central questions How can we explain variations in lynching over regions and time periods To what extent was lynching a social ritual that affirmed traditional white values and white supremacy And what were the causes of the decline of lynching at the end of the 1920s A groundbreaking study *Lynching in the New South* is a classic portrait of the tradition of violence that poisoned American life *Shadows Over Sunnyside* Jeannie M. Whayne, 1995-12-01 This remarkable collection of essays addresses social historical cultural and labor issues as they affect a Southern plantation The heart of the book is an examination of a great experiment to import Italian laborers to Sunnyside Plantation From the crucible of tensions that this experiment produced the reader obtains a concrete understanding of the implications of U S immigration policy of changing labor relations following Reconstruction and of a minority culture's introduction into the Delta **Military Medicine and the Making of Race** Tim Lockley, Timothy James Lockley, 2020-04-02 Demonstrates how Britain's black soldiers helped shape the very idea of race in the nineteenth century Atlantic world *Subaltern Citizens and Their Histories* Gyanendra Pandey, 2009-09-10 This book explores changing modes of enfranchisement and disenfranchisement and the historical struggles over them in India and the United States Initiating a conversation across very different world areas this book stimulates new conversations about each region and beyond both **Counting the Cost of Freedom** Amanda Laury Kleintop, 2025-08-19 During the Civil War the US government abolished slavery without reimbursing enslavers diminishing the white South's wealth by nearly 50 percent After the Confederacy's defeat white Southerners demanded federal compensation for the financial value of formerly enslaved people and fought for other policies that would recognize abolition's costs during Reconstruction As Amanda Laury Kleintop shows their persistence eventually led to the creation of Section 4 of the Fourteenth Amendment which abolished the right to profit from property in people Surprisingly former Confederates responded by using Lost Cause history making to obscure the fact that they had demanded financial redress in the first place The largely successful efforts of white Southerners to erase this history continues to generate false understandings today Kleintop draws from an impressive array of archival sources to uncover this lost history

In doing so she demonstrates how this legal battle also undermined efforts by formerly enslaved people to receive reparations for themselves and their descendants a debate that persists in today's national dialogue

The Fleming Lectures, 1937--1990 Burl Noggle, 1992-10-01 As a quintessentially southern campus Louisiana State University has logically spawned some of the most important regional scholarly studies of the twentieth century During the campus golden age in the 1930s such eminent scholars as Cleanth Brooks Robert Penn Warren and Eric Voeglin made LSU one of the leading academic institutions in the country It was during this period that a series called the Walter Lynwood Fleming Lectures in Southern History named in honor of a noted scholar and researcher at LSU in the early 1900s was created to add to the body of knowledge in the developing field of southern history Now considered one of the most distinguished lecture series of its kind the Fleming series has brought to the LSU campus scholars of note who have studied the South in its various aspects Lecturers ranging from C Vann Woodward and Lewis P Simpson to Eric Foner and Drew Gilpin Faust have presented a wide panorama of views and methodological approaches In this book Burl Noggle presents an informative history of the lectures from 1937 through 1990 As a member of the LSU history faculty for more than thirty years Noggle has heard most of the Fleming lectures delivered and has participated in the selection of lecturers He thus brings a rather special perspective to his subject that of an insider who has been intimately involved in the series itself as well as the broader understanding of a mature scholar who has devoted a substantial portion of his career to the analysis of American historiography Noggle focuses on two aspects of the Fleming series On one level he discusses the history of the lectures themselves who lectured on what topic why each lecturer was chosen what general historiographical trends prevailed at the time and how each speaker's lectures were related to scholarly currents within the profession On another level Noggle discusses just what the lecturers said about southern history and how they contributed to qualified refuted or revised existing conceptions about southern history The Fleming Lectures 1937 1990 is therefore both a history of the lecture series and an analysis of the history contained in the lectures

**Black/white Relations in American History** Leslie Vincent Tischauser, 1998 An annotated bibliography of more than 700 significant works concerning the function of race in American history It evaluates the most important historical sociological and psychological studies published since 1944 An introductory chapter describes and evaluates key general works on the origin and meaning of race and race relations After the introduction chapters are arranged in chronological order All consequential studies of slavery on the national state and local level are included with a brief synthesis of the major findings of the study The book continues through the Civil War the Reconstruction segregation and Jim Crow up to and including the ongoing Civil Rights movement begun in the late 1950s A final chapter includes works that attempt to imagine the cost economically socially and politically of black white racism and discrimination in the United States

*Southern Outcast* David Brown, 2006-10-01 Hinton Rowan Helper 1829 1909 gained notoriety in nineteenth century America as the author of *The Impending Crisis of the South* 1857 an antislavery polemic that provoked national

public controversy and increased sectional tensions In his intellectual and cultural biography of Helper the first to appear in more than forty years David Brown provides a fresh and nuanced portrait of this self styled reformer exploring anew Helper s motivation for writing his inflammatory book Brown places Helper in a perspective that shows how the society in which he lived influenced his thinking beginning with Helper s upbringing in North Carolina his move to California at the height of the Californian gold rush his developing hostility toward nonwhites within the United States and his publication of *The Impending Crisis of the South* Helper s book paints a picture of a region dragged down by the institution of slavery and displays surprising concern for the fate of American slaves It sold 140 000 copies perhaps rivaled only by *Uncle Tom s Cabin* in its impact The author argues that Helper never wavered in his commitment to the South though his book s devastating critique made him an outcast there playing a crucial role in the election of Lincoln and influencing the outbreak of war As his career progressed after the war Helper s racial attitudes grew increasingly intolerant He became involved in various grand pursuits including a plan to link North and South America by rail continually seeking a success that would match his earlier fame But after a series of disappointments he finally committed suicide Brown reconsiders the life and career of one of the antebellum South s most controversial and misunderstood figures Helper was also one of the rare lower class whites who recorded in detail his economic political and social views thus affording a valuable window into the world of nonslaveholding white southerners on the eve of the Civil War His critique of slavery provides an important challenge to dominant paradigms stressing consensus among southern whites and his development into a racist illustrates the power and destructiveness of the prejudice that took hold of the South in the late nineteenth century as well as the wider developments in American society at the time
