involved **Tarot Talismans** Sandra Tabatha Cicero, Chic Cicero, 2006 According to Chic Sandra Tabatha Cicero the tarot is much more than a collection of symbolic images it s a vibrant ecosystem of interconnected energies and entities In this groundbreaking approach to tarot they introduce how these powerful cards can be magically transformed into talismans and amulets Part one of this book explores the nature of talismans and amulets how magic works the role of the divine in magic and magical ethics The specific energies and talismanic amuletic uses of each card are described along with its magical correspondences spanning elemental astrological and Qabalistic qualities Part two is devoted to tarot angels and invoking these divine energies including how to use the Golden Dawn method known as telematic magic Ritual card spreads consecration rites and step by step examples demonstrate how to use magical talismans to get a promotion gain psychic talent promote healing mend a broken friendship enhance magic skills and more **The Arabic Influences on Early Modern Occult Philosophy** Liana Saif, 2016-04-29 Investigating the impact of Arabic medieval astrological and magical theories on early modern occult philosophy this book argues that they provided a naturalistic explanation of astral influences and magical efficacy based on Aristotelian notions of causality *Making Amulets Christian* Theodore de Bruyn, 2018-01-26 Making Amulets Christian Artefacts Scribes and Contexts examines Greek amulets with Christian elements from late antique Egypt in order to discern the processes whereby a customary practice the writing of incantations on amulets changed in an increasingly Christian context It considers how the formulation of incantations and amulets changed as the Christian church became the prevailing religious institution in Egypt in the last centuries of the Roman empire Theodore de Bruyn investigates what we can learn from incantations and amulets containing Christian elements about the cultural and social location of the people who wrote them He shows how incantations and amulets were indebted to rituals or ritualizing behaviour of Christians This study analyzes different types of amulets and the ways in which they incorporate Christian elements By comparing the formulation and writing of individual amulets that are similar to one another one can observe differences in the culture of the scribes of these materials It argues for conditioned individuality in the production of amulets On the one hand amulets manifest qualities that reflect the training and culture of the individual writer On the other hand amulets reveal that individual writers were shaped whether consciously or inadvertently by the resources they drew upon by what is called tradition in the field of religious studies Translating Worlds Carlo Severi, William F. Hanks, 2015-12-15 Set against the backdrop of anthropology s recent focus on various turns whether ontological ethical or otherwise this pathbreaking volume returns to the question of knowledge and the role of translation as a theoretical and ethnographic guide for twenty first century anthropology gathering together contributions from leading thinkers in the field Since Ferdinand de Saussure and Franz Boas languages have been seen as systems whose differences make precise translation nearly impossible And still others have viewed translation between languages as principally indeterminate The contributors here argue that the challenge posed by the constant confrontation between incommensurable worlds and systems may be the most fertile ground

for state of the art ethnographic theory and practice Ranging from tourism in New Guinea to shamanism in the Amazon to the globally ubiquitous restaurant menu the contributors mix philosophy and ethnography to redefine translation not only as a key technique for understanding ethnography but as a larger principle in epistemology

Medicine, Religion, and Magic in Early Stuart England Ofer Hadass, 2018-03-26 The astrologer physician Richard Napier 1559 1634 was not only a man of practical science and medicine but also a master of occult arts and a devout parish rector who purportedly held conversations with angels This new interpretation of Napier reveals him to be a coherent and methodical man whose burning desire for certain true knowledge contributed to the contemporary venture of putting existing knowledge to useful ends Originally trained in theology and ordained as an Anglican priest Napier later studied astrological medicine and combined astrology religious thought and image and ritual magic in his medical work Ofer Hadass draws on a remarkable archive of Napier s medical cases and religious writings including the interviews he claimed to have held with angels to show how Napier s seemingly inconsistent approaches were rooted in an inclusive and coherent worldview combining equal respect for ancient authority and for experientially derived knowledge Napier s endeavors exemplify the fruitful relationship between religion and science that offered a well founded alternative to the rising mechanistic explanation of nature at the time Carefully researched and compellingly told **Medicine Religion and Magic in Early Stuart England** is an insightful exploration of one of the most fascinating figures at the intersection of medicine magic and theology in early modern England and of the healing methods employed by physicians of the era

Knowledge Lost Martin Mulrow, 2022-11-01 A compelling alternative account of the history of knowledge from the Renaissance to the Enlightenment Until now the history of knowledge has largely been about formal and documented accumulation concentrating on systems collections academies and institutions The central narrative has been one of advancement refinement and expansion Martin Mulrow tells a different story Knowledge can be lost manuscripts are burned oral learning dies with its bearers new ideas are suppressed by censors Knowledge Lost is a history of efforts from the Renaissance to the Enlightenment to counter such loss It describes how critics of ruling political and religious regimes developed tactics to preserve their views how they buried their ideas in footnotes and allusions how they circulated their tracts and treatises in handwritten copies and how they commissioned younger scholars to spread their writings after death Filled with exciting stories Knowledge Lost follows the trail of precarious knowledge through a series of richly detailed episodes It deals not with the major themes of metaphysics and epistemology but rather with interpretations of the Bible Orientalism and such marginal zones as magic And it focuses not on the usual major thinkers but rather on forgotten or half forgotten members of the knowledge underclass such as Pietro della Vecchia a libertine painter and intellectual Charles C sar Baudelot an antiquarian and numismatist and Johann Christoph Wolf a pastor Hebrew scholar and witness to the persecution of heretics Offering a fascinating new approach to the intellectual history of early modern Europe Knowledge Lost is also an ambitious attempt to rethink the very concept of knowledge
