Compendium for Managers** Jeroen

Huisman, Attila Pausits, 2010 Today as never before it is imperative that university managers possess the knowledge and the competencies necessary for leading modern higher education institutions Professional management enables higher education institutions to cooperate more effectively with partners ranging from local businesses to international enterprises and other stakeholders As higher education institutions grow larger and extend their reach into new areas and the functions demanded of them multiply academic administration and management become increasingly complex thus the need for skilled management and administrative personnel becomes more acute This book emerged as the product of the European Higher Education Management and Development EHEMD project a European multilateral curriculum development project under the coordination of the Danube University Krems and funded by the European Union in the framework of the Erasmus Lifelong Learning Programme Focusing not only on theoretical points of view but also on their practical applications as demonstrated in the accompanying case studies the publication covers the key aspects of modern university management The booklet is structured so that each chapter presents a particular aspect and application of university management and the entire volume reflects the core contents of the EHEMD curriculum Can higher education management be taught While we confidently say

yes the answer needs some qualification The yes applies because higher education management is no different from any other subject in the social sciences The qualification is that a sound pedagogical philosophy and structure need to underpin such a programme The fundamentals of the EHEMD programme are that it is interdisciplinary that it is practice oriented and that students learn from each other and also learn independently With a strong emphasis on Central Southern and Eastern Europe this book addresses management challenges in higher education today and in the near future

Higher Education Pedagogies Walker, Melanie, 2005-11-01 What does higher education learning and teaching enable students to do and to become Which human capabilities are valued in higher education and how do we identify them How might the human capability approach lead to improved student learning as well as to accomplished and ethical university teaching This book sets out to generate new ways of reflecting ethically about the purposes and values of contemporary higher education in relation to agency learning public values and democratic life and the pedagogies which support these It offers an alternative to human capital theory and emphasises the intrinsic as well as the economic value of higher learning Based upon the human capability approach developed by economist Amartya Sen and philosopher Martha Nussbaum the book shows the importance of justice as a value in higher education It places freedom human flourishing and students educational development at its centre Furthermore it takes up the value Sen attributes to education in the capability approach and demonstrates its relevance for higher education Higher Education Pedagogies offers illustrative narratives of capability learning and pedagogy drawing on student and lecturer voices to demonstrate how this multi dimensional approach can be developed and applied in higher education It suggests an ethical approach to higher education practice and to teaching and learning policy development and evaluation As such the book is essential reading for students and scholars of higher education as well as university lecturers managers and policy makers concerned with teaching and learning
