The World Is Around You, But You Are in Your Car William M. Trently, 2009-05 The World is Around You but You are in Your Car is a work of fiction wrapped around an essay that describes an American problem the relentless pursuit of the perfect life and its negative consequences that adversely affect progress and behavior toward the rest of the world I want it and I want it now with its shortage of self restraint has been taken to levels not reached before and the insidious

ramifications are eye opening the easy disposability of people or principles if these should obstruct the path to the perfect life the mental depression from the strains of struggling to keep up with neighbors or the isolation from reality as people become more and more comfortable in their plush living rooms and cars The tale brings history s great philosophers together to sound an alarm and talk about ways to slow the relentless pursuit They have already debated the relevant issues with each other here in this story their role is only to inform us of their conclusions They discuss the external and internal controls that restrain the pursuit agreeing that internal control involving individual self regulation is more effective and desired than external control primarily because of its greater conduciveness to freedom the crown jewel of this civilization **Take**

The Brink
Mark Hunter, 2014-10-15 The author lays bare his own triumphs and failures while breaking down that elusive edge that turns great leaders into influencers Brad Szollose award winning author of Liquid Leadership The Brink is a method for generating leadership in an individual leader and on a team It is based on the simple assertion that leadership is created in the face of some great challenge or obstacle to overcome rather than in a vacuum or in comfortable places with no adversity The Brink model uses climbing a mountain as an analogy throughout for creating that big challenge or goal and then demonstrates how to create a team to climb it with and outlines the way to create leadership in everyone involved in the process This metaphor transfers to virtually any leadership position one holds and is organized into a clear list of ingredients essential to leadership As an adventurer I resonated with the climbing stories and analogies in The Brink However the concepts and strategies are valid and powerful for anyone looking to improve as a leader in business and life A great read
