De empresarios a empleados Marianne Gonzalez Le Saux,2011 En De empresarios a empleados Marianne González Le Saux busca romper el mito muy afincado en la historiografía nacional que le asigna al Estado Docente decimonónico un rol determinante en la creación y surgimiento de la clase media chilena y cuestiona de paso la idea de una temprana movilidad social en Chile promovida por el sistema de educación pública A partir de una reinterpretación de la historiografía sobre los sectores populares en Chile la autora visibiliza la existencia de una clase media de rasgos empresariales presente ya a inicios de la República la que estaba conformada por artesanos comerciantes mineros y propietarios rurales Demuestra que fueron estos sectores y no las clases populares como se cree los que se insertaron en el sistema educacional público Estos sectores empresariales de clase media que accedieron al Liceo y en menor medida a la Universidad habrían sido los principales integrantes de los grupos de intelectuales empleados públicos y privados que irrumpieron en la escena política a principios del siglo XX Así al preguntarse por los orígenes las características y la evolución de la clase media chilena este libro trata de poner en perspectiva histórica un debate actual el rol de la educación como base de la promoción social y las formas de reproducción de las desigualdades sociales en Chile
