National Conference on Nonmetropolitan Community Services Research, 1977 When Federalism Works Paul E. Peterson, Barry G. Rabe, Kenneth K. Wong, 2010-12-01 Twenty years ago cooperative federalism in the form of federal grant in aid programs administered by state and local governments was applauded almost without reservation as the best means of helping the handicapped the educationally disadvantaged the poor and other groups with special needs More recently these same programs have been criticized for excessive regulations and red tape bureaucratic ineptitude and high cost The criticisms have been used to justify efforts to curb federal domestic spending and terminate many grants in aid In When Federalism Works Paul E Peterson Barry G Rabe and Kenneth K Wong examine the new conventional wisdom about federal grants Through documentary research and hundreds of interviews with local state and federal administrators and elected officials they consider the implementation and operation of federal programs for education health care and housing in four urban areas to learn which programs worked when and why Why did rent subsidy programs encounter seemingly endless difficulties while special education was a notable success Why did compensatory education fare better in Milwaukee than in Baltimore Among the factors the authors find significant are the extent to which a program is directed toward groups in need the political and economic circumstances of the area in which it is implemented and the degree of professionalism among those who administer it at all levels of government When Federalism Works provides a solid introduction to the most important grant in aid programs of the past twenty years and a thoughtful assessment of where they might be going

Everybody's Problem Karen M. Hawkins, 2017-12-10 Through her case study of Craven Operation Progress Karen Hawkins challenges a number of assumptions regarding the Community Action Agencies CAAs central among them being that middle class whites on CAA boards were either uninterested or unable to meet the needs of poor citizens and that biracial agreement and cooperation was essentially impossible Drawing from untapped primary sources Hawkins finds some successes in interracial cooperation Hawkins contends that it was not only liberal action that led to economic and social change in Eastern North Carolina but also moderate compromise and open mindedness **Speaking Truth to Power** Aaron Wildavsky, 2017-09-29 One of the foremost experts in public policy here attempts not only to describe what public policy is but given societal changes in the last two decades to account for its present status To learn from the past in order to establish public policy as a discipline in its own right Wildavsky traces its motifs from their beginnings in the 1960s to the 1980s Starting from the premise that there has been growing polarization of political elites he shows how public policy as a

field has had to face increased politicization For Wildavsky the field of public policy needs to incorporate more awareness of the human aspects of policy making he emphasizes the political choices to be made in a competitive environment and the social relations that sustain them When the first specialist schools devoted solely to public policy came into existence in the 1960s the programs of the Great Society were their main impetus With the disillusionment and failure of the Great Society the identity of public policy became transformed New theoretical issues had to be addressed In this volume Wildavsky provides a foundation for the theory no less than the practice of policy making Aaron Wildavsky is professor of political science University of California Berkeley He founded the School of Public Policy there and is presently its Director He was formerly Director of the Russell Sage Foundation He was the President if the American Political Science Association for the years 1986 1987 **U.S. Environmental Protection Agency Library System Book Catalog** United States.
