The Politics of Recognition in the Age of Digital Spaces Benjamin JJ Carpenter, 2023-09-15 This book provides a philosophical analysis of the notion of selfhood that underlies identity politics It offers a unique theory of the self that combines previous scholarly work on recognition and the phenomenology of space The politics of identity occupy the centre of a contested terrain Marginalised and oppressed peoples continue to seek the transformation of our shared social world and our political institutions required for their lives to be liveable Public criticism and academic treatments of identity politics often take a disparaging view that treats it as subordinate to more general political questions about justice and the organisation of society and its institutions This book argues that these polemics ignore the numerous ways in which all politics is concerned with matters of selfhood and identity Through a rereading of

Hegel's account of recognition as an ongoing and dynamic process that constitutes the self it presents selves and the categories of identity that qualify these selves as fundamentally conditioned by the environments in which they appear before themselves and others. It also argues that we do the work of identity in public spaces particularly digital spaces and that these spaces shape what identities we can assume and what those identities mean. Contemporary social media technologies facilitate the production of particular forms of selfhood through the combined logics of the interface the profile and the post. *The Politics of Recognition in the Age of Digital Spaces* will be of interest to scholars and advanced students working in a wide range of disciplines including political philosophy phenomenology philosophy of technology sociology political theory and critical theory. It will also appeal to anyone with an interest in contemporary identity politics whether as a matter of study or lived experience.

The Cultural Pragmatics of Danger Carsten Levisen, Zhengdao Ye, 2024-08-15 This book addresses the problems and challenges of studying the discourse of danger cross linguistically and cross culturally and proposes the cultural pragmatics of danger as a new field of inquiry. Detailed case studies of several linguacultures include Arabic Chinese Danish English German Japanese and Spanish. Focusing on global and local contexts surrounding living in dangerous times this book showcases how the new model of cultural pragmatics can be used to illuminate cultural meanings in discourse. Unlike the universalist approaches to pragmatics cultural pragmatics focuses on understanding the linguacultural logics of discourse and in the case of danger the multiple cultural logics around which the themes and domains of danger revolve. The approach makes use of natural semantic metalanguage NSM as its principal analytical tool and concepts such as cultural keywords and cultural scripts figure prominently as bearers of culture specific meanings. The book will be of interest to students of pragmatics and discourse studies researchers in cultural and cognitive semantics anthropological linguistics global humanities political rhetoric and environmental studies as well as linguists working in applied areas such as risk and disaster studies crisis and emergency communication.

The Habermas Handbook Hauke Brunkhorst, Regina Kreide, Cristina Lafont, 2017-10-24 Jürgen Habermas is one of the most influential philosophers of our time. His diagnoses of contemporary society and concepts such as the public sphere communicative rationality and cosmopolitanism have influenced virtually all academic disciplines spurred political debates and shaped intellectual life in Germany and beyond for more than fifty years. In *The Habermas Handbook* leading Habermas scholars elucidate his thought providing essential insight into his key concepts the breadth of his work and his influence across politics law the social sciences and public life. This volume offers a comprehensive overview and an in depth analysis of Habermas's work in its entirety. After examining his intellectual biography it goes on to illuminate the social and intellectual context of Habermasian thought such as the Frankfurt School speech act theory and contending theories of democracy. The Handbook provides an extensive account of Habermas's texts ranging from his dissertation on Schelling to his most recent writing about Europe. It illustrates the development of his thought and its frequently controversial reception while elaborating the central ideas of his

work The book also provides a glossary of key terms and concepts making the complexity of Habermas's thought accessible to a broad readership

Fictions of Finance at the End of an American Century Richard Godden, 2023 Addressing the emergence and decline of US Fordism this volume examines how an economy determines the language of those who live among its imperatives It studies how the complexities of words and their histories derive from and register the organizing contradictions of an industrial economy and of its failure

Reading the Difficulties Thomas Fink, Judith Halden-Sullivan, 2014-02-28 Definitions of what constitutes innovative poetry are innumerable and are offered from every quarter Some critics and poets argue that innovative poetry concerns free association John Ashbery others that experimental poetry is a re staging of language Bruce Andrews or a syntactic and cognitive break with the past Ron Silliman and Lyn Hejinian The tenets of new poetry abound But what of the new reading that such poetry demands The essays in Reading the Difficulties offer case studies in and strategies for reading innovative poetry They allow readers to interact with verse that deliberately removes many of the comfortable cues to comprehension poetry that is frequently non narrative non

Reading Capitalist Realism Leigh Claire La Berge, 2014-04-01 As the world has been reshaped since the 1970s by economic globalization neoliberalism and financialization writers and artists have addressed the problem of representing the economy with a new sense of political urgency Anxieties over who controls capitalism have thus been translated into demands upon literature art and mass media to develop strategies of representation that can account for capitalism's power Reading Capitalist Realism presents some of the latest and most sophisticated approaches to the question of the relation between capitalism and narrative form partly by questioning how the realism of austerity privatization and wealth protection relate to the realism of narrative and cultural production Even as critics have sought to locate a new aesthetic mode that might consider and move beyond theorizations of the postmodern this

volume contends that narrative realism demands renewed scrutiny for its ability to represent capitalism's latest scenes of enclosure and indebtedness. Ranging across fiction, nonfiction, television, and film, the essays collected here explore to what extent realism is equipped to comprehend and historicize our contemporary economic moment and what might be the influence or complicity of the literary in shaping the global politics of lowered expectations. Including essays on writers such as Mohsin Hamid, Lorrie Moore, Jess Walter, J. M. Coetzee, James Kelman, Ali Smith, Russell Banks, William Vollmann, and William Gibson, as well as examinations of Hollywood film productions and *The Wire* television series, *Reading Capitalist Realism* calls attention to a resurgence of realism across narrative genres and questions realism's ability to interrogate the crisis-driven logic of political and economic common sense.

Encyclopedia of Criminal Justice Ethics Bruce A. Arrigo, 2014-07-17
Federal state, county, and municipal police forces all have their own codes of conduct, yet the ethics of being a police officer remain perplexing and are often difficult to apply in dynamic situations. The police misconduct statistics are staggering and indicate that excessive use of force comprises almost a quarter of misconduct cases, with sexual harassment, fraud, theft, and false arrest being the next most prevalent factors. The ethical issues and dilemmas in criminal justice also reach deep into the legal professions, the structure and administration of justice in society, and the personal characteristics of those in the criminal justice professions. The *Encyclopedia of Criminal Justice Ethics* includes A to Z entries by experts in the field that explore the scope of ethical decision making and behaviors within the spheres of criminal justice systems, including policing, corrections, courts, forensic science, and policy analysis and research. This two-volume set is available in both print and electronic formats. Features: Entries are authored and signed by experts in the field and conclude with references and further readings, as well as cross references to related entries that guide readers to the next steps in their research journeys. A Reader's Guide groups related entries by broad topic areas and themes, making it easy for readers to quickly identify related entries. A Chronology highlights the development of the field and places material into historical context. A Glossary defines key terms from the fields of law and ethics, and a Resource Guide provides lists of classic books, academic journals, websites, and associations focused on criminal justice ethics. Reports and statistics from such sources as the FBI, the United Nations, and the International Criminal Court are included in an appendix. In the electronic version, the Reader's Guide, index, and cross references combine to provide effective search and browse capabilities. The *Encyclopedia of Criminal Justice Ethics* provides a general, non-technical yet comprehensive resource for students who wish to understand the complexities of criminal justice ethics. Key Themes: History of Criminal Justice Ethics, General Criminal Justice Ethics, Police Ethics, Legal Ethics, Correctional Ethics, Criminal Justice Cases and Controversies, Technology, Crime and Ethics, Ethics and Critical Criminology.

Mike Nichols and the Cinema of Transformation J.W. Whitehead, 2014-05-21
Mike Nichols burst onto the American cultural scene in the late 1950s as one half of the comic cabaret team of Nichols and May. He became a Broadway directing sensation, then moved on to Hollywood, where his first two films, *Who's Afraid of Virginia Woolf?* (1966) and *The*

Graduate 1967 earned a total of 20 Academy Award nominations Nichols won the 1968 Oscar for Best Director and later joined the rarefied EGOT Emmy Grammy Oscar Tony club He made many other American cinematic classics including Catch 22 1970 Carnal Knowledge 1971 Silkwood 1983 Working Girl 1988 Postcards from the Edge 1990 and his late masterpieces for HBO Wit 2001 and Angels in America 2003 Filmmakers like Steven Spielberg and Steven Soderbergh regard him with reverence This first full career retrospective study of this protean force in the American arts begins with the roots of his filmmaking in satirical comedy and Broadway theatre and devotes separate chapters to each of his 20 feature films Nichols permanent achievements are his critique of the ways in which culture constructs conformity and his tempered optimism about individuals liberation by transformative awakening

Novel Shocks Myka Tucker-Abramson, 2018-12-04 Throughout the 1950s a coalition of developers politicians and planners bulldozed vast areas of land deemed slums or blighted to make way for freeways public and private housing projects cultural centers and skyscrapers While the program was national New York was ground zero and the demolition and monumental reconstruction of the city created a distinctive urban sensorium rooted in the new segregated landscapes of prosperous white private space and poor black public space Novel Shocks situates these landscapes at the center of the midcentury novel arguing that James Baldwin Ralph Ellison Patricia Highsmith Ayn Rand William Burroughs Sylvia Plath and Warren Miller all registered these new urban spaces as traumatic shocks that required new aesthetic forms Rejecting older shock based modernisms these novelists forged a new modernism which reimagined shock as a therapeutic force that would create a more flexible self reliant and resilient subject that would nourish neoliberalism s roots In offering a cultural prehistory of neoliberalism Novel Shocks resituates the Cold War novel as a key archive for understanding neoliberalism s emergence and offers a more materialist and historically grounded account of neoliberalism s subjective affective and ideological structures

Speech, Print and Decorum in Britain, 1600--1750 Elspeth Jajdelska, 2016-03-10 Filling an important gap in the history of print and reading Elspeth Jajdelska offers a new account of the changing relationship between speech rank and writing from 1600 to 1750 Jajdelska draws on anthropological findings to shed light on the different ways that speech was understood to relate to writing across the period bringing together status and speech literary and verbal decorum readership the material text and performance Jajdelska s ambitious array of sources includes letters diaries paratexts and genres from cookery books to philosophical discourses She looks at authors ranging from John Donne to Jonathan Swift alongside the writings of anonymous merchants apothecaries and romance authors Jajdelska argues that Renaissance readers were likely to approach written and printed documents less as utterances in their own right and more as representations of past speech or as scripts for future speech In the latter part of the seventeenth century however some readers were treating books as proxies for the author s speech rather than as representations of it These adjustments in the way speech and print were understood had implications for changes in decorum as the inhibitions placed on lower ranking authors in the Renaissance gave way to increasingly open social

networks at the start of the eighteenth century As a result authors from the lower ranks could now publish on topics formerly reserved for the more privileged While this apparently egalitarian development did not result in imagined communities that transcended class readers of all ranks did encounter new models of reading and writing and were empowered to engage legitimately in the gentlemanly criticism that had once been the reserve of the cultural elites Shortlisted for the European Society for the Study of English ESSE book prize 2018 *A Companion to the Modern American Novel, 1900 - 1950* John T. Matthews,2013-06-10 This cutting edge Companion is a comprehensive resource for the study of the modern American novel Published at a time when literary modernism is being thoroughly reassessed it reflects current investigations into the origins and character of the movement as a whole Brings together 28 original essays from leading scholars Allows readers to orient individual works and authors in their principal cultural and social contexts Contributes to efforts to recover minority voices such as those of African American novelists and popular subgenres such as detective fiction Directs students to major relevant scholarship for further inquiry Suggests the many ways that modern American and fiction carry new meanings in the twenty first century *Theodor Adorno and Film Theory* B. Wall,2013-03-12 What is the fundamental nature of the filmic object is it a commodity or is it can it be art What would that mean can it still matter This book introduces the thought of Theodor Adorno into film studies to repair the schism that characterizes the field as historical and cultural modes of analysis displace theoretical and philosophical ones *The Zen Impulse and the Psychoanalytic Encounter* Paul C. Cooper,2011-04-27 Although psychoanalysis and Zen Buddhism derive from theoretical and philosophical assumptions worlds apart both experientially based traditions share at their heart a desire for the understanding development and growth of the human experience Paul Cooper utilizes detailed clinical vignettes to contextualize the implications of Zen Buddhism in the therapeutic setting to demonstrate how its practices and beliefs inform relate to and enhance transformative psychoanalytic practice The basic concepts of Zen such as the identity of the relative and the absolute and the foundational principles of emptiness and dependent arising are given special attention as they relate to the psychoanalytic concepts of the unconscious and its processes transference and countertransference formulations of self and more In addition through an analysis of apophysis a unique style of discourse that serves as a basic structure for mystical languages he provides insight into the structure of the seemingly irrational Zen koan in order to demonstrate its function as a pedagogical and psychological tool Though mindful of their differences Cooper s intent throughout is to illustrate how the practices of both Zen and psychoanalysis become internalized by the individual who engages in them and can in turn inform one another in mutually beneficial ways in an effort to comprehend the ramifications of an individual or collective expanding vision *Misrecognitions* Ben Parker,2024-03-15 *Misrecognitions* mounts a vigorous defense of the labyrinthine plotting of Victorian novels notorious for their implausible concluding revelations and coincidences Critics have long decried Victorian recognition scenes the reunions and retroactive discoveries of identity that too conveniently bring the story to a close as

regrettable contrivances Ben Parker counters this view by showing how these recognition scenes offer a critique of the social and economic misrecognitions at work in nineteenth century capitalism Through a meticulous analysis of novels by Charles Dickens Anthony Trollope and Henry James as well as Arthur Conan Doyle s Sherlock Holmes stories Misrecognitions tracks how the Victorian novel translates the financialized abstractions of capital into dramas of buried secrets and disguised relations Drawing on Karl Marx s account of commodity fetishism and reification Parker contends that by configuring capital as an enigma to be unveiled Victorian recognition scenes dramatize the inversions of agency and temporality that are repressed in capitalist production In plotting capital as an agent of opacity and misdirection Victorian novels and their characteristic dialectic of illusion and illumination reveal the plot hole in capitalism itself **Alternative Educational**
