Dakini's Warm Breath Judith Simmer-Brown, 2002-12-10 A fresh interpretation of the dakini a Tibetan Buddhist symbol of the feminine that will appeal to practitioners interested in goddess worship female spirituality and Tantric Buddhism The primary emblem of the feminine in Tibetan Buddhism is the dakini or sky dancer a semi wrathful spirit woman who manifests in visions dreams and meditation experiences Western scholars and interpreters of the dakini influenced by Jungian psychology and feminist goddess theology have shaped a contemporary critique of Tibetan Buddhism in which the dakini is seen as a psychological shadow a feminine savior or an objectified product of patriarchal fantasy According to Judith Simmer Brown who writes from the point of view of an experienced practitioner of Tibetan Buddhism such interpretations are inadequate In the spiritual journey of the meditator Simmer Brown demonstrates the dakini symbolizes levels of personal realization the sacredness of the body both female and male the profound meeting point of body and mind in meditation the visionary realm of ritual practice and the empty spacious qualities of mind itself When the meditator encounters the dakini living spiritual experience is activated in a nonconceptual manner by her direct gaze her radiant body and her compassionate revelation of reality Grounded in the author's personal encounter with the dakini this unique study will appeal to both male and female spiritual seekers interested in goddess worship women's spirituality and the tantric tradition

Tibetan Buddhism in Diaspora Ana Cristina O. Lopes, 2014-12-17 The imperialist ambitions of China which invaded Tibet in the late 1940s have sparked the spectacular spread of Tibetan Buddhism worldwide and especially in western countries This work is a study on the malleability of a particular Buddhist tradition on its adaptability in new contexts The book analyses the nature of the Tibetan Buddhism in the Diaspora It examines how the re signification of Tibetan Buddhist practices and organizational structures in the present refers back to the dismantlement of the Tibetan state headed by the Dalai Lama and

the fragmentation of Tibetan Buddhist religious organizations in general It includes extensive multi sited fieldwork conducted in the United States Brazil Europe and Asia and a detailed analysis of contemporary documents relating to the global spread of Tibetan Buddhism The author demonstrates that there is a de institutionalized and de territorialized project of political power and religious organization which among several other consequences engenders the gradual autonomization of lamas and lineages inside the religious field of Tibetan Buddhism Thus a spectre of these previous institutions continues to exist outside their original contexts and they are continually activated in ever new settings Using a combination of two different academic traditions namely the Brazilian anthropological tradition and the American Buddhist studies tradition it investigates the process of cultural re signification of Tibetan Buddhism in the context of its Diaspora Thus it will be a valuable resource to students and scholars of Asian Religion Asian Studies and Buddhism

Indian Philosophy and Religion Dr. Ravi Prakash 'Babloo', 2021-09-11

In ancient Indian philosophy philosophy and religion cannot be separated primarily because of the cultural integration of religious practices and mystical pursuits For example ceremonies celebrating birth marriage and death performed with recitations of Vedic verses mantras were important for bonding within ancient Indian societies Later different social practices developed Thus the orthodox classical schools of thought are distinguished from nonorthodox classical schools by their allegiance to established forms of social practice rather than to the doctrines of the Veda Buddhism for example constitutes much more of a break with Vedic practices than with the ideas developed in Vedic traditions of thought In fact the Upanishads mystical treatises continuous with the Vedas foretell many Buddhist teachings In ancient
