Landmarks of 19th-Century America Elizabeth B. Greene, 2017-05-05 An invaluable resource for readers interested in architecture and design that demonstrates how the construction form and function of key structures in the 19th century influenced American social political economic and intellectual life America has always been a nation of thinkers believers creators and builders Evidence of this is plentiful among the landmarks constructed in the 19th century Buildings and Landmarks of 19th Century America American Society Revealed examines many examples that include homes office buildings recreational spaces military sites religious buildings and other landmarks in a variety of geographical locations discussing

the background architecture and cultural significance of each Each engaging accessible entry not only provides readers detailed information about how the landmark relates to what was going on in American society at the time of its construction but also sparks the reader's interest to research the subject further As examples consider that a rural cemetery built in Massachusetts in the early 19th century was the prime influence on public park design and led to the construction of New York's Central Park and many other public parks since The millionaire industrialist and philanthropist Andrew Carnegie built many of the first free public libraries in the country which led to the development of municipal public library systems The huge success of 19th century world's fairs like the 1876 Centennial Exhibition and the 1893 World's Columbian Exhibition had lasting effects on society through the many new products that they introduced to the public Throughout the book landmarks are analyzed to elucidate their influence on many aspects of 19th century society including the treatment of the mentally ill impact of religious revivals growth of leisure and vacation time and housing for the poor and the western homesteader among many others In the How to Evaluate Buildings and Structures section readers are prompted to consider questions such as What specific purposes did the building or structure have When was it constructed and what were the circumstances and What was the need it addressed Students will learn about the period while also developing the skills of observation and assessment needed to analyze these landmarks and draw meaningful conclusions from them about their context and significance The discussion of each landmark serves to help readers with these elements of critical thinking assessment and analysis

El-Hi Textbooks & Serials in Print, 2005 ,2005 **Prentice-Hall Business Digest Service**, 1920 The Nation ,1902 The Love Jones Cohort Kris Marsh,2023-02-09 This book provides a structural understanding of how identities of race class gender and singleness reconfigure the Black middle class **The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces** ,1871 *Congressional Record* United States. Congress,1889 **Mid-Century Modernism and the American Body** Kristina Wilson,2021-04-13 The first investigation of how race and gender shaped the presentation and marketing of Modernist decor in postwar America In the world of interior design mid century Modernism has left an indelible mark still seen and felt today in countless open concept floor plans and spare geometric furnishings Yet despite our continued fascination we rarely consider how this iconic design sensibility was marketed to the diverse audiences of its era Examining advice manuals advertisements in Life and Ebony furniture art and more Mid Century Modernism and the American Body offers a powerful new look at how codes of race gender and identity influenced and were influenced by Modern design and shaped its presentation to consumers Taking us to the booming suburban landscape of postwar America Kristina Wilson demonstrates that the ideals defined by popular Modernist furnishings were far from neutral or race blind Advertisers offered this aesthetic to White audiences as a solution for keeping dirt and outsiders at bay an approach that reinforced middle class White privilege By contrast media arenas such as Ebony magazine presented African American readers with an image of Modernism as a style of comfort security and social

confidence Wilson shows how etiquette and home decorating manuals served to control women by associating them with the domestic sphere and she considers how furniture by George Nelson and Charles and Ray Eames as well as smaller scale decorative accessories empowered some users even while constraining others A striking counter narrative to conventional histories of design Mid Century Modernism and the American Body unveils fresh perspectives on one of the most distinctive movements in American visual culture **The Illustrated London News** ,1843 *Genealogical and Family History of the State of Vermont* Hiram Carleton,1903 The Tammany Times ,1908 **Savings and Loans News** ,1897 **American Lutheran Survey** ,1919 *Harper's Weekly* John Bonner,George William Curtis,Henry Mills Alden,Samuel Stillman Conant,Montgomery Schuyler,John Foord,Richard Harding Davis,Carl Schurz,Henry Loomis Nelson,John Kendrick Bangs,George Brinton McClellan Harvey,Norman Hapgood,1872
