Pregnant Bodies from Shakespeare to Ford Katarzyna Burzyńska, 2022-03-24 This book explores how the pregnant body is portrayed perceived and enacted in Shakespeare's and his contemporaries drama by means of a phenomenological analysis and a recourse to early modern popular medical discourse on reproduction Phenomenology of pregnancy is a fairly new and radical body of philosophy that questions the post Cartesian chasm of an almost autonomous reason and an enclosed and self sufficient male body as foundations of identity Early modern drama as is argued was written and staged at the backdrop of revolutionary changes in medicine and science where old and new theories on the embodied self clashed In this world where more and more men were expected to steadily grow isolated from their bodies the pregnant body constituted an embattled contradiction Indebted to the theories of embodiment this book offers a meticulous and detailed investigation of a plethora of pregnant characters and their pregnant embodiment in the pre modern works by Shakespeare Middleton Webster and Ford The analysis in each chapter argues for an indivisible link between an intensely embodied experience of pregnancy as enacted in space and identity shaping processes resulting in a more acute sense of selfhood and agency Despite seemingly disparate experiences of the selected heroines and the repeated attempts at containment of their unruly bodies the ever transforming and spatial pregnant identities remain loci of embodied selfhood and agency This book provocatively argues that fictional characters experience reflects tangible realities of early modern women while often deflecting the scientific consensus on reproduction in the period

Landmark Cases in Family Law Stephen Gilmore, Jonathan Herring, Rebecca Probert, 2011-07-01 There are a

number of important landmark cases in the development of Family Law in England and Wales that deserve detailed examination and lend themselves particularly well to historical examination Family law cases tend to raise highly controversial issues often on striking facts frequently provoking wider social debate and or extensive publicity Consequently the landmark cases chosen for this collection provide considerable scope not only for doctrinal analysis and explanation of the importance and impact of the decisions but also for in depth examination of the social or policy developments that influenced them The stories behind the cases provide a fascinating insight into the complexities of family life and the drama that can be found in the family courts In recent years Family Law has seen enormous changes in law s engagement with the notion of family with the enactment for example of the Civil Partnership Act 2004 the Gender Recognition Act 2004 and more recently the Human Fertilisation and Embryology Act 2008 As we begin to move forward into the new millennium this is an excellent time to engage in detailed analyses and stock taking of the landmark decisions many of which were decided in the 1970s and which have shaped modern Family Law This book provides a series of in depth studies of the key leading cases and will be of interest to students and lecturers alike
