Vernon, 2013-04-22 *A Companion to Pedro Almodóvar* Marvin D Lugo and Kathleen M Vernon give us the ideal companion to Pedro Almodóvar's films. Established and emerging writers offer a rainbow of insights for fans as well as academics. Jerry W Carlson, Professor of Film Studies, The City College Graduate Center, CUNY. Rarely has a contemporary film artist been treated to the kind of broad, rich discussion of their work that can be found in *A Companion to Pedro Almodóvar*. Richard Peña, Professor of Film Studies, Columbia University. Once the enfant terrible of Spain's youth culture explosion, the *Movida*, Pedro Almodóvar's distinctive film style and career longevity have made him one of the most successful and internationally known filmmakers of his generation. Offering a state-of-the-art appraisal of Almodóvar's cinema, this original collection is a searching analysis of his technique and cultural significance that includes work by leading authorities on Almodóvar as well as talented young scholars. Crucially included here are contributions by film historians from Almodóvar's native Spain, where he has been undervalued by the academic and critical establishment. With a balance between textual and contextual approaches, the book expands the scope of previous work on the director to explore his fruitful collaborations with fellow professionals in the areas of art, design, fashion, and music, as well as the growing reach of a global Almodóvar brand beyond Europe and the United States to Latin America and Asia. It also proposes a reevaluation of the political meanings and engagement of his cinema from the perspective of the profound cultural and historical upheavals that have transformed Spain since the 1970s.

Transculturation, 2016-08-01 *Transculturation: Cities, Spaces, and Architectures in Latin America* explores the critical potential inherent in the notion of transculturation in order to understand contemporary architectural practices and their cultural realities in Latin America. Despite its enormous theoretical potential and its importance within Latin American cultural theory, the term transculturation had never permeated into architectural debates. In fact, none of the main architectural theories produced in and about Latin America during the second half of the twentieth century engaged seriously with this notion as a way to analyze the complex social, cultural, and political circumstances that affect the development of the continent's cities, its urban spaces, and its architectures. Therefore, this book demonstrates for the first

time that the term transculturation is an invaluable tool in dismantling the essentialist genealogical and hierarchical perspectives from which Latin American architectural practices have been viewed Transculturation Cities Spaces and Architectures in Latin America introduces new readings and interpretations of the work of well known architects new analyses regarding the use of architectural materials and languages new questions to do with minority architectures gender and travel and from beginning to end it engages with important political and theoretical debates that have rarely been broached within Latin American architectural circles

Spanish Horror Film Antonio Lazaro-Reboll, 2012-11-20 Spanish Horror Film is the first in depth exploration of the genre in Spain from the horror boom of the late 1960s and early 1970s to the most recent production in the current renaissance of Spanish genre cinema through a study of its production circulation regulation and consumption The examination of this rich cinematic tradition is firmly located in relation to broader historical and cultural shifts in recent Spanish history and as an important part of the European horror film tradition and the global culture of psychotronics

Contratos, família e sucessões: diálogos interdisciplinares
- 4a Ed - 2025 Ana Carolina Brochado Teixeira, Renata de Lima Rodrigues, 2025-09-15 O fenômeno de contratualização das relações familiares e das relações sucessórias tão bem caracterizado na presente obra confirma a versão de que no hodierno marco político e jurídico vigente o Estado somente deve limitar as liberdades individuais em nome de iguais liberdades individuais ou seja na exata medida da proteção da vulnerabilidade seja em qualquer uma de suas possíveis facetas Na ausência da necessidade de tutela de vulnerabilidades o Estado deve sobrelevar seu compromisso democrático de valorizar a autonomia dos indivíduos na condução de seus interesses individuais em nome da defesa de um projeto constitucional ancorado sobre as bases do pluralismo e da dignidade da pessoa humana Nesse sentido os contratos como a mais importante expressão da tradicional categoria dos negócios jurídicos e da forma jurídica da autonomia privada impõem-se como instrumento necessário para realização do projeto familiar e sucesso dos indivíduos quer seja na planejamento de interesses existenciais como o planejamento familiar e a gestão ou de clássicos interesses patrimoniais tais como a escolha do regime de bens do casamento e da união estável até a ampliação da natureza jurídica do pacto antenupcial na atual configuração do casamento A tendência privatização da família chancelada pela Emenda Constitucional 66 acabou por transferir o controle da desconstituição familiar para os próprios membros liberdade e responsabilidade caminham cada vez mais juntas sendo que cônjuges e companheiros a partir de uma arquitetura do projeto de vida individual e familiar construído no decorrer do relacionamento quem devem definir os rumos familiares a permanência ou não de vínculos pautados no afeto e em outros valores relevantes para si Não há dúvidas de que há limites a esse movimento principalmente quando está em jogo situações jurídicas existenciais e vulnerabilidades ou seja em algumas circunstâncias a responsabilidade com a alteridade deve

ser prioritária a qualquer movimento que busque a negociabilidade. As coordenadoras buscaram reunir nesse livro algumas reflexões com o escopo de problematizar dilemas numa zona cinzenta interdisciplinar ou seja, pretendiam problematizar espaços de autonomia negocial tanto no Direito de Família quanto no Direito Sucessório a partir de novas demandas sociais e realidades familiares. O fio condutor que permeia tais reflexões exatamente esse: no século XXI como se revela a tensão entre ordem pública e autonomia privada. Quais são as possíveis soluções para problemas derivados dessa tensão frente crescente necessidade por espaços de liberdade no âmbito das relações familiares e do direito sucessório? Quais os limites da contratualização das relações familiares? Além da atualização dos artigos a quarta edição conta com novos textos que abarcam problemas atuais e propõem soluções nesse campo que reclama cada vez mais a atuação criativa e responsável de todos que lidam com os desafios do exercício da autonomia no direito de família e sucessões. Fica o convite para que o leitor possa nos acompanhar nessa trajetória de questionamentos e problematizações e o agradecimento aos autores e editora Foco por estarem conosco nesse projeto tão instigante.

Superstições & Crendices Geraldo Spacassassi, 2022-12-22 As superstições e crendices são vestígios de um passado remoto em que o ser humano tinha uma visão mágica do mundo acreditando que diversos fatores sobrenaturais podiam interferir diretamente no seu cotidiano. Esse modo de pensar transmitido de geração a geração acaba por ser incorporado no dia a dia traduzindo-se em hábitos e gestos em especial entre as camadas populares da sociedade. Segundo o folclorista Luís da Câmara Cascudo as superstições participam da própria essência intelectual humana e não há momento na história do mundo sem a sua inevitável presença. A elevação dos padrões de vida e o domínio da máquina, a cidade industrial ou tumultuosa em sua grandeza assombrosa são outros tantos viveiros de superstições velhas renovadas e readaptadas às necessidades modernas e técnicas. Para vivermos melhor precisamos superar as inclinações negativas as circunstâncias e a influência das massas. Fazemos tudo o que tem de ser feito com esmero e o Universo responder a nosso esforço. Obviamente existe a nossa parte que se pode ser feita por nós mas existe Outra que está além do nosso controle. Podemos preparar a terra, adubar, plantar e regar. Tudo isto cabe a nós mas quanto a fazer a semente germinar e crescer só há um Poder Criador no Universo capaz de fazer isso. Meu mestre Prof. Molinero enfatizava: Ao orar não peço nada apenas agradeço a Liberdade desse servilismo acomodado. Há o de ser os nossos atos e não as nossas palavras os que nos elevam diante dos olhos de Deus.

The Invisibility Bargain Jeffrey D. Pugh, 2021-01-26 Migrants fleeing economic hardship or violence are entitled to a range of protections and rights under domestic and international law yet they are often denied such protections in practice. In an era of mass migration and restrictive responses migrant acceptance is often contingent on the expectation that they contribute economically to the host country while remaining politically and socially invisible. These unwritten expectations which Jeffrey D. Pugh calls the invisibility bargain produce a precarious status in which migrants' visible differences or overt political demands on the state may be met with hostile backlash from the host society. In this context governance networks of state and non-state actors form an institutional web that can provide indirect access to rights.

resources and protection but simultaneously help migrants avoid negative backlash against visible political activism The Invisibility Bargain seeks to understand how migrants negotiate their place in receiving societies and adapt innovative strategies to integrate participate and access protection Specifically the book examines Ecuador the largest recipient of refugees in Latin America and assesses how it achieved migrant human security gains despite weak state presence in peripheral areas Pugh deploys evidence from 15 months of fieldwork spanning ten years in Ecuador including 170 interviews an original survey of Colombian migrants in six provinces network analysis and discourse analysis of hundreds of presidential speeches and news media articles He argues that localities with more dense networks composed of more diverse actors tend to produce greater human security for migrants and their neighbors The book challenges the conventional understanding of migration and security providing a new approach to the negotiation of authority between state and society By examining the informal pathways to human security Pugh dismantles the false dichotomy between international and national politics and exposes the micro politics of institutional innovation
