Cave Ralph Crane, Lisa Fletcher, 2015-04-15 Shortlisted for the Tratman Award 2015 To enter caves is to venture beyond the realm of the everyday From huge vaulted caverns to impassable water filled passages from the karst topography of Guilin in China to the lava tubes of Hawaii from tiny remote pilgrimage sites to massive tourism enterprises caves are places of mystery Dark spaces that remain largely unexplored caves are astonishing wonders of nature and habitats for exotic flora and fauna This book investigates the natural and cultural history of caves and considers the roles caves have played in the human imagination and experience of the natural world It explores the long history of the human fascination with caves across countries and continents examining their dual role as spaces of both wonder and fear It tells the tales of the adventurers who pioneered the science of caves and those of the explorers and cave divers still searching for new unmapped routes deep into the earth This book explores the lure of the subterranean world by examining caving and

cave tourism and by looking to the mythology literature and art of caves This lavishly illustrated book will appeal to general readers and experts alike interested in the ecology and use of caves or the extraordinary artistic responses earth's dark recesses have evoked over the centuries *Storytelling with Children in Crisis* Molly Salans, 2004-01-15 This book looks at the benefits to children of listening to fairy tales a selection of which are provided and creating their own I found *Storytelling with Children in Crisis* thought provoking and I am glad I was able to put into practice some of its ideas *Counselling Children and Young People Journal* Describing home based therapeutic work in real life chaotic families this book has relevance to anyone working with children and families What is most helpful is the author's readiness to discuss her own doubts and vulnerabilities *Community Care* Molly Salans has been a storyteller for many years visiting children in deprived areas who have depression ADHD and behavioral problems caused by poverty absent fathers depressed mothers run down schools and violence Describing her therapy sessions as they happened Molly Salans puts the children in the context of their lives and recounts her sessions the folk and fairy stories she told and the ones they developed themselves In doing so she shows how storytelling and listening thinking about characters in the stories and talking about alternative endings inspires the imagination compassion and way of thinking needed to cope with such emotionally difficult lives This remarkable book includes over fifteen original children's drawings and reveals the methodology Molly uses to help heal these children and their families making it essential for all those involved in therapy and in storytelling **Marvellous Thieves** Paulo Lemos Horta, 2017-01-16 A fascinating work of cultural and literary history An insightful examination of the Arabian Nights and the fraught complexities of translation *Kirkus Reviews* Although many of its stories originated centuries ago in the Middle East the Arabian Nights is regarded as a classic of world literature by virtue of the seminal French and English translations produced in the eighteenth and nineteenth centuries Supporting the suspicion that the story collection is more Parisian than Persian some of its most famous tales including the stories of Aladdin and Ali Baba appear nowhere in the original sources Yet as befits a world where magic lamps may conceal a jinni and fabulous treasures lie just beyond secret doors the truth of the Arabian Nights is richer than standard criticism suggests *Marvellous Thieves* which draws on hitherto neglected sources is a brilliant fluent and original work of literary scholarship *Robert Irwin Literary Review* This fine book cogently probes an influential period in the knotted and at times sordid history of the Arabian Nights serving as a fine example to those unraveling this promiscuous and forever malleable set of stories *Charles Shafaieh Wall Street Journal* Intelligent and engrossing The great merit of Horta's book is that its interest always lies in the story of the story in mapping out the complex network of the translators editors and travellers behind the Arabian Nights in ways that enrich our sense of this remarkable text *Shahidha Bari Times Higher Education* *The Square Deal* ,1905 *Public Things* Bonnie Honig, 2017-03-01 In the contemporary world of neoliberalism efficiency is treated as the vehicle of political and economic health State bureaucracy but not corporate bureaucracy is seen as inefficient and privatization is seen as a magic cure for social ills In *Public Things*

Democracy in Disrepair Bonnie Honig asks whether democracy is possible in the absence of public services spaces and utilities In other words if neoliberalism leaves to democracy merely electoral majoritarianism and procedures of deliberation while divesting democratic states of their ownership of public things what will the impact be Following Tocqueville who extolled the virtues of pursuing in common the objects of common desires Honig focuses not on the demos but on the objects of democratic life Democracy as she points out postulates public things infrastructure monuments libraries that citizens use care for repair and are gathered up by To be gathered up refers to the work of D W Winnicott the object relations psychoanalyst who popularized the idea of transitional objects the toys teddy bears or favorite blankets by way of which infants come to understand themselves as unified selves with an inside and an outside in relation to others The wager of Public Things is that the work transitional objects do for infants is analogously performed for democratic citizens by public things which press us into object relations with others and with ourselves Public Things attends also to the historically racial character of public things public lands taken from indigenous peoples access to public goods restricted to white majorities Drawing on Hannah Arendt who saw how things fabricated by humans lend stability to the human world Honig shows how Arendt and Winnicott both theorists of liveness underline the material and psychological conditions necessary for object permanence and the reparative work needed for a more egalitarian democracy

BOOK JACKET **Immanent Frames** John Caruana, Mark Cauchi, 2018-05-31 Explores a growing number of films and filmmakers that challenge the strict boundaries between belief and unbelief For some time now thinkers across the humanities and social sciences have increasingly called into question the once dominant view of the relationship between modernity and secularism prompting some to speak of a postsecular turn Until now film studies has largely been silent about this development even though cinema itself has been a major vehicle for such reflection This fact became inescapable in 2011 when Terrence Malick s *The Tree of Life* and Lars von Trier s *Melancholia* were released within days of each other While these two audacious and controversial films present seemingly opposite perspectives the former a thoughtful meditation on faith the latter a portrayal of nontriumphalist atheism together they raise critical questions about transcendence and immanence in modern life These films are however only the most conspicuous of a growing body of works that call forth similar and related questions what this collection aptly calls postsecular cinema Taking the nearly simultaneous release of *The Tree of Life* and *Melancholia* as its starting point and framing device this pioneering collection sets out to establish the idea of postsecular cinema as a distinct body of films and a viable critical category Adopting a film philosophy approach one group of essays examines Malick s and von Trier s films while another looks at works by Chantal Akerman Denys Arcand the Dardenne brothers and John Michael McDonagh among others The volume closes with two important interviews with Luc Dardenne and Jean Luc Nancy that invite us to reflect more deeply on some of the central concerns of postsecular cinema
