Reign Of Quantity:

The Reign of Quantity and the Signs of the Times René Guénon, 2001 The Reign of Quantity gives a concise but comprehensive view of the present state of affairs in the world as it appears from the point of view of the ancient wisdom formerly common both to the East and to the West but now almost entirely lost sight of The author indicates with his fabled clarity and directness the precise nature of the modern deviation and devotes special attention to the development of modern philosophy and science and to the part played by them with their accompanying notions of progress and evolution in the formation of the industrial and democratic society which we now regard as normal Gu non sees history as a descent from Form or Quality toward Matter or Quantity but after the Reign of Quantity modern materialism and the rise of the masses Gu non predicts a reign of inverted quality just before the end of the age the triumph of the counter initiation the kingdom of Antichrist This text is considered the magnum opus among Gu non s texts of civilizational criticism as is Symbols of Sacred Science among his studies on symbols and cosmology and Man and His Becoming according to the Vedanta among his more purely metaphysical works

Descripci n del editor Reign of Quantity Rene Guenon, 2000-01-01 Description The present volume carries the discussion forward that was initiated by the author in his book namely La Crise du Monde moderne As the title of the book suggests the author has been deeply concerned with the malady that has gripped the modern civilization While analyzing the sickness of contemporary civilization the author has equally concerned itself with the study of such traditional societies particularly the societies of the Orient which still maintain unbroken continuity between the past and the present As to whether this historical continuity will continue into the future is a mute question as most of the Oriental societies are giving into the pressures that Westernization has unleashed **On the Origin of Beauty** John Griffin, 2011-10-01 In the light of the looming ecological crisis facing the world today much of the stunning beauty of the natural world is being lost forever On the Origin of Beauty seeks to confront this crisis through a philosophical enquiry into

our perception of natural beauty Through discussions of numerous fields including the philosophy of science environmental ethics rationalism and Eastern and Western religion Griffin asserts that Beauty itself may be the catalyst needed to save the globe from destruction Against the Machine Paul Kingsnorth,2025-09-23 How a force that s hard to name but which we all feel is reshaping what it means to be human In *Against the Machine* furiously gifted The Washington Post novelist poet and essayist Paul Kingsnorth presents a wholly original and terrifying account of the technological cultural matrix enveloping all of us With masterful insight into the spiritual and economic roots of techno capitalism Kingsnorth reveals how the Machine in the name of progress has choked Western civilization is destroying the Earth itself and is reshaping us in its image From the First Industrial Revolution to the rise of artificial intelligence he shows how the hollowing out of humanity has been a long game and how your very soul is at stake It takes effort to remain truly human in the age of the Machine Writing in the tradition of Wendell Berry Jacques Ellul and Simone Weil Kingsnorth reminds us what humanity requires a healthy suspicion of entrenched power connection to land nature and heritage and a deep attention to matters of the spirit Prophetic poetic and erudite *Against the Machine* is the spiritual manual for dissidents in the technological age

Traditionalism Mark Sedgwick,2023 Traditionalism is a shadowy philosophy that has influenced much of the twentieth century and beyond It is a worldview that rejects modernity and instead turns to mystical truth perennialism and tradition as its guide Mark Sedgwick one of the world s leading scholars of Traditionalism presents a major new intellectual history pulling back the curtain on the foundations of Traditionalist philosophy and its major proponents Traditionalism provides an expansive guide to this important school of thought one that is little known and even less understood and shows how pervasive these ideas have become **The Essential Ren, Gu,non** René Guénon,2009-10-15 A prolific writer and author of over 24 books Rene Guenon was the founder of the Perennialist Traditionalist school of comparative religious thought Known for his discourses on the intellectual and spiritual bankruptcy of the modern world symbolism tradition and the inner or spiritual dimension of religion this book is a compilation of his most important writings A key component of his thought was the assertion that universal truths manifest themselves in various forms in the world s religions and his writings on Hinduism Taoism and Sufism are particularly illuminating in this regard *Mona Lisa's Moustache* Mary Settegast,2002-04-01 Now in paperback a groundbreaking effort to find meaning in the disintegration of Western culture by looking through the lenses of economics philosophy art physics ecology and spirituality Cultivating Gardens of God Ananta Kumar Giri,2024-11-12 In self society religion and politics we are used to the language and discourse of Kingdom of God But in this God is presented as an omnipotent king who is also angry at slight deviation We get glimpses of such powerful and angry God in Old Testament as well as in many other religious traditions of the world In such a discourse and portrayal of God we fail to realize that God is mercy rahim karuna and compassion God is our ever awakened nurturer and He and She is continuously walking and meditating with us with mercy as well as firm challenges for self development mutual realizations and responsible cosmic

engagement and participation The vision and discourse of Kingdom of God has many a time been confined within a logic of power where we are prone to valorize God s power in order to valorize our own power on Earth especially the logic of sovereignty at the level of self and society rather than realize God s mercy This book strives to transform this to Gardens of God The British Almanac ...
