Padula, 2023 This book summarizes current theory and evidence relating to immunization supply demand distribution and financing It provides readers with an understanding of the obstacles faced in the field and the possible approaches to corresponding solutions **Development Co-operation Report 2015 Making Partnerships Effective Coalitions for Action** OECD, 2015-09-07 This edition explores the potential of networks and partnerships to create incentives for responsible action as well as innovative fit for purpose ways of co ordinating the activities of diverse stakeholders It looks at a number of existing partnerships and provides practical guidance Ethics and Emerging Technologies Ronald Sandler, 2016-04-30 First and only undergraduate textbook that addresses the social and ethical issues associated with a wide array of emerging technologies including genetic modification human enhancement geoeengineering robotics virtual reality artificial meat neurotechnologies information technologies nanotechnology sex selection and more The Oxford Handbook of the Economics of the Biopharmaceutical Industry Patricia M. Danzon, Sean Nicholson, 2012-04-24 This volume examines the economics of the biopharmaceutical industry with eighteen chapters by health economists **The Palgrave Companion to Harvard Economics** Robert A. Cord, 2024-07-05 Harvard University has been and continues to be one of the most important global centres for economics With three chapters on themes in Harvard economics and 41 chapters on the lives and work of Harvard economists these two volumes show how economics became established at the University how it produced some of the world s best known economists including Joseph Schumpeter Wassily Leontief and John Kenneth Galbraith and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast the volumes provide economists especially those interested in macroeconomics and the history of economic thought with an in depth analysis of Harvard economics Accelerating Clean Energy Technology Research, Development, and Deployment Patrick Avato, Jonathan Coony, 2008-06-10 Climate change is one of the key challenges of this century At the same time energy use the primary source of climate altering global greenhouse gas emissions is increasing at unprecedented rates and is vital to the continued economic growth of developing countries This poses a serious dilemma that can only be reconciled with new and improved clean energy technologies that balance climate change mitigation and increased energy needs in developing countries Despite a recent increase in investment public and private research development and deployment RD D funding rates are well below historical levels In addition significant barriers impede the ability to develop new technologies such as the uncertain future value of CO2 emissions intellectual property rights issues limited incentives to commercialize

technologies for developing countries and challenges with technology transfer These factors must be overcome to accelerate innovation in the energy sector To introduce new thinking to address these concerns this report examines four cases from outside the energy sector where creative approaches to R&D have successfully overcome similar barriers The case studies review approaches to innovation by the Consultative Group on International Agricultural Research Advanced Market Commitments for Vaccines the Human Genome Project and the concept of Distributed Innovation These case studies show how creative efforts can generate valuable public goods via i international partnerships between public and private actors ii information sharing and intellectual property rights and iii novel financing schemes

Advanced Techniques for Modelling Maternal and Child Health in Africa Ngianga-Bakwin Kandala, Gebrenegus Ghilagaber, 2013-09-06 This book presents both theoretical contributions and empirical applications of advanced statistical techniques including geo additive models that link individual measures with area variables to account for spatial correlation multilevel models that address the issue of clustering within family and household multi process models that account for interdependencies over life course events and non random utilization of health services and flexible parametric alternatives to existing intensity models These analytical techniques are illustrated mainly through modeling maternal and child health in the African context using data from demographic and health surveys In the past the estimation of levels trends and differentials in demographic and health outcomes in developing countries was heavily reliant on indirect methods that were devised to suit limited or deficient data In recent decades world wide surveys like the World Fertility Survey and its successor the Demographic and Health Survey have played an important role in filling the gap in survey data from developing countries Such modern demographic and health surveys enable investigators to make in depth analyses that guide policy intervention strategies and such analyses require the modern and advanced statistical techniques covered in this book The text is ideally suited for academics professionals and decision makers in the social and health sciences as well as others with an interest in statistical modelling demographic and health surveys Scientists and students in applied statistics epidemiology medicine social and behavioural sciences will find it of value

Financializations of Development Ève Chiapello, Anita Engels, Eduardo Gonçalves Gresse, 2023-04-20 Financializations of Development brings together cutting edge perspectives on socio political socio historical and institutional analyses of the evolving multiple and intertwined financialization processes of developmental institutions programs and policies In recent years the development landscape has seen a radical transformation in the partaking actors which have moved beyond just multilateral or bilateral public development banks and aid agencies The issue of financing for sustainable development is now at the top of the agenda for multilateral development actors Increasingly development institutions aim to include private actors and to lever in private money to support development projects Drawing on case studies conducted in Africa Asia Europe and Latin America this book examines the ways in which these private finance actors are enrolled and associated with the conception and implementation of development policies Beginning

with a focus on global actors and private foundations this book considers the ways in which development funding is raised managed and distributed as well as debates at the center of global forums where financialized policies and solutions for development are conceived or discussed The book assembles empirical research on development programs and demonstrates the social consequences of the financializations of development to the people on the ground Highlighting the plurality of processes and outcomes of modern day relations tools actors and practices in financing development around the world this book is key reading for advanced students researchers and practitioners in all areas of finance development and sustainability

The White House and the World Nancy Birdsall, 2008 The White House and the World shows how modest changes in U S policies could greatly improve the lives of poor people in developing countries thus fostering greater stability security and prosperity globally and at home Center for Global Development experts offer fresh perspectives and practical advice on trade policy migration foreign aid climate change and more In an introductory essay CGD President Nancy Birdsall explains why and how the next U S president must lead in the creation of a better safer world

Reinventing Foreign Aid William R. Easterly, 2008-05-09 Top experts in the field discuss how to improve the effectiveness of foreign aid proposing practical solutions to specific problems rather than a utopian master plan The urgency of reducing poverty in the developing world has been the subject of a public campaign by such unlikely policy experts as George Clooney Alicia Keyes Elton John Angelina Jolie and Bono And yet accompanying the call for more foreign aid is an almost universal discontent with the effectiveness of the existing aid system In Reinventing Foreign Aid development expert William Easterly has gathered top scholars in the field to discuss how to improve foreign aid These authors Easterly points out are not claiming that their ideas will to invoke a current slogan Make Poverty History Rather they take on specific problems and propose some hard headed solutions Easterly himself in an expansive and impassioned introductory chapter makes a case for the searchers who explore solutions by trial and error and learn from feedback over the planners who throw an endless supply of resources at a big goal as the most likely to reduce poverty Other writers look at scientific evaluation of aid projects including randomized trials and describe projects found to be cost effective including vaccine delivery and HIV education

Economics in the Age of COVID-19 Joshua Gans, 2020-05-19 A guide to the pandemic

economy essential reading about the long term implications of our current crisis The COVID 19 pandemic has unleashed a firehose of information much of it wrong and an avalanche of opinions many of them ill founded Most of us are so distracted by the everyday awfulness that we don't see the broader issues in play In this book economist Joshua Gans steps back from the short term chaos to take a clear and systematic look at how economic choices are being made in response to COVID 19 He shows that containing the virus and pausing the economy without letting businesses fail and people lose their jobs are the necessary first steps

Innovation + Equality Joshua Gans, Andrew Leigh, 2020-12-08 How to get more innovation and more equality Is economic inequality the price we pay for innovation The amazing technological advances of the last two decades in such areas as artificial intelligence genetics and materials have benefited society collectively and rewarded innovators handsomely we get cool smartphones and technology moguls become billionaires This contributes to a growing wealth gap in the United States the wealth controlled by the top 0.1 percent of households equals that of the bottom ninety percent Is this the inevitable cost of an innovation driven economy Economist Joshua Gans and policy maker Andrew Leigh make the case that pursuing innovation does not mean giving up on equality precisely the opposite In this book they outline ways that society can become both more entrepreneurial and more egalitarian All innovation entails uncertainty there's no way to predict which new technologies will catch on Therefore Gans and Leigh argue rather than betting on the future of particular professions we should consider policies that embrace uncertainty and protect people from unfavorable outcomes To this end they suggest policies that promote both innovation and equality If we encourage innovation in the right way our future can look more like the cheerful techno utopia of Star Trek than the dark techno dystopia of The Terminator

OECD Health Policy Studies

Pharmaceutical Innovation and Access to Medicines OECD, 2018-11-29 This report reviews the important role of medicines in health systems describes recent trends in pharmaceutical expenditure and financing and summarises the approaches used by OECD countries to determine coverage and pricing Ending the R&D Crisis in Public Health: Promoting pro-poor medical innovation Rohit Malpani, **Cash on Delivery** Nancy Birdsall, William D. Savedoff, Ayah Mahgoub, Katherine Vyborny, 2010 Foreign aid has no shortage of critics Some argue that it undermines development and inherently does more harm than good others insist that aid must be seriously reformed to work properly Cash on Delivery COD Aid proposes serious reform to make aid work well by forcing accountability aligning the objectives of funders and recipients and sharing information about what works Public and private aid can improve lives in poor countries but the willingness of taxpayers and private funders to finance aid programs depends more than ever on showing results COD Aid is a funding mechanism that hinges on results At its core is a contract between funders and recipients that stipulates a fixed payment for each unit of confirmed progress toward an agreed upon goal Once the contract is struck the funder takes a hands off approach allowing the recipient the freedom and responsibility to achieve the goal on its own Payment is made only after progress toward the goal is independently verified by a third party At all steps a COD Aid program is remarkably transparent the contract the amount of progress made and the payment are disseminated publicly to highlight the credibility of the arrangement and improve accountability to the public COD Aid is a new approach to foreign aid but one that complements other aid programs and would ultimately encourage funders and recipients to use existing resources more efficiently Cash On Delivery Aid A New Approach to Foreign Aid explains the approach in detail and investigates its application in one sector education More specifically the authors show how foreign aid agencies could use COD Aid to help developing countries achieve universal primary school education The example illustrates how to deal with potential challenges of the approach challenges that are no greater than those of traditional aid and includes model term sheets for contracts that could be used for any COD Aid agreement
