Masculinities in Twentieth- and Twenty-first Century French and Francophone Literature Edith Biegler Vandervoort, 2011-05-25 The study of masculinities and gender identity in contemporary literature is relatively new and with each year of this millennium gains momentum Indeed as the women s movement becomes forceful in developing nations the question of tolerance to gays lesbians bisexuals and transvestites undergoes a similar process At a time when women refuse to be subjected to war crimes when they begin entering the workforce and realize the need to support their families independently and when they refuse to remain in abusive marriages or remain silent in countries where governments ignore their needs men and women are questioning the meaning of gender in their culture and often seek alternatives to

established gender roles In some countries this entails organized demonstrations for additional civil rights while in others the expression of sexual freedom remains a question of remaining silent or risking public execution Thanks to the scholarly commitment of its authors this book examines the range of masculine expression on three continents Europe Africa and the Americas In this collection they write about men s past and present challenges male friendships and male immigrants and outcasts Paralleling the independence movement of France s former colonies the goal of this collection is to continue the expression of freedom toward understanding and tolerance of all variances of sexuality **The Buried Astrolabe** Craig Stewart Walker,2001 A critical introduction to contemporary Canadian playwriting **Space and the Architect** Herman Hertzberger,2010 The work of Herman Hertzberger is the subject of wide international esteem 1991 first saw publication of Hertzberger s Lessons for Students in Architecture an elaborated version of lectures he had given since 1973 at Delft University of Technology This immensely successful book has gone through many reprints and has also been published in Japanese German Italian Portuguese Taiwanese Dutch Greek Polish Iranian Korean and Chinese Space and the Architect is the second book written by Hertzberger It charts the backgrounds to his work of recent years and the ideas informing it drawing on a wide spectrum of subjects and designs by artists precursors past masters and colleagues though with his own work persistently present as a reference Space is its principal theme physical space but also the mental or intellectual regions the architect calls upon during the process of designing Once again Hertzberger s broad practical experience his ideas and his seemingly inexhaustible library of images are a major source of inspiration for anyone whose concern is the design of space **Hey Baby! most immediately the glories of the classical period and the peculiarities of the Theater of the Absurd It has given us the works of Corneille Racine and Moliere In the Romantic era there was Alexander Dumas and surrealist works of Alfred Jarry and then the Theater of the Absurd erupted in rationalistic France with Samuel Beckett Eugene Ionesco and Jean Paul Sartre The Historical Dictionary of French Theater relates the history of the French theater through a chronology introduction bibliography and over 400 cross referenced dictionary entries on authors trends genres concepts and literary and historical developments that played a central role in the evolution of French theater 194X Andrew Michael Shanken,2009 During the Second World War American architecture was in a state of crisis The rationing of building materials and restrictions on nonmilitary construction continued the privations that the profession had endured during the Great Depression At the same time the dramatic events of the 1930s and 1940s led many architects to believe that their profession and society itself would undergo a profound shift once the war ended with private commissions giving way to centrally planned projects The magazine Architectural Forum coined the term 194X to encapsulate this wartime vision of postwar architecture and urbanism In a major study of American architecture during World War II Andrew M Shanken focuses on the culture of anticipation that arose in this period as out of work architects turned their energies from the built to the unbuilt redefining themselves as planners and creating original designs to excite the public about postwar architecture Shanken recasts the wartime era as a crucible for the intermingling of modernist architecture and consumer culture Challenging the pervasive idea that corporate capitalism corrupted the idealism of modernist architecture in the postwar era 194X shows instead that architecture s wartime partnership with corporate American was founded on shared anxieties and ideals Business and architecture were brought together in innovative ways as shown by Shanken s persuasive reading of magazine advertisements for Revere Copper and Brass U S Gypsum General Electric and other companies that prominently featured the work of leading progressive architects including Louis I Kahn Eero Saarinen and Walter Gropius Although the unexpected prosperity of the postwar era made the architecture of 194X obsolete before it could be built and led to its exclusion from the story of twentieth century American architecture Shanken makes clear that its anticipatory rhetoric and designs played a crucial role in the widespread acceptance Eileen Gray Jennifer Goff,2014-11-28 The renowned and highly influential architect furniture maker interior designer and photographer Eileen Gray was born in Ireland and remained throughout her life an Irishwoman at heart An elusive figure her interior world has never before been observed as closely as in this ground breaking study of her work philosophy and inner circle of fellow artists Jennifer Goff expertly blends art history and biography to create a stunning ensemble offering a clear beacon of light into truly understanding Gray the woman and the professional Gray was a self taught polymath and her work was multi functional user friendly ready for mass production yet succinctly unique and her designs show great technical virtuosity Her expertise in lacquer work and carpet design often overlooked is given due attention in this book as is her fascinating relationship with the architect Le Corbusier
