**Magic and Ritual in the Ancient World** Paul Allan Mirecki,Marvin W. Meyer,2002 This volume contains a series of provocative essays that explore expressions of magic and ritual power in the ancient world The strength of the present volume lies in the breadth of scholarly approaches represented The book begins with several papyrological studies presenting important new texts in Greek and Coptic continuing with essays focussing on taxonomy and definition The concluding essays apply contemporary theories to analyses of specific test cases in a broad variety of ancient Mediterranean cultures Paul Mirecki Th D 1986 in Religious Studies Harvard Divinity School is Associate Professor of Religious Studies at the University of Kansas Marvin Meyer Ph D 1979 in Religion Claremont Graduate School is Professor of Religion at Chapman University Orange California

and Director of the Coptic Magical Texts Project of the Institute for Antiquity and Christianity      **Magic and Divination in the Old Testament** Solomon Nigosian, 2008-07-25 Explores the practices and rituals associated with magic and divination among the ancient Israelites as documented in the Old Testament      **Apocalyptic and Merkavah Mysticism** Ithamar Gruenwald, 2014-08-21 This is a new and revised edition of the book first published 1980 It contains new introductory and concluding chapters as well as a Bibliography and updated Index Furthermore substantial corrections updates and changes have been made in the original text The changes concern matters of language and style they nuance the line of argumentation and they update the discussion of major issues The new chapters fill several scholarly gaps that have opened since the initial publication of this book in 1980 The new Introductory Chapter explores new venues and issues in the study and assessment of the Hekhalot literature and relevant passages in apocalyptic literature and this in light of epistemological and ontological considerations The Concluding Chapter discusses the ritual praxis of the experience of the Hekhalot mystics and its affinity to magic and this in terms of new approaches to ritual theory      Aristotelianism and Magic in Early Modern Europe Donato Verardi, 2023-06-15 Reframing Aristotle's natural philosophy this wide ranging collection of essays reveals the centrality of magic to his thinking From late medieval and Renaissance discussions on the attribution of magical works to Aristotle to the philosophical and social justifications of magic international contributors chart magic as the mother science of natural philosophy Tracing the nascent presence of Aristotelianism in early modern Europe this volume shows the adaptability and openness of Aristotelianism to magic Weaving the paranormal and the scientific together it pairs the supposed superstition of the pre modern era with modern scientific sensibilities Essays focus on the work of early modern scholars and magicians such as Giambattista Della Porta Wolferd Senguerd and Johann Nikolaus Martius The attribution of the Secretum secretorum to Aristotle the role of illusionism and the relationship between the technical and magical all provide further insight into the complex picture of magic Aristotle and early modern Europe Aristotelianism and Magic in Early Modern Europe proposes an innovative way of approaching the development of pre modern science whilst also acknowledging the crucial role that concepts like magic and illusion played in Aristotle's time      From Barbarians to New Men : Greek, Roman, and Modern Perceptions of Peoples from the Central Apennines Emma Dench, 1995-11-02 The Central Apennine peoples represented alternately as decadent and dangerous snake charming barbarians or as personifications of manly wisdom and virtue as austere and worthy new men were important figures in Greek and Roman ideology Concentrating on the period between the later fourth century BC and the aftermath of the Social War this book considers the ways in which Greek and Roman perceptions of these peoples developed reflecting both the shifting needs of Greek and Roman societies and the character of interaction between the various cultures of ancient Italy Most importantly it illuminates the development of a specifically Roman identity through the creation of an ideology of incorporation The book is also about the interface between these attitudes and the dynamics of the perception of local communities in Italy of themselves

illuminated by both literary and archaeological evidence An important new contribution to modern debates on Greek and Roman perceptions of other peoples the book argues that the closely interactive conditions of ancient Italy helped to produce far less distanced and exotic images than those of the barbarians in fifth century Athenian thought Contemporary Paganism Graham Harvey,2011-02-07 An introduction to modern Paganism and its roots and history The Pagan tradition celebrates the physical nature of life on earth blending science with spiritual folklore Considering the everyday world of food health sex work and leisure to be sacred Pagans oppose that which threatens life such as deforestation overdevelopment and nuclear power and invoke ancient deities in this struggle for the well being of the earth and its inhabitants Contemporary Paganism presents a broad based introduction to the main trends of contemporary Paganism revealing the origins and practical aspects of Druidry Witchcraft Goddess Spirituality and Magic Shamanism and Geomancy among others Making use of both traditional history and the movement s more imaginative sources Harvey reveals how Paganism and its central focus on individual and social lives is evolving and how this new religion perceives and relates to more traditional ones This updated and expanded new edition addresses recent developments among Pagans and includes a new chapter assessing continuing scholarly research about the religion *Airman* ,1967 Education and Training in Developmental Disabilities ,2003-03 Officina Magica Shaul Shaked,2021-10-25 This book discusses various aspects of the theory and practice of magic in antique cultures around the Mediterranean While some of its contributors address problems of methodology of research into magic and the definition of magic others deal with specific historical and textual issues Although a major focus is on Jewish texts ranging from antiquity to the medieval period the book also includes studies of several magical texts from ancient Mesopotamia and their impact on later magical practice and studies of Greek and Zoroastrian texts and artifacts The approaches thus range from the examination of textual or visual sources to theoretical issues such as the history of research and the definition of magic **Flawed Commanders and Strategy in the Battles for Italy, 1943-45** Andrew Sangster,Pier Paolo Battistelli,2023-02-23 The authors offer a very different perspective on this campaign and are very frank in their assessment of the performance of the Allies and Germans on many levels New York Journal of Books Wars never run according to plan perhaps never more so than during the Italian campaign 1943 45 where necessary coordination between the different armies added additional complexity to Allied plans Errors in the strategies tactics the coalition tensions and operations at campaign command level can clearly be seen in firsthand accounts of the period This new account examines the Italian campaign from Sicily to surrender in 1945 exploring the strategy intentions motives plans and deeds It then offers a detailed insight into the five commanders who led the battles in Italy the two British commanders Montgomery and Alexander two American Patton and Clark and the leading German commander Field Marshal Kesselring Their personal notes and accounts taken alongside archival material provides some surprising conclusions Montgomery was not quite the master of war he is portrayed as Patton had serious flaws exposed by wasting men s lives to save a relative and overlooking

the shooting of prisoners of war Clark lost lives to bolster his image Alexander the gentleman was far too vague to be effective as a senior leader Meanwhile condemned war criminal Kesselring appears to be the most efficient and also like Alexander one of the most popular leaders

**Religious Individualisation** Ralph Haeussler,Anthony King,2023-03-23 The Roman world was diverse and complex And so were religious understandings and practices as mirrored in the enormous variety presented by archaeological iconographic and epigraphic evidence Conventional approaches principally focus on the political role of civic cults as a means of social cohesion often considered to be instrumentalized by elites But by doing so religious diversity is frequently overlooked marginalizing deviating cult activities that do not fit the Classical canon as well as the multitude of funerary practices and other religious activities that were all part of everyday life In the Roman Empire a person s religious experiences were shaped by many and sometimes seemingly incompatible cult practices whereby the civic and imperial cults might have had the least impact of all Our goal therefore is to rethink our methodologies aiming for a more dynamic image of religion that takes into account the varied and often contradictory choices and actions of individual which reflects the discrepant religious experiences in the Roman world Is it possible to poke into the mind of an individual in Roman times whatever his her status and ethnicity and try to understand the individual s diverse experiences in such a complex interconnected empire exploring the choices that were open to an individual This also raises the question whether the concept of individuality is valid for Roman times In some periods the impact of individual actions can be more momentous the very first adoption of Roman style sculpture cult practices or Latin theonyms for indigenous deities can set in motion long term processes that will significantly influence people s perceptions of local deities their characteristics and functions Do individual choices and preferences prevail over collective identities in the Roman Empire compared to pre Roman times To examine these questions this volume presents case studies that analyze individual actions in the religious sphere
