Security And Crime Prevention In Libraries:

Security and Crime Prevention in Libraries Michael Chaney, Alan MacDougall, 2018 *Security and Crime Prevention in Libraries* Michael Chaney, Alan F. MacDougall, 2019-05-23 First published in 1992 the purpose of this book is to identify and describe the most important factors that must be considered in making decisions about the optimal ways to provide access to information in short the best way to use the humans the machines and the intangible resources known as information particularly at the organizational level In recent years executives have begun to outsource computing and telecommunications functions primarily to control costs Traditional libraries and information centres have been disbanded in favour of service contracts or outright leasing of staff Both the private and public sector are examining their information service operations from the point of view of cost effectiveness Decisions about owning versus leasing of information are being made daily Decision makers are finding that they must deal differently with funding and budgeting of information systems and libraries than they have in the past New paradigms for these service functions already exist Not only have corporations and governments begun to contract out entire information service operations but libraries themselves have begun to consider the costs effectiveness and implications of outsourcing some of their operations and services This book provides a framework for decision makers to view and review information services within their organizations Entire units components of libraries and information centres are defined and untangled so that the widest variety of organizations can analyse their own environments Although there is a minimal use of library and computing jargon a short glossary at the end explains terms for which there is no simple English language substitute Each chapter is accompanied by comments from a broad range of experts in the information field **Library Crime and Security** Alan Jay Lincoln, Carol Zall Lincoln, 2019-12-06 This book first published in 1987 focuses on the patterns of library crime and disruption in Great Britain Canada and the United States In addition to important data on these problems there is extensive information on the characteristics of the institutions and the communities in which they are found The impact of crime on the institution and the individual is examined The authors present vital insights into the design of crime control programs in libraries of varying sizes that have or anticipate problems with crime such as book theft vandalism problem patrons and attacks against staff Major issues in the measurement incidence and consequences of crime are included as well as relevant materials from the fields of library science management criminology victimology and security An extensive security checklist is included that can serve as a guide for making the library a safer and more secure setting for staff patrons and contents **Crime Prevention, Security and Emergency Procedures for University Libraries** , 1986 This volume contains accompanying materials from a workshop on crime prevention and other security issues in libraries The original workshop occurred in 1986 in Louisville Kentucky The report contains information regarding campus security including such topics as emergency procedures crime prevention university law enforcement authority library asset protection and staff safety **Crime in the Library** Alan Jay

Lincoln,1984 **Crime Prevention, Security and Emergency Procedures for University Libraries** ,1986 This volume contains accompanying materials from a workshop on crime prevention and other security issues in libraries The original workshop occurred in 1986 in Louisville Kentucky The report contains information regarding campus security including such topics as emergency procedures crime prevention university law enforcement authority library asset protection and staff safety **Principles of Security and Crime Prevention** Pamela Collins,Truett Ricks,Clifford Van Meter,2015-03-02 This introductory text provides a thorough overview of the private security system This edition includes crime prevention and its zones of protection the theoretical framework that provides the bridge between private and public sector law enforcement From the historical development and the professional nature of security and crime prevention to the legal aspects of private security this well rounded text covers basic elements of security and crime prevention **International Encyclopedia of Information and Library Science** John Feather,Paul Sturges,2003-09-02 The International Encyclopedia of Information and Library Science was published to widespread acclaim in 1996 and has become the major reference work in the field This eagerly awaited new edition has been fully revised and updated to take full account of the many and radical changes which have taken place since the Encyclopedia was originally conceived With nearly 600 entries written by a global team of over 150 contributors the subject matter ranges from mobile library services provided by camel and donkey transport to search engines portals and the World Wide Web The new edition retains the successful structure of the first with an alphabetical organization providing the basic framework of a coherent collection of connected entries Conceptual entries explore and explicate all the major issues theories and activities in information and library science such as the economics of information and information management A wholly new entry on information systems and enhanced entries on the information professions and the information society are key features of this new edition Topical entries deal with more specific subjects such as collections management and information services for ethnic minorities New or completely revised entries include a group of entries on information law and a collection of entries on the Internet and the World Wide Web Guide to Security Considerations and Practices for Rare Book, Manuscript, and Special Collection Libraries Everett C. Wilkie,2011-09 The Guide to Security Considerations and Practices for Rare Book Manuscript and Special Collection Libraries is the first such book intended specifically to address security in special collection libraries Containing nineteen chapters the book covers such topics as background checks reading room and general building design technical processing characteristics and methods of thieves materials recovery after a theft and security systems While other topics are touched upon the key focus of this volume is on the prevention of theft of rare materials The work is supplemented by several appendices one of which gives brief biographies of recent thieves and another of which publishes Allen s important Blumberg Survey which she undertook after that thief s conviction The text is supported by illustrations a detailed index and an extensive bibliography The work compiled and edited by Everett C Wilkie Jr contains contributions from Anne Marie Lane Jeffrey Marshall Alvan

Bregman Margaret Tenney Elaine Shiner Richard W Oram Ann Hartley Susan M Allen and Daniel J Slive all members of the ACRL Rare Books Manuscripts Section RBMS and experts in rare materials and the security of these materials within special collections This work is essential reading for all those concerned with special collection security from general library administrators to rare book librarians c From Amazon com *Crime Prevention, Security and Emergency Procedures for University Libraries* ,1986 **Handbook of Loss Prevention and Crime Prevention** Lawrence J. Fennelly,2003-12-08 The Handbook of Loss Prevention and Crime Prevention Fourth Edition is the most comprehensive reference of its kind covering the latest information on every topic from community oriented policing to physical security workplace violence CCTV information security homeland security and a host of specialty areas The handbook shows how to prevent or minimize corporate losses including security breaches theft and lack of resources due to natural or man made disaster This revised volume brings together the expertise of more than forty security and crime prevention experts who provide practical information and advice Each chapter provides a wealth of information that can be put to use immediately This is a must have reference for security managers security students and all levels of security professionals Covers every important topic in the field including the latest on high tech security systems homeland security and many specialty areas Brings together the expertise of more than 40 security and crime prevention experts Each chapter provides a wealth of practical information that can be put to use immediately **Emerging Solutions in Reference Services** John D. Edwards,2013-10-18 How can you enhance reference services without adding staff Modern law librarians are under growing pressure to keep up with new technologies deal instantly with the demands of patrons keep the library safe and user friendly and generally offer the best possible service while keeping costs down Emerging Solutions in Reference Services Implications for Libraries in the New Millennium is a very practical guide for coping with rapidly changing technology and increasing demands for services Its sane well researched advice and suggestions can help you deal with the hectic days and nights behind the reference desk Emerging Solutions in Reference Services suggests up to date innovative ways to deal with the traditional issues confronting librarians including handling problem patrons and ensuring security assigning reference responsibilities teaching patrons at the reference desk or on library tours drafting enforceable rules avoiding the unauthorized practice of law charging or not charging fees for services cross training reference personnel Some of the traditional problems of law librarians are solved by computers others are actually exacerbated by the new technologies available In addition to finding ways that technology can help law librarians Emerging Solutions in Reference Services offers solutions for the special problems posed by new technology including questions of Web design setting up online reference services virtual library tours Internet training for patrons and ensuring technological competency of staff In these days of decreasing budgets and increasing demands for services Emerging Solutions in Reference Services is an invaluable resource for the librarian caught in the middle *Crime Prevention, Security and Emergency Procedures for College and University Libraries* ,1986 *Emerging Solutions in*

Reference Services John Duncan Edwards, 2001 This book describes ways in which technology can help law librarians and offers solutions for the special problems posed by new technology looking at issues related to Web design setting up online reference services virtual library tours and Internet training for patrons There is also material on handling problem patrons drafting enforceable rules avoiding the unauthorized practice of law and cross training reference personnel This work has been co published simultaneously as *Legal Reference Services Quarterly* vol 19 nos 1 2 2001 Edwards is professor of law and director of the Law Library at Drake University Law School c Book News Inc **Zaria Journal of Librarianship** ,2006

Libraries and Archives Susan G. Swartzburg, Holly Bussey, 1998-07-23 New in paperback This book fills a need for a selective bibliography focusing on design that will not only house collections appropriately but also be comfortable for readers and staff The books and articles cited here provoke thought about new technologies and materials and will enable information professionals to feel comfortable when they communicate with the various other professionals involved in the actual work of construction or renovation Contents Part One The Design of Libraries and the Preservation of Books A Summary History Part Two A Guide to the Literature with chapters on planning design the interior the environment safety and preservation Appendixes include case studies bibliographies of bibliographies and of journals and a directory of organizations With index Cloth version previously published in 1991 **Preservation** Paul Banks, Roberta Pilette, 2000-04 Preservation Issues and Planning provides a definitive and authoritative analysis of how to plan for and ensure the long term health of an institution s collection in this digital age *Management of Library and Archival Security* Robert K O'Neill, 2014-01-14 Providing a substantive approach to the issue Management of Library and Archival Security From the Outside Looking In gives librarians and collection directors practical and helpful suggestions for developing policies and procedures to minimize theft In addition this text prepares you to deal with the aftermath of a robbery or natural disaster that destroys priceless materials Through expert opinions and advice Management of Library and Archival Security will teach you how to protect and secure invaluable collections and the finances invested in them In addition Management of Library and Archival Security offers numerous suggestions for preserving collections from environmental hazards and natural disasters Contributors discuss several possible scenarios leading to the loss or destruction of library or archive materials and offer numerous measures of protection including implementing timely inventory standards using approved marketing practices keeping good user records and having knowledge of insurance coverage making a recovery plan that deals with the impact of a theft and how it may affect staff and the actual workings of a department or archive knowing who to contact after a theft such as local enforcement agencies federal officials and listing the theft on the Library Security Officer Listserv LSO to alert local and national libraries and collectors to the crime incorporating internal audits in a university setting to prevent crime and ensure accounting and administration controls are effective and efficient instituting a preservation program for collections which includes temperature control of the indoor environment studying the building design for weaknesses or

potential dangers reformatting deteriorating materials and limiting the handling of materials making plans for the aftermath of a disaster such as creating methods for risk assessment developing collection priorities and making rehabilitation policies for materials The chapters in Management of Library and Archival Security offer unique insight from a former F B I agent with extensive experience in library thefts a preservation specialist and an archivist with extensive conservation experience in order to provide you with all of the information you need to safeguard library and archive collections against theft environmental conditions natural disasters and resultant financial loss **Document Retrieval Index** ,1976 **Library of Congress Subject Headings** Library of Congress,2010
