Regional Integration Europe And Asia Compared:

Regional Integration – Europe and Asia Compared Woosik Moon, 2017-07-05 This book examines and compares the integration process in both Europe and Asia and draws some possible lessons for East Asia from the European experience. Regionalism and Global Economic Integration William Donald Coleman, Geoffrey R. D. Underhill, 1998 This scholarly and interdisciplinary volume sheds much needed light on the relationship between national policies, regional integration patterns and the wider global setting. It covers regional patterns in Europe, Asia and the Americas. Individual chapters focus on topics ranging from industrial or financial policies to social welfare regimes as well as broader assessments and comparisons of regional arrangements in a global context. The chapters point to the diversity of regional patterns in the world economy and the continuing importance of national regulatory structures yet they also point to the common pressures of globalisation felt by all, especially in the domain of capital markets. With broad coverage and clear but sophisticated analysis, this new book will be vital reading to all those seeking to clarify their understanding of the contemporary regional/global paradox.

Globalization and Regional Integration in Europe and Asia Dr Nam-Kook Kim, 2013-04-28 This volume discusses the current trend of globalization and the main characteristics of world order focusing specifically on the destiny of the nation state, the threat against human rights and conflicts between unilateral hegemony of the USA and Europe. It examines the contemporary European experience and compares it with Asian reality with a view to implications for the future development of Asia. It also discusses regional integration as a framework for bringing stable peace, exploring detailed principles and specific forms of a regional community in Asia. Contributors from Europe and Asia critically review previous literature on this topic and suggest new theoretical and empirical grounds of regional community in Asia. The book takes the viewpoint of comparative civilization and experiences of European integration to offer meaningful lessons for the future of nation states and the possibility of building regional communities in Asia.

Europe and Asia P. Murray, 2008-10-23 Much more than a simple examination of EU-Asia relations, this book examines the idea that the EU may constitute a model for East Asian regionalism. It challenges specialists on the EU to understand the EU's impact on Asia and Asia's impact on the EU whilst illustrating that there is a commonality of interests in both Europe and Asia.

Comparative Regional Integration Finn Laursen, 2010 This volume features up to date studies of regional integration efforts, particularly those made in North America, South America and East Asia. Comparisons are drawn between these efforts and those made in the EU where integration has progressed much further. The book asks what explains the variation in achievements. What kind of agreements are needed to produce regional integration? Is pooling and delegation of sovereignty necessary? How important is regional leadership?
