examines pantomime productions of such well known tales as Cinderella Little Red Riding Hood and Jack and the Beanstalk as well as others whose popularity has waned such as Daniel O'Rourke and The Yellow Dwarf These productions resonate with traditions of impersonation cross dressing literary imposture masquerade and the social practice of fancy dress Schacker also traces the complex histories of Mother Goose and Mother Bunch who were often cast as the embodiments of both tale telling and stage magic and who move through various genres of narrative and forms of print culture These examinations push at the limits of prevailing approaches to the fairy tale across media They also demonstrate the degree to which perspectives on the fairy tale as children's entertainment often obscure the complex histories and ideological underpinnings of specific tales Mapping the histories of tales requires a fundamental reconfiguration of our thinking about early folklore study and about fairy tales their bearing on questions of genre and ideology but also their signifying possibilities past present and future Readers interested in folklore fairy tale studies children's literature and performance studies will embrace this informative monograph
