    *"Did I Not Bring Israel Out of Egypt?"* James K. Hoffmeier, Alan R. Millard, Gary A. Rendsburg, 2016-05-19 The Hebrew

Scriptures consider the exodus from Egypt to be Israel's formative and foundational event. Indeed the Bible offers no other explanation for Israel's origin as a people. It is also true that no contemporary record regarding a man named Moses or the Israelites generally either living in or leaving Egypt has been found. Hence many biblical scholars and archaeologists take a skeptical attitude dismissing the exodus from the realm of history. However the contributors to this volume are convinced that there is an alternative more positive approach. Using textual and archaeological materials from the ancient Near East in a comparative way in conjunction with the Torah's narratives and with other biblical texts the contributors to this volume specialists in ancient Egypt ancient Near Eastern culture and history and biblical studies maintain that the reports in the Hebrew Bible should not be cavalierly dismissed for ideological reasons but rather should be deemed to contain authentic memories.

*Extreme Klimaereignisse und Hungerkatastrophen in den Prophetenbüchern* Sara Kipfer, 2023-03-20. Extreme Klimaereignisse und Hungerkatastrophen zählen zu den kontinuierlichsten Problemen mit denen sich Menschen durch alle Zeiten hindurch auseinandersetzen mussten. Gleichzeitig sind sie eng verflochten mit zeitlichen räumlichen und gesellschaftlichen Bedingungen. Mit Methoden der historischen Hungerforschung und dem da etablierten Vulnerabilitätskonzept werden die Texte der Hebräischen Bibel danach befragt wie die Menschen extreme Klimaereignisse wahrgenommen gedeutet und bewältigt haben. Dabei zeigt sich dass die Texte nie einfache monokausale Erklärungen bereithalten sondern sich auf eine Reihe von unterschiedlichen teilweise widersprüchlichen Aussagen stützen. Gott Mensch und Natur erscheinen in dieser Vorstellung als Akteure die miteinander agieren und die Katastrophe gleichermaßen mitverantworten. Extreme climate events and famines are among the most continuous problems that humans have had to deal with throughout the ages. At the same time they are closely intertwined with temporal spatial and social conditions. Using methods of historical hunger research and the established concept of vulnerability this study examines the texts of the Hebrew Bible to determine how people perceived interpreted and coped with extreme climate events. In doing so it becomes apparent that the texts never provide simple monocausal explanations but rely on a number of different sometimes contradictory statements. God humans and nature appear in this conception as actors who interact with each other and share equal responsibility for the catastrophe.

**Arch Of Society** Thomas Levy, 1995-01-01. This volume marks a departure from earlier descriptive archaeological summaries of the Holy Land. Taking an anthropological and socio-economic perspective many of the leading archaeologists who work in Israel and Jordan today present timely and concise summaries of the archaeology of this region. The Hebrew Bible Frederick E. Greenspahn, 2008 In April of 2001 the headline in the Los Angeles Times read Doubting the Story of the Exodus It covered

a sermon that had been delivered by the rabbi of a prominent local congregation over the holiday of Passover In it he said The truth is that virtually every modern archeologist who has investigated the story of the exodus with very few exceptions agrees that the way the Bible describes the exodus is not the way it happened if it happened at all This seeming challenge to the biblical story captivated the local public Yet as the rabbi himself acknowledged his sermon contained nothing new The theories that he described had been common knowledge among biblical scholars for over thirty years though few people outside of the profession know their relevance New understandings concerning the Bible have not filtered down beyond specialists in university settings There is a need to communicate this research to a wider public of students and educated readers outside of the academy This volume seeks to meet this need with accessible and engaging chapters describing how archeology theology ancient studies literary studies feminist studies and other disciplines now understand the Bible
