Poetry, Signs, and Magic Thomas M. Greene, 2005 Poetry Signs and Magic brings together in a single volume fourteen new and previously published essays by the eminent Renaissance scholar and literary critic Thomas M. Greene This collection looks back toward two earlier volumes by Greene his first essay collection

The Vulnerable Text Essays on Renaissance Literature and Poesie et Magie whose theme is here explored again at greater length and depth from linguistic and literary critical perspectives Greene argues that certain poetic gestures draw their peculiar strengths by serving as vestiges of poetry's ancestral acts magic prayer and invocation Poetry in other words feigns an earlier power but in this diminishment there occurs a verbal subtlety and figural poignancy commonly associated with art's aesthetic pleasures Greene employs his well known skills as a close reader to texts by a range of writers including a variety of contemporary theorists in diverse contexts the distinction between disjunctive and conjunctive linguistics dual theories of sound and meaning of crucial importance to Plato and Aristotle to Catholic and Protestant debates on the sacraments to the more recent skeptical methodologies of Derrida and de Man Thomas M Greene was a Professor of English and Comparative Literature at Yale University *Five Ballets from Paris and St. Petersburg* Doug Fullington, Marian Smith, 2024-03-26 This book offers something entirely new detailed scene by scene descriptions of the action and dancing of Giselle Paquita Le Corsaire La Bayad re and Raymonda bringing the reader far closer to what the audience saw when the curtain went up on these five classic story ballets than has heretofore been possible Drawing on archival documents the authors show that these ballets were like today's pop entertainment funnier more violent more spectacular and with female characters far stronger than one might expect This rigorously researched book fills huge gaps in dance history and is bound to be of interest to practitioners scholars and devotees of ballet and the arts **Dance, from Magic to Art** Lois Ellfeldt, 1976
