Handbook of Forensic Sociology and Psychology Stephen J. Morewitz, Mark L. Goldstein, 2013-08-20 The role of behavioral and social sciences in the courtroom setting has expanded exponentially in the past few decades It is now widely recognized that scientists in these areas provide critical contextual information for legal decision making and that there is a reliable knowledge base for doing so While there are many handbooks of forensic psychology this is the first such volume to incorporate sociological findings broadening the conceptual basis for examining cases in both the civil and criminal realms including immigration issues personal injury child custody and sexual harassment This volume will examine the responsibilities of expert witnesses and consultants and how they may utilize principles theories and methods from both sociology and psychology It will show these disciplines together can improve the identification and apprehension of criminals as well as enhance the administration of justice by clarifying profiles of criminal behavior particularly in cases of serial killers death threat makers stalkers and kidnappers The volume is quite comprehensive covering a range of medical school environmental and business settings Throughout it links basic ideas to real applications and their impact on the justice system

Dealing with Dying, Death, and Grief during Adolescence David E. Balk, 2014-02-18 For some life s introduction to death and grief comes early and when it does it can take many forms Not only does Dealing with Dying Death and Grief during Adolescence tackle them all it does so with David Balk s remarkable sensitivity to and deep knowledge of the pressures and opportunities adolescents face in their transition from childhood to adulthood In seamless jargon free language Balk brings readers up to date with what we know about adolescent development because over time such changes form the backstory we need to comprehend the impact of death and bereavement in an adolescent s life The book s later chapters break down the recent findings in the study of life threatening illness and bereavement during adolescence And crucially these chapters also examine interventions that assist adolescents coping with these difficulties Clinicians will come away from this book with both a grounded understanding of adolescent development and the adolescent experience of death and they ll also gain specific tools for helping adolescents cope with death and grief on their own terms For any clinician committed to supporting adolescents facing some of life s most difficult experiences this

integrated up to date and deeply insightful text is simply the book to have David E Balk is professor in the department of health and nutrition sciences at Brooklyn College CUNY where he directs the graduate program in thanatology He is the author of Adolescent Development Early Through Late Adolescence Helping the Bereaved College Student and several other books on death and bereavement He is also co editor of the 2nd edition of the Handbook of Thanatology Routledge 2013

Constructing the Self in a Digital World Cynthia Carter Ching, Brian J. Foley, 2012-09-10 This title examines the relationship between identity and technology in the learning and lives of young people **Ten Steps Ahead** Erik Caloni, 2011-03-17 How do the most extraordinary entrepreneurs create a bold vision for the future and follow through against all setbacks Visionaries like Steve Jobs and Thomas Edison are the stuff of legend Yet we still fumble in describing what they actually do Drawing on recent insights from neuroscience about the roles that intuition emotional intelligence and courage can play Ten Steps Ahead reveals what makes visionaries tick and how they develop and use their extraordinary powers We learn for instance how Richard Branson had the insight to trademark Virgin Galactic in the early 1990s when private spaceflight was science fiction how Richard Feynman made breakthroughs in quantum mechanics by pretending he was an electron why Jeff Hawkins walked around with a block of wood and a chopstick to help design the first Palm Pilot Erik Caloni who has interviewed many of the greatest living visionaries across disciplines and industries weaves together their stories highlights their shared attributes and draws on science to help us understand what sets them apart and shows how we too can see and make the future It's not that some people can magically see opportunities it's that the rest of us are blind to the ones around us **Beyond Adolescence** Richard Jessor, John Edward Donovan, Frances Marie Costa, 1994-07-29

Beyond Adolescence traces the lives of adolescents and youth from the late 1960s into the late seventies and early eighties It is unusual because of the period of time in which the study took place as well as because of the portion of the lifespan it covers early adulthood Concerned with understanding the role of problem behaviour in young adulthood and the factors that influence it the study also traces outcomes on young adulthood of earlier involvements in problem behaviour with an emphasis on personality and social environment The research extends and tests the theoretical framework that guided the study Problem Behaviour Theory and shows its usefulness for understanding young adult problem behaviour and development
