energies linking all persons in cooperative effort and in one common fate The Turk has bread because the American smokes cigarettes New Yorkers eat pineapple ripened in Hawaii because the Burmese mine tin We drink coffee at breakfast because Brazilians need our iron machinery and wheat And Japanese babies grow strong and healthy when American women buy silk lingerie This is the kind of world that men and women naturally want to live in And it is the kind of world they begin to create when they are free to use their individual energies and free to cooperate among themselves voluntarily Thus the brotherhood of man is not an ideal of selflessness which human beings are too sinful to achieve It is stern reality All persons are bound together in the imperative desire to survive on this earth DO unto others as you would have them do unto you is not only a sound moral precept it is the hardheaded advice of practical self interest Whoever injures another Injures himself because he decreases the opportunity for gains that come through cooperation and exchange About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Mainspring, 1947 The Mainspring Oh Human Progress Henry Grady Weaver, 1947 Five Foundations of Human Development Errol A. Gibbs, Philip A. Grey, 2006-10-01 Five Foundations of Human Development FFHD Is our Materially Driven Life a Threat to the Spiritual Purpose of our Existence The book is a philosophical religious and practical discourse on Five Foundations of Human Development It offers compelling philosophical analytical and empirical arguments for a better world which is inherent in the worship of God service to humanity obedience to governing authorities and management of God's creation The authors examine problems that we encounter daily and they postulate solutions from Spiritual moral social intellectual and physical perspectives They essentially explore some of our past and present approaches to solutions to human problems They propose new revolutionary approaches to human development that call the reader's attention to a new enlightenment new hope and new optimism informed by a new Body of knowledge The authors strive to explain the Christian message of God as delivered and taught by Jesus Christ however it is not a work that is exclusively for Christians Their discourse recognizes the comparable message and desire for the unity of humanity by other world religions They present their discourse not as experts or giving expert advice but simply as individuals with a desire to add another dimension of thought and enquiry to the vast storehouse of human knowledge The primary purpose of their discourse is to demonstrate the positive benefits to humanity when Biblical religious perspectives underpin every human endeavor These endeavors include but are not limited to family relations national and international relations engineering science and technology economics history education and health These endeavors dictate human progress Gibbs and Grey contend that humanity can realize the
