Due Process of Law and the Equal Protection of the Laws Hannis Taylor, 1917 **Crime within the Area of Freedom, Security and Justice** Christina Eckes, Theodore Konstadinides, 2011-01-20 The Europeanisation of the fight against crime is a broad and much contested notion This in depth analysis of the role of the EU in fighting crime within the area of freedom security and justice explores the impact of EU policies in the Member States the progressive convergence of Member States criminal law systems the emergence of mutual recognition as an alternative to harmonization and the incremental development of the ECJ s jurisdiction The essays also explore the limitations inherent in EU counter crime policies and the changes brought about by the introduction of the Treaty of Lisbon These changes are discussed both collectively and within individual substantive areas in which the EU has taken an active role in fighting crime such as corruption money laundering terrorism organised crime and extradition **Student Handbook of Criminal Justice and Criminology** John

Muncie, David Wilson, 2013-02-01 Written by some of the leading criminologists in the country this new title is a one stop shop for those who teach study or are interested in criminology and the criminal justice systems of the UK The Corporate Criminal Steve Tombs, David Whyte, 2015-03-27 Drawing upon a wide range of sources of empirical evidence historical analysis and theoretical argument this book shows beyond any doubt that the private profit making corporation is a habitual and routine offender The book dissects the myth that the corporation can be a rational responsible citizen It shows how in its present form the corporation is permitted licensed and encouraged to systematically kill maim and steal for profit Corporations are constructed through law and politics in ways that impel them to cause harm to people and the environment In other words criminality is part of the DNA of the modern corporation Therefore the authors argue the corporation cannot be easily reformed The only feasible solution to this crime problem is to abolish the legal and political privileges that enable the corporation to act with impunity **European Developments in Corporate Criminal Liability** James

Gobert, Ana-Maria Pascal, 2011-06-10 When corporations carry on their business in a grossly negligent manner or take a cavalier approach to risk management the consequences can be catastrophic The harm may be financial as occurred when such well regarded companies as Enron Lehman Brothers Worldcom and Barings collapsed or it may be environmental as illustrated most recently by the Gulf oil spill Sometimes deaths and serious injuries on a mass scale occur as in the Bhopal gas disaster the Chernobyl nuclear explosion the Paris crash of the Concorde the capsizing of the Herald of Free Enterprise and rail crashes at Southall Paddington and Hatfield in England What role can the law play in preventing such debacles and

in punishing the corporate offenders This collection of thematic papers and European country reports addresses these questions at both a theoretical and empirical level The thematic papers analyse corporate criminal liability from a range of academic disciplines including law sociology criminology economics philosophy and environmental studies whilst the country reports look at the laws of corporate crime throughout Europe highlighting both common features and irreconcilable differences between the various jurisdictions

Prohibition, Religious Freedom, and Human Rights: Regulating Traditional Drug Use Beatriz Caiuby Labate, Clancy Cavnar, 2014-03-25 This book addresses the use and regulation of traditional drugs such as peyote ayahuasca coca leaf cannabis khat and Salvia divinorum The uses of these substances can often be found at the intersection of diverse areas of life including politics medicine shamanism religion aesthetics knowledge transmission socialization and celebration The collection analyzes how some of these psychoactive plants have been progressively incorporated and regulated in developed Western societies by both national legislation and by the United Nations Drug Conventions It focuses mainly but not only on the debates in court cases around the world involving the claim of religious use and the legal definitions of religion It further touches upon issues of human rights and cognitive liberty as they relate to the consumption of drugs While this collection emphasizes certain uses of psychoactive substances in different cultures and historical periods it is also useful for thinking about the consumption of drugs in general in contemporary societies The cultural and informal controls discussed here represent alternatives to the current merely prohibitionist policies which are linked to the spread of illicit and violent markets By addressing the disputes involved in the regulation of traditional drug use this volume reflects on notions such as origin place authenticity and tradition thereby relating drug policy to broader social science debates
