## Seers And Scientists:

*The Science of Seers* Fatih Gunicen,2021-03-25 Carlos Castaneda is one of the most widely read authors in history And the twelve books he has written tell us about his unique experiences with don Juan Matus an Indian shaman sage he once apprenticed However the extraordinarily profound subjects described by Castaneda have not to this day been fully understood and they still stand as a raw material So the sole purpose of this book is to process this raw material and reveal the true meaning of what Castaneda speaks of in his books On the other hand this is not only a book of What did Castaneda actually mean It analyzes what he has written in a simple and understandable manner as it has never before been done even moving to an upper level to reveal it is actually a sort of science Therefore just like the science of matter it is also a kind of science And considering the importance of the creation of all things in this universe as polar twins by God Almighty this science also claims its place in this universe as the opposite twin of modern science forming the other side of the coin God Almighty allows the flourishing of the Science of Seers in an isolated place such as Central America far away from the Known World Then by sending an anthropologist there such as Castaneda He enables all this information to make an appearance on the stage of history This information becoming known through Castaneda also makes it possible for us to carry out a cross check of the science of matter Although the science of matter and the science of seers are poles apart there is a common ground where they meet to reject the religion and God Almighty as its Owner Even though their backgrounds are completely different from each other these two sciences deny the religion But at the same time they also refuse to acknowledge each other and both claim to be the only truth On the other hand don Juan states Our minds can only be a witness to this universe having nothing to say about it Therefore each of these two sciences actually takes the stand as a witness to this universe And the Almighty God who taught man what he did not know manifests to us the true nature of the things they bear witness to Thus while explaining the collection of knowledge revealed by the seers this book also places it safely on a cornerstone and explains it in the light of the Koran Because the Koran not only clarifies many arguments used by the seers but also displays that God Almighty is their real Owner On the other hand just like the scientists the seers also suggest that their knowledge is the one and only which is not the case Because God Almighty reveals their knowledge and much more to us in the Holy Koran Therefore this book also contains information about Islam and in fact shows us that it is something very different from what is described on televisions and newspapers Moreover it speaks of the Prophets as Jesus and Moses mentioned in the Koran while making references to the seers

*Seers and Scientists* Ann E. Weiss,1986 Discusses the phenomenon of predicting the future its history philosophy dangers and different methods both mystical and scientific from ancient arts such as astrology to modern weather forecasting and the study of earthquakes

**Little Masterpieces of Science: The Naturalist as Interpreter and Seer** Various,2022-09-15 In Little Masterpieces of Science The Naturalist as Interpreter and Seer a diverse collection of essays from eminent naturalists the book celebrates the intersection of scientific inquiry and literary

artistry Each piece serves not merely as a scientific exposition but as a profound reflection on nature emphasizing the naturalist's role in interpreting the world and revealing deeper truths The literary style is rich and evocative drawing on both precise observation and a lyrical approach that invites readers into a contemplative engagement with the natural world This anthology situates itself within the broader context of 19th and early 20th century science writing blending empirical rigor with philosophical musings reflecting the era's fascination with both discovery and the sublime The contributors hailing from various scientific backgrounds have contributed significantly to the field driven by a passion for nature and an understanding of humanity's place within it Their works emerge from a historical moment marked by burgeoning scientific exploration and a growing acknowledgment of the interconnectedness of all life The integration of narrative and observation reveals their belief in the importance of perspective in scientific discourse encouraging readers to consider the philosophical dimensions of naturalism This book is essential for anyone interested in the arts of observation the beauty of nature and the intricate relationship between science and literature It appeals to scholars students and lay readers alike inviting them to reconsider the role of the naturalist not merely as a scientist but as a profound interpreter and seer of the living world **The Secret**

**Path** Paul Brunton, 2011-08-31 The treasure trove of the real self is within us but it can be lifted only when the mind is still Paul Brunton was one of the 20th century's greatest explorers of and writers on the spiritual traditions of the East He travelled widely throughout India in particular and met gurus and teachers who enriched his life immeasurably By passing on to us the wisdom he learned directly from these holy men he is widely credited as having introduced yoga and meditation to the West In *The Secret Path* Paul Brunton explains in simple language how to meditate and how this will transform your everyday existence He also describes the remarkable experiences and understandings he himself gained from meditation and how by making this ancient practice a part of your life you will be able to experience a valuable kind of freedom and a deep inner peace The classic work which has been reprinted many times is a very special pointer towards your inner world and one written by a most unusual and adventurous man of insight *The Journal [afterw.] The Madras journal of literature and science*, ed. by J.C. Morris Madras literary society, 1837 *The Immortal Science* Vijay Singh Rajput, 2020-07-29 The

*Immortal Science* is a tale of a Shiva and Adi Sakti who emerged from Singularity as a pre destined meet to love and to create the universe The book is based on the chronology of the universe according to Vedic Science in which mass energy space and time are the result of Anahad Naada which is called Big Bang by modern science Vedic science narrates the cause of Big Bang and also the stage before the Big Bang i.e. Anahad Naada phase of inflation in the form of Maha Vishnu and the beginning of time as a Brahma The summon of Rudra and the onset of war between matter and antimatter the grand unification theory Ishaan Shiva and splitting of four fundamental forces in the form of four Rudras are discussed in this book The story starts with the appearance of Pashupat the radiant effulgence in the form of cosmic microwave background CMB

Cox,2008-04-18 Outlines the principles and mechanics of the soul body the spiritual vehicle that enables individual consciousness to survive the body s death Shows that the ancient Vedic Egyptian Hebraic and Pythagorean traditions shared and understood this spiritual practice Reveals modern science as only now awakening to this ancient sacred science Ancient peoples the world over understood that individual consciousness is rooted in a universal field of consciousness and is therefore eternal surviving the passing of the physical body They engaged in spiritual practices to make that transition maximally auspicious These practices can be described as a kind of alchemy in which base elements are discarded and higher levels of consciousness are realized The result is the creation of a vehicle a soul body that carries consciousness beyond physical death These spiritual preparations are symbolized in the Vedic Egyptian and Hebraic traditions as a divine stairway or ladder a step by step path of

ascent in which the practitioner raises consciousness by degrees until it comes to rest in the bosom of the infinite thereby becoming immortal This spiritual process explains the reincarnation of the Dalai Lama for example whose reincarnation is confirmed in infancy through physical and spiritual signs indicating that the consciousness has been carried from one lifetime to the next In *Creating the Soul Body* Robert Cox maps the spiritual journey of consciousness behind this sacred science of immortality and reveals the practice of creating a soul body in detail He also shows that this ancient spiritual science resembles advanced theories of modern science such as wave and particle theory and the unified field theory and reveals that modern science is only now awakening to this ancient science of immortality     *Elementary Natural Science* Venkutrao Ramchandra, 1869     **Scientific Reports** Indian Agricultural Research Institute, Delhi, 1914     On the Origin of Earthquakes Kovács György, 2025-09-15 Earthquakes have long been regarded as one of the primary causes of the most devastating natural disasters in history and as such have attracted particular attention throughout the ages Various theories have been put forward regarding their origin But what could be the true cause of earthquakes Gravitational mass redistribution mechanical stresses arising from the Earth's cooling electrical discharges continental drift seafloor spreading plate tectonics or some other physical phenomenon In this thought provoking work the author seeks to answer this compelling question through groundbreaking research compelling theories and authoritative publications     Gleanings in Science, 1830     *Annual Scientific Report* Indian Agricultural Research Institute, 1914
