Eddie Miller, Robert Corfe

Reinventing Democratic Socialism:

Reinventing Democratic Socialism Robert Corfe, 2000 This work reformulates the theory and practice of socialism in the view of the transformation of society over the past 60 years Corfe aims to fulfill the hopes of those who feel that the Labour party and socialism worldwide has lost its way and is in need of a philosophy to point the way ahead Foundations of New Socialism Robert Corfe, 2001 How can sincere support be given wholly to a political party unless it has clear principles underpinning its base Such a question is of particular relevance when asked of the Labour party in view of the events which have shattered the foundations of socialism worldwide over the past decade The author who has considerable practical experience as a Labour party activist sets out to re-establish the concept of socialism as a vision for the future But the forward looking views of New Socialism need to be very different from the old The transformation of society over the past 60 years means that old doctrines have to be replaced by new if socialism is to be made attractive to the modern man or woman

Leftism Reinvented Stephanie L. Mudge, 2018-06-04 Analyzing left leaning parties in the U S Sweden Germany and the United Kingdom Stephanie Mudge shows that the left lost voters loyalty in part because of the changing worldview of party experts Keynesian economists in the 1960s who spoke for managing the economy gave way in the 1980s to economists advocating the advancement of markets **New Socialist Business Values** Eddie Miller, Robert Corfe, 2002 This is Robert

Corfe's third book on the socio economic philosophy of New Socialism Whilst in the earlier books he laid down the theoretical foundations for New Socialist economic thinking and formulated a terminology in advancing ideas for a better world in this book he concentrates on practical proposals for ensuring an efficient financial industrial infrastructure which correlates also with a fair society **My Conflict with a Soviet Spy** Eddie Miller, 2001 Ron Evans was probably the most notorious Soviet

spy of British nationality working out of Scandinavia in the post war period This is the full story of the Ron Evans spy case told in all its drama and excitement as it occurred in the 1960s **The Spirit of New Socialism and the End of Class-based Politics** Robert Corfe, 2005 Changes in society over the past 50 years call for a new type of Socialism and this book presents a striking new dynamic to attract the 90 per cent majority in the industrialised economies of today

Reinventing Vietnamese Socialism William S Turley, Mark Selden, 2019-07-11 This book presents a variety of disciplinary and theoretical perspectives on the problematic of reform in Vietnam It explores the Vietnam's reforms in relation to those taking place in other countries of the socialist world comparing doi moi with restructuring in other socialist states *Reinventing the Left in the Global South* Richard Sandbrook, 2014-08-07 A fresh appraisal of the nature and

significance of the democratic left in the Global South *The Reinvention of Politics* Ulrich Beck, 2018-03-12 Those who advocate ideas about postmodernity and post industrialism offer radical critiques of existing social and political institutions But they provide very little in place of those institutions It is all very well to criticize the limitations of social democracy the welfare state trade unionism and social classes as agents of change but once these have been thrown into crisis what other

institutions do we have to depend on The Reinvention of Politics suggests we should think again about forging a new model of politics for our times An active devolved civil society Beck argues can sustain the claim that modernity is inherently democratic For many issues now for example those involving technology environment protest the family or gender relations belong to the domain of what the author calls subpolitics The postmodern critique of modernity in Beck s view is based on mistaken generalizations about a transitional phase in the evolution of modern society What is needed he argues is the reinvention of politics corresponding to th new demands of a society which remains modern but which has progressed beyond the earlier form of industrial society This book will be essential reading for second year undergraduates and above in the fields of social and political theory sociology and political science Power, Neoliberalism, and the Reinvention of Politics Amy Allen, Eduardo Mendieta, 2022-08-08 Wendy Brown is one of the most prolific and influential political theorists of her generation This collection of essays designed for the undergraduate classroom presents an introduction to and critical assessment of Brown s substantial body of work with a particular focus on her contributions to the tradition of critical theory Coeditors Amy Allen and Eduardo Mendieta provide an overview of Brown s work situating her scholarship in relation to some of the major thinkers and methodologies of the Frankfurt School Brown opens the discussion with a new essay expounding upon the meaning of freedom and the prospects for emancipation in our current political moment Subsequent chapters address different aspects of Brown s corpus including her early feminist interpretation of the history of political theory her influential critiques of identity politics and progressive philosophies of history and her recent interrogation of the rise of neoliberalism and the resurgence of authoritarian politics The volume concludes with Brown s response to her critics where she clarifies and expands upon the implications of her core ideas In addition to Brown and the editors the contributors to this volume include Robin Celikates Loren Goldman Asad Haider Robyn Marasco and Johanna Oksala Our Swindling Finance Houses Guy Tallice, 2002 This is a step by step account of someone who was drawn into the financial services industry despite initial scepticism describing the sleight of hand and fraudulent promises used by a major company against its own prospective and actual sales staff There are horrific stories of those inveigled into huge loans and second mortgages with no chances of repayment and all cleverly pursued as part of the company s strategic policy **Organize or Burn** Fabian Holt, 2025-10-21 A successful political playbook for fighting climate change and expanding democracy from the New York socialist movement Climate inaction is already causing widespread suffering and devastation around the world How can citizens take collective action Fabian Holt argues that we must go beyond protest and direct action and turn to the potential of hybrid organizations that bring together social movements and political parties One such movement party with recent political success is the New York City chapter of the Democratic Socialists of America NYC DSA which has become the city s main organization for movement climate politics running multi year climate pressure campaigns and a slate of climate focused electoral campaigns as well as spearheading the first Green New Deal legislation in the country the New York State

Build Public Renewables Act of 2023 Organize or Burn situates the NYC DSA in the history of the democratic socialist movement in the United States combining a political history of the insurgent international left with a richly textured local ethnography of the organization's place in the climate movement and relationship to the Democratic Party Holt argues that NYC DSA has developed a distinct approach to political organizing that has broad relevance to citizen climate mobilization The organizational innovation specifically involves integrating micro level organizing in individual campaigns and macro level organization building synthesizing approaches from traditions of social movements and electoral campaigns in the US Ultimately Holt shows that NYC DSA can offer powerful lessons in how political collective action can be meaningful in the present moment of political turbulence from the very concrete perspective of a local movement world An engaging read for political organizers scholars and concerned citizens Organize or Burn provides new insights and solutions for the climate crisis

Stakeholding and the New International Order Stella Maile, Derek Braddon, 2024-11-01 Title first published in 2003 This invaluable book provides the first definitive critical introduction to the concept of stakeholding and its implications for policy and practice of key players in the new global order Braddon and Maile take an interdisciplinary approach with particular emphasis upon the political economy of stakeholding which has become the major managerial and political motif of the 1990s

Social Capitalism in Theory and Practice: The people's capitalism Robert Corfe, 2008 In the second volume of Corfe's work on Social Capitalism he examines the financial industrial system and identifies issues which are untouched by contemporary politicians across the political spectrum

Bloomsbury, Modernism, and the Reinvention of Intimacy Jesse Wolfe, 2011-06-16 Bloomsbury Modernism and the Reinvention of Intimacy integrates studies of six members and associates of the Bloomsbury group into a rich narrative of early twentieth century culture encompassing changes in the demographics of private and public life and Freudian and sexological assaults on middle class proprieties Jesse Wolfe shows how numerous modernist writers felt torn between the inherited institutions of monogamy and marriage and emerging theories of sexuality which challenged Victorian notions of maleness and femaleness For Wolfe this ambivalence was a primary source of the Bloomsbury writers aesthetic strength Virginia Woolf D H Lawrence and others brought the paradoxes of modern intimacy to thrilling life on the page By combining literary criticism with forays into philosophy psychoanalysis sociology and the avant garde art of Vienna this book offers a fresh account of the reciprocal relations between culture and society in that key site for literary modernism known as Bloomsbury

FELIX DE LA BAUME AND HENRY WIRZ Michael Hirtzel, 2012-03-17 The name Felix De La Baume has always been synonymous with the controversial conviction and subsequent hanging of Henry Wirz Re examining both De La Baume and Wirz's roles in the most infamous prison camp of the Civil War this book attempts to revise both individual's historical perception and legacy

Death in Riyadh Geoff Carter, 2000 This is not only a travel book but a documentary on inter cultural relationships between the different races and nationalities comprising the huge expatriate population and native Arab residents of the oil

rich peninsula **Socialism** Hyman Frankel,2010-09-01 It is aimed at those especially young people who have just become involved politically as well as those engaged in single issue movements having come across the word socialism and want to know more about it It is not a detailed text book on the subject The author was a full time trade union official most of his working life he is now retired and was also involved politically on the left so is able to write with some experience and knowledge on the subject The book opens with an attempt to describe capitalism as it is now then deals with the basic ideas of socialism It then takes the reader more deeply into the politics and economics of socialism from a Marxist standpoint The remaining chapters deal with various social problems of today including the growing gap between rich and poor and between rich and poor nations feminism racism democracy freedom and liberty under socialism etc It considers the road to socialism in the light of past attempts to set up socialist regimes e g the Paris Commune of 1870 71 and the Russian Revolution from 1917 to the collapse of the Soviet system in 1989 91 It has a chapter on the history of the idea of socialism communism in Britain and Europe It also deals with the present and the future of the several new Latin American left wing regimes and concludes with a discussion of the situation in Britain today in the light of the New Labour government s swing to the right It arrives at a conclusion that the future of socialism in Britain if it has a future at all lies with ordinary people and their battle for political and economic democracy peace liberty and justice **Government and the Economy** David A.

Dieterle,Kathleen M. Simmons,2014-10-14 In this non biased politically neutral compendium the authors trace the evolution of the U S government s role in the economy including the history ideas key players and court rulings that influenced its involvement Today s economic environment is in constant flux as is the participation of governments in it Local state national and global governmental agencies have taken on new responsibilities with both positive and negative economic consequences This book looks at the changing role of American government in the economy from determining the measurements of economic health to being mindful of corporate sustainability to legislating business practices and consumer affairs This comprehensive collection of essays draws from the contributions of 25 economic scholars along with seasoned educators David A Dieterle and Kathleen C Simmons to examine economic systems and the factors that influence them The work includes summaries of important Supreme Court cases that have impacted America s economic infrastructure biographies of famous economists and descriptions of the seven key economic systems command socialism democratic socialism fascism market capitalism state capitalism transitional and welfare state Freedom From America Robert

Corfe,2006-01-16 Anti Americanism has now become an imperative for the sanity and stability of the world Over the past 30 years almost every foreign adventure of the US has led to failure in compounding existing problems and after the withdrawal of her forces conditions have been left worse than when she intervened Added to that is the resistance of her government to recognise the reality of global warming and most recently blundering policies have instigated a series of unexpected terrorist outrages on innocent victims which have made the world a more dangerous place There are many justifications for anti

Americanism but there is one which rises about all others viz a financial industrial system which clashes with the long traditions of the social democracies in Europe and the Far East Two incompatible capitalist systems have emerged amongst the advanced industrial economies in the post War period the Rentier capitalism of the US and the Productive capitalism of Europe and the Far East Each is guided by its own ideology the Neo liberalism of America versus the social democracy a broad term transcending party politics of Europe and the Far East Tiger economies With America emerging as the clear victor of the Cold War in 1989 her government and corporations have been sufficiently confident to impose their financial industrial system on the rest of the world and this is proving disastrous to the social democratic consensus and welfare policies built up since 1945 and before The argument is propagated that the European is no longer viable and must therefore surrender to the American way and globalisation but this is shown to be a fiction invented by US policy makers There is an in depth analysis of American culture which explains its political system and the US is revealed to be very far from a true democracy It is in Europe and elsewhere where the ideals of democracy justice and equity are best promoted The final chapters home in on a European resolution to the most difficult problems of our time viz the Israeli Palestinian conflict and how to defuse the causes of Terror The book is an appeal for the cause of civilisation social justice and equity for all humanity
