Richard III's death a boy claiming to be a Yorkist prince appeared as if from nowhere claiming to be Richard III's heir and the rightful King of England. In 1487 in a unique ceremony this boy was crowned in Dublin Cathedral despite the Tudor government insisting that his real name was Lambert Simnel and that he was a mere pretender to the throne. Now in *The Dublin King* author and historian John Ashdown Hill questions that official view. Using new discoveries, little-known evidence and insight, he seeks the truth behind the 500-year-old story of the boy king crowned in Dublin. He also presents a link between Lambert Simnel's story and that of George Duke of Clarence, the brother of Richard III. On the way, the book sheds new light on the fate of the Princes in the Tower before raising the possibility of using DNA to clarify the identity of key characters in the story and their relationships. **Atlantic Reporter**, 1904

**Social Attitudes and Political Structures in the Fifteenth Century** Tim Thornton, 2001-02-13 This volume includes papers on political, religious, social and economic history and the history of ideas during the 15th century. The papers challenge existing conceptions and open new avenues of discussion on longstanding debates. Themes covered include parliaments and their relationships with the monarchs of the period, both in Scotland and in England; queens and their role in the 15th-century English polity; the ideas that lay behind the English claims to the French throne and the rituals of peace-making in the Hundred Years War. Debates over the importance of lordship and service are also touched upon in a paper which examines Lord Hastings' retainers in the defence of Calais, while another chapter discusses the local politics of a small Welsh marcher lordship. The crucial subject of Lancastrian government finances in the 1450s also receives a fresh examination. In religious history, papers examine the activity of monastic propagandists and the religious life of cathedrals through the activity of fraternities based in them. There are also considerations of a noble widow and of the 15th-century rural economy. *A Catalogue of Books in the Gibraltar Commercial Library, Established in the Year 1806* Gibraltar Commercial Library, 1823 *Catalogue of the Library of the Boston Athenaeum* Boston Athenaeum, 1876

**The Lost Prince: Classic Histories Series** David Baldwin, 2011-11-30 Did Richard Duke of York, the younger of the Princes on the Tower, survive his imprisonment? In this revealing new book, medieval historian David Baldwin presents an original and intriguing scenario. On 27 December 1550, an old man named Richard Plantagenet was buried at Eastwell in Kent. He had spent much of his life working as a bricklayer at St John's Abbey, Colchester, but unusually for a bricklayer, he could read Latin. Reluctant to give any account of his background, he eventually told his employer that he was a natural son of Richard III. Yet if this was true, why was he not publicly acknowledged by the king? Richard III made provision for his other bastards, John of Gloucester and Katherine. The fact that he was called Richard Plantagenet is also revealing. Had he simply been Richard III's bastard, he would have been styled of Gloucester or given the name of his birthplace. And most tellingly of all, where is the evidence that Prince Richard actually died? David Baldwin opens up an entirely new line of investigation and offers a startling solution to one of the most enduring mysteries in English history and a final exoneration for Richard III. *Forster Collection* South Kensington Museum. **Contending Kingdoms'** Glenn Richardson, 2017-03-02 The kingdoms of France and England were for many centuries military economic cultural and colonial rivals This is particularly true of the early modern period which witnessed the rise of French military hegemony and the expansion of English commerce Dealing with the period 1420 1700 this collection offers a snapshot of Anglo French relations across the three centuries from established historians and younger scholars from France Britain and Luxembourg Based broadly on diplomatic history but incorporating wider perspectives from cultural and social or gender history each essay uncovers the fascinating and complex arrangements that characterize Anglo French relations in this period Competition and hostility between the two kingdoms there certainly was but it took a surprising variety of forms and often proved intellectually productive for one side or the other and sometimes for both The chapters mix treatments of broad themes and particular circumstances or individuals and each makes specific comparisons with French and English experience across the early modern period In so doing they elaborate and go beyond the evidence of Anglo French hostility to explore evidence of political co operation and cultural influences highlighting just how close early modern England s connections with France were even at times of crisis      *List of Record Publications* Great Britain.
