Reichenbachs Letters On Od And Magnetism:

The Odic Force Karl Von Reichenbach, 2000 Odic force is a vital energy or life force that permeates all living plants animals and humans The author was the first person to approach this force scientifically having conducted hundreds of careful experiments He worked with people who were sensitive enough to accurately detect the polarity of magnets because they could actually see it These people also saw the human aura an energy field connected to the human body plus detected an energy related color spectrum that was linked to metals and minerals This is a simplified version of a more advanced text making it perfect for those wishing to grasp the subject

textbook for students of Papus's collection and sparked a revival in the study of magical herbalism in early twentieth century France. Author Paul Sdir (pseudonym of Yvon Le Loup, 1871-1926) explains the occult secrets of phyto-genesis, the esoteric origin and evolutionary development of the plant kingdom, plant physiology, the occult anatomy of plants and plant physiognomy, classification of plants according to the doctrine of signatures, Unveiling the mysteries behind planetary and zodiacal attributions, he provides readers with the keys to make their own informed determinations of the astral properties of plants. Moving from theory into practice, Sdir explores various methods of phytotherapy and plant magic, including the Paracelsian transplantation of diseases, the secret ingredients of witches' ointments and the composition of magical philters. In the third section of the book, Sdir offers a dictionary of magical plants that covers nearly 300 plant species with descriptions of their astral signatures, occult properties and medico-magical uses. Compiled from an array of rare sources and esoterica, this classic text includes a wealth of additional materials and supplemental charts and diagrams drawn from Sdir's occult colleagues, all of whom adopted and expanded upon Sdir's pioneering system of plant correspondences. *The Ultimate Reality* Joseph H. Cater, 1998-09. This book is Mr. Cater's follow-up work to *The Awesome Life Force*. It contains countless gems of thought-provoking ideas. In this two-volume set, you will discover an explanation for seemingly unexplainable phenomena: Levitation, missile weight loss in space, pyramid power, and a closer look at the properties of light. Joseph Cater points out the fundamental weakness in conventional mathematics. The role of the soft electrons is expanded upon. Magnetic fields and astronomical error in determining planetary sizes and distances are fully explained. Volume 2 carries us into the mystery of the Crystal Skull. Have you ever wondered how, from certain rock formations, water can be produced? Everything in the process of creation proceeds from the simple to the more complex. If there is a test for the validity of a theory or concept, in its ability to be explained, Joseph Cater accomplishes it in this set of books. You do not have to be a genius to understand; there is something here for everyone. **Isis** George Sarton, 1927. Brief table of contents of vols I-XX in v. 21, p. 502-618.
