Making Sense of Sex William Loader, 2013-08-15 This book is about listening to what writers were saying about sex in early Judaism and Christianity; ancient words surprisingly relevant for today. It functions as both a summary and a conclusion to William Loader's five previous books on sexuality in a form accessible to those who may not have a background knowledge of early Judaism and Christianity. It also contains a useful subject index to those five previous volumes. In examining thoroughly all the relevant writings and related evidence of the Greco-Roman period, Loader dialogues with scholarship related to each writing in order to make his conclusions as objective as possible. By enabling the reader to listen respectfully to these ancient texts, *Making Sense of Sex* provides a basis for informed discussion of sexual issues today.

Reading for the Body Jay Watson, 2012-08-01 Jay Watson argues that southern literary studies has been overidealized and dominated by intellectual history for too long. In *Reading for the Body*, he calls for the field to be rematerialized and grounded in an awareness of the human body as the site where ideas, including ideas about the U.S. South itself, ultimately happen. Employing theoretical approaches to the body developed by thinkers such as Karl Marx, Colette Guillaumin, Elaine Scarry, and Friedrich Kittler, Watson also draws on histories of bodily representation to mine a century of southern fiction for its insights into problems that have preoccupied the region and nation alike: slavery, Jim Crow, and white supremacy; the marginalization of women; the impact of modernization; the issue of cultural authority and leadership; and the legacy of the Vietnam War. He focuses on the specific bodily attributes of hand, voice, and blood and the deeply embodied experiences of pain, illness, pregnancy, and war to offer new readings of a distinguished group of literary artists who turned their attention to the South: Mark Twain, Jean Toomer, Zora Neale Hurston, William Faulkner, Richard Wright, Katherine Anne Porter, Bobbie Ann Mason, and Walker Percy. In producing an intensely embodied U.S. literature, these writers, Watson argues, were by turns extending and interrogating a centuries-old tradition in U.S. print culture in which the recalcitrant materiality of the body serves as a trope for the regional alterity of the South. *Reading for the Body* makes a powerful case for the body as an important methodological resource for a new southern studies.

Empathy and the Strangeness of Fiction Maria C.

Scott, 2020-03-02 Explores how and why narrative fiction engages empathy, including Theory of Mind. Offers a broad overview of current scientific work on the effects of fiction reading on empathy, including Theory of Mind. Provides an original intervention in the field of literary theory, centring on the reflexive properties of the fictional stranger. Includes stand-alone

close readings of three novels by important French authors This book studies recent psychological findings which suggest that reading fiction cultivates empathy encouraging us to be critically reflective suspicious readers as well as participatory nave readers Scott draws on literary theory and close readings to argue that engagement with fictional stories also teaches us to resist uncritical forms of empathy and reminds us of the limitations of our ability to understand other people The book treats figures of the stranger in Balzac s *La Fille aux yeux d or* Stendhal s *Le Rouge et le Noir* and Sand s *Indiana* as emblematic of the strangeness of narrative fiction both drawing us in and keeping us at a distance

Stereotype and Destiny in Arthur Schnitzler's Prose Marie Kolkenbrock, 2018-02-08 What was the function of the invocation of destiny in the increasingly secularized era of turn of the century Vienna By exploring this question *Stereotype and Destiny in Arthur Schnitzler's Prose* offers a new psycho sociological perspective on the narrative works of Arthur Schnitzler While Vienna 1900 as a site of crisis has been established in the scholarship this book focuses on the presence of forces that deny the existence of said crisis and work to contain its subversive and critical potential Stereotype and destiny emerge in Schnitzler s prose texts as a form of these counter critical forces In her readings Kolkenbrock shows that stereotype and destiny serve as an interrelated coping mechanism for a central psychological conflict of modernity the paradoxical need to be recognized as normal and special at the same time While through the complex of stereotype and destiny Schnitzler s prose addresses central modern questions of identity and subjecthood Kolkenbrock s close readings also reveal how the texts inscribe themselves aesthetically in the literary tradition of Romanticism and as such offer crucial sources for understanding Schnitzler s representations of embattled subjecthood within broader social and aesthetic traditions
