Religion and Politics Jan-Erik Lane, Hamadi Redissi, 2020-07-24 Offering a timely new appraisal of the political and social impact of Islam Religion and Politics will be welcomed by political scientists and historians alike In this work Jan Erik Lane and Hamadi Redissi employ a Weberian approach underlining the social consequences of religious beliefs to account for the political differences between the major civilizations of the world against the background of the rise of modern capitalism in the Occidental sphere Compared with Weber and his emphasis upon economic modernization the perspective on religion is broadened to encompass post modernity particular attention is paid to human rights and the rule of law This thought provoking work raises the question of whether the tenets of Islam might be reconciled with the requirements of post modernity

**Religion and Politics** Jan-Erik Lane, Hamadi Redissi, 2020-07-24 Muslim societies are struggling under the need for modernization and the drift towards Islamic fundamentalism The balance between these two forces is struck differently in the various Muslim societies depending upon the constellation of groups as historical legacies However the tension is real In this work Jan Erik Lane and Hamadi Redissi look at the underlying social consequences of religious beliefs to account for the political differences between major civilizations of the world against a background of the rise of modern capitalism Offering a timely new appraisal of the political and social impact of Islam this expanded second edition of Religion and Politics has been fully updated in line with new events and will be welcomed by political scientists and historians alike In a readable and accessible style this thought provoking work raises the question of whether the tenets of Islam might be reconciled with the requirements of post modernity

War and Law in the Islamic World Matthias Vanhullebusch, 2015-06-05 A three part investigation on the

origins and evolving roles that Islamic law and international humanitarian law have played in regulating conflict and violence War and Law in the Islamic World brings to light legal and policy complexities that plague modern day armed conflict in the region Saudi Clerics and Shi'a Islam Raihan Ismail, 2016-03-07 The Saudi ulama are known for their strong opposition to Shi'a theology Shi'a communities in Saudi Arabia and external Shi'a influences such as Iran and Hezbollah Their potent hostility combined with the influence of the ulama within the Saudi state and the Muslim world has led some commentators to blame the Saudi ulama for what they see as growing sectarian conflict in the Middle East However there is very little understanding of what reasoning lies behind the positions of the ulama and there is a significant gap in the literature dealing with the polemics directed at the Shi'a by the Saudi religious establishment In Saudi Clerics and Shi'a Islam Raihan Ismail looks at the discourse of the Saudi ulama regarding Shiism and Shi'a communities analysing their sermons lectures publications and religious rulings The book finds that the attitudes of the ulama are not only governed by their theological convictions regarding Shiism but are motivated by political events involving the Shi'a within the Saudi state and abroad It also discovers that political events affect the intensity and frequency of the rhetoric of the ulama at any given time

**Inside Jihadism** Farhad Khosrokhavar, 2015-12-03 Jihad is the most organized force against Western capitalism since the Soviet era Yet jihadism is multifaceted and complex much broader than Al Qaeda alone In the first wide ranging introduction to today's rapidly growing jihadism Khosrokhavar explains how two key movements variously influence jihadi activists One based in the Middle East is more heavily influenced by Islamic religion and political thought The other composed of individuals growing up or living mostly in Europe and Western democracies including the United States is motivated by secular as well as religious influences Khosrokhavar interprets religious and lesser known Arabic texts and the real world economic and political dynamics that make jihadism a growing threat to Western democracies Interviews with imprisoned jihadists on what motivated their plots and actions help the readers understand reality as seen by jihadists The author concludes with recommendations to safeguard democracies from future jihadism

The Routledge Handbook of Terrorism Research Alex Schmid, 2011-02-25 This major new Handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies The content of the Handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors Together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of terrorism based on an extensive review of existing conceptualisations The work also features a large collection of typologies and surveys a wide range of theories of terrorism Additional chapters survey terrorist databases and provide a guide to

available resources on terrorism in libraries and on the Internet It also includes the most comprehensive World Directory of Extremist Terrorist and other Organizations associated with Guerrilla Warfare Political Violence Protest and Organized and Cyber Crime The Routledge Handbook of Terrorism Research will be an essential work of reference for students and researchers of terrorism and political violence security studies criminology political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism *Religion and Politics* Johann P. Arnason, 2014-04-23 Combining theoretical and empirical research these 12 essays examine the role of religion and its prospects in Europe On the one hand the volume discusses growing Islamic presence in Europe as a reminder of enduring religious pluralism not least in view of the high prominence given to Islamic experience in arguments against over generalised notions of secularisation On the other hand it explores the question of Christian motivated extremism and religious nationalism Against this background the contributors discuss the role of religion in other countries throughout the world including China Japan Russia and the MENA region **The Routledge Handbook of Terrorism Research** Alex Peter Schmid, 2011 This volume is a monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of terrorism **Civilizations in World Politics** Peter J. Katzenstein, 2009-09-10 A highly original and readily accessible examination of the cultural dimension of international politics this book provides a sophisticated and nuanced account of the relevance of cultural categories for the analysis of world politics The book's analytical focus is on plural and pluralist civilizations Civilizations exist in the plural within one civilization of modernity and they are internally pluralist rather than unitary The existence of plural and pluralist civilizations is reflected in transcivilizational engagements intercivilizational encounters and only occasionally in civilizational clashes Drawing on the work of Eisenstadt Collins and Elias Katzenstein's introduction provides a cogent and detailed alternative to Huntington's This perspective is then developed and explored through six outstanding case studies written by leading experts in their fields Combining contemporary and historical perspectives while addressing the civilizational politics of America Europe China Japan India and Islam the book draws these discussions together in Patrick Jackson's theoretically informed thematic conclusion Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science Politics of the Islamic Tradition Mohammed Moussa, 2015-10-05 Over the last two centuries the Muslim world has undergone dramatic transformations impacting the Islamic tradition and throwing into question our understanding of tradition The notion of tradition as an unmoving edifice is contradicted by the very process of its transmission and the complex role human beings play in creating and sustaining traditions is evident in the indigenous mechanisms of change within the Islamic tradition Politics of the Islamic Tradition locates the work of Egyptian cleric Muhammad al Ghazali within the context of this dynamic

Islamic tradition with special focus on his political thought Al Ghazali inherited a vast and diverse heritage which he managed to reinterpret in a changing world An innovative exploration of the change and continuity present within Muslim discourses this book brings together disparate threads of the Islamic tradition religious exegesis the contemporary Arab Middle East the Islamic state and idea of renewal in al Ghazali s thought As well as being one of the first complete treatments of al Ghazali s works this book provides an original critical approach to tradition and its capability for innovation and change countering the dichotomy between tradition and modernity that typically informs most scholarly studies on contemporary Islam Offering highly original insights into Islamic thought and engaging with critical notions of tradition this book is essential reading for students and scholars of Islamic Politics and History

**Sufi Political Thought** Milad Milani, 2017-11-06 Sufism is generally perceived as being spiritually focused and about the development of the self However Sufi orders have been involved historically as important civic and political actors in the Muslim world having participated extensively in inter faith dialogue and political challenges to religious orthodoxy This book presents a comprehensive overview of the Sufi political tradition both historically and in its present form It outlines how Sufi thought has developed examines how Sufism has been presented both by scholars and by Sufis themselves and considers Sufis active political roles It argues that Sufis frequently well educated well travelled and imaginative have been well placed to engage with other faiths and absorb their ideas into Islam but that they have also been because they understand other faiths well placed to understand the distinctiveness of Islam and thereby act as the guardians of Islam s core ideas and values

Demystifying Brahminism and Re-Inventing Hinduism Satya Shri, There is nothing more miserable than to feel that emancipation is in the air and yet suffer the slavery of a mistaken idea The author seeks to reinvent Hinduism by bringing to the fore its most fundamental postulates as 1 Worship of the monotheistic formless Brahman 2 God realisation through Nishkam Sewa selfless service 3 Social equality and brotherhood vasudhaiva kutumbakam 4 Self realisation through Jnana Yoga Karma Yoga and Bhakti Yoga 5 Salvation through worldly life of Purusharth Dharm Arth Kaam Moksha EK Samaj repudiates the following attributes as excrescences and repugnant to the faith 1 Mixing philosophy and religion made Hinduism an unorganised religion 2 Worshipping numerous deities and limiting religious service to mere darshan of the idols fragmented Hinduism 3 Hereditary priesthood as permanent intermediaries for communion with God polluted the religion 4 Occupational purity and pollution camouflaged iniquitous social divisions 5 Individual instead of congregational worship smothered Hindu brotherhood 6 Pretensions of attaining Siddhis through meditation and penances

eulogised 7 Escapism in worldly renunciation honoured 8 Fatalist karma theory made Hindus pessimistic and other worldly 9 Transmigration reincarnation 84 lakh births used as props for gradation of castes 10 Acceptance of Ahimsa made Hindus a doormat for the ruthless barbarians 11 Karma kand and Mantra Tantra Yantra etc justified as the sole religious expressions 12 Lack of proselytisation prevented Hinduism from becoming a world religion 13 Devdasi tradition made temples the venues of entertainment and recreation
