**Night Magic** Leigh Ann Henion, 2024-09-24 From a New York Times bestselling nature writer comes a celebration of what goes on outside in the dark from blooming moon gardens to nocturnal salamanders from glowing foxfire and synchronous fireflies that blink in unison like an orchestra of light In this glorious celebration of the night New York Times bestselling nature writer Leigh Ann Henion invites us to leave our well lit homes step outside and embrace the dark as a profoundly beautiful part of the world we inhabit Because no matter where we live we are surrounded by animals that rise with the moon and blooms that reveal themselves as light fades Henion explores her home region of Appalachia where she attends a synchronous firefly event in Tennessee a bat outing in Alabama and a moth festival in Ohio In North Carolina she finds forests alight with bioluminescent mushrooms neighborhood trees full of screech owls and valleys teeming with migratory salamanders Along the way Henion encounters naturalists biologists primitive skills experts and others who ve dedicated their lives to cultivating relationships with darkness Every page of this lyrical book feels like an opportunity to ask How did I not know about this before For example we learn that it can take hours not minutes for human eyes to reach full night vision capacity

And that there are thousands of firefly species on earth many with flash patterns as unique as fingerprints In an age of increasing artificial light Night Magic focuses on the amazing biodiversity that still surrounds us after sunset We do not need to stargaze into the distant cosmos or dive into the depths of oceans to find awe in the dark There are dazzling wonders in our own backyards And readers of World of Wonders Entangled Life and The Hidden Life of Trees will discover joy in Night Magic
