afterlife but on the immediate tangible needs of their households They were committed to Christianity and defended the legitimacy of their views even citing precedents from scripture in support of their practices By reading these perspectives on early Christian life through one another Leyerle clarifies the points of disagreement between Chrysostom and his lay listeners and at the same time highlights their shared understanding For both the preacher and his congregations the household formed a vital ritual arena and lived religion was necessarily rooted in practice Elegantly written and convincingly argued this study will appeal to scholars of theology classics and the history of Christianity in particular Constructing Wooden Boxes for Cavity-nesting Birds Howard L.
