Major Ideologies Alexander J. Groth,1971 **The Publishers Weekly** ,1972 **Nationalism and Communism in Eastern Europe and the Soviet Union** W. Kemp,1999-02-08 Nationalism and Communism in Eastern Europe and the Soviet Union looks at communism s attempts to come to terms with nationalism between Marx and Yeltsin how the inability of communist theorists and practitioners to achieve an effective synthesis between nationalism and communism contributed to communism s collapse and what lessons that holds for contemporary Europe *An Ordered Love* Louis J. Kern,2014-07-01 An Ordered Love is the first detailed study of sex roles in the utopian communities that proposed alternatives to monogamous marriage The Shakers 1779 1890 the Mormons 1843 90 and the Oneida Community 1848 79 The lives of men and women changed substantially when they joined one of the utopian communities Louis J Kern challenges the commonly held belief that Mormon polygamy was uniformly downgrading to women and that Oneida pantagamy and Shaker celibacy were liberating for them Rather Kern asserts that changes in sexual behavior and roles for women occurred in ideological environments that assumed women were inferior and needed male guidance An elemental distrust of women denied the Victorian belief in their moral superiority attacked the sanctity of the maternal role and institutionalized the dominance of men over women These utopias accepted the revolutionary idea that the pleasure bond was the essence of marriage They provided their members with a highly developed theological and ideological position that helped them cope with the ambiguities and anxieties they felt during a difficult transitional stage in social mores Analysis of the theological doctrines of these communities indicates how pervasive sexual questions were in the minds of the utopians and how closely they were related to both reform social perfection and salvation individual perfection These communities saw sex as the point at which the demands of individual selfishness and the social requirements of self sacrifice were in most open conflict They did not offer their members sexual license but rather they established ideals of sexual orderliness and moral stability and sought to provide a refuge from the rampant sexual anxieties of Victorian culture Kern examines the critical importance of considerations of sexuality and sexual behavior in these communities recognizing their value as indications of larger social and cultural tensions Using the insights of history psychology and sociology he investigates the relationships between the individual and society ideology and behavior and thought and action as expressed in the sexual life of these three communities Previously unused manuscript sources on the Oneida Community and Shaker journals and daybooks reveal interesting and sometimes startling information on sexual behavior and attitudes **1974 Annual Supplement** Joan Schmitz Bergholt,2013-12-21 **The Caribbean** Denis Benn,2004 The study is concerned mainly with the growth and development of political ideas in the Caribbean since the latter half of the eighteenth century It attempts an analysis of the more significant intellectual formulations which have emerged in the region during the period it includes reference to some of the major economic theories which have shaped the Caribbean reality over the years Introduction p xi Ideologies Larry

Johnston,1996 Ideologies offers a fresh treatment of liberalism conservatism and socialism as well as an examination of contemporary social movements such as feminism and environmentalism Professor Johnston treats each ideology as a product of the intersection of ideas and particular socio historical contexts Thus liberalism conservatism and socialism are discussed first in the context of the transition from feudal society to liberal modernity and again as they have evolved within the shifting contexts provided by ascendant liberalism In this way it is possible to distinguish the often diverse bodies of opinion that employ a common ideological label and at the same time sketch and emerging ideological consensus that frequently cuts across ideological lines Ideologies contains separate chapters on the liberal democratic consensus that has developed around conceptions of justice and democracy on the one hand and the utility of the market economy on the other Challenges to this twentieth century consensus from within the liberal democratic tradition are represented by anarchism populism feminism and environmentalism External challenges from currents of authoritarianism nationalism and fundamentalism are also discussed along with ideologies once powerful but currently out of favour fascism and Marxist Leninism In the final chapter the strengths and weaknesses of ideology are judged and its future prospects assessed
