Assembly League of Nations. Assembly, 1928 Exploring the Boundaries of Bodiliness Sigrid Müller, Slavomír Dlugos, Gerhard Marschütz, 2013-12-11 Recent developments in technology have given rise to the impression that the boundaries imposed by our bodiliness can somehow be overcome The increasing philosophical interest in bodiliness as an unavoidable human condition can be seen as a response to this far too comfortable impression The essays in this volume address the topic of bodiliness from a theological point of view They show that our perceptions of and relationships with one another cannot be divorced from our bodily condition and that this existential reality affects significantly how we understand our relationship with God The contributions also address how we can best deal with the fragility of our bodily condition as well as the challenges that technological and medical procedures for altering the appearance and constitution of our bodies pose Special attention is given to how liturgical experience not only offers us a means to respond to these challenges but also to deepen our understanding of Christian communities as ineluctably bodily *Journal de L'Assemblée de la Société Des Nations*,
