Making Men Rugby And Masculine Identity:

Making Men John Nauright,1996 **The Politics of the Male Body in Global Sport** Hans Bonde,2013-10-18 Danish sport has been associated with Europe and the World not least through I P Muller and Niels Bukh and the Danish Gymnastics revolution with its emphasis on male aesthetics and hygiene in the first half of the twentieth century At the same time Denmark has stood apart from Europe in the early moments of its history of sport with the rural revolution of the farming communities as a statement of political independence and assertion However during the German occupation of Denmark Danish sport was part of a European collaboration which characterized a number of the occupied countries not least in the Nordic area After the Second World War Denmark embraced international body cultures with other European nations in particular Eastern martial arts Denmark too as part of trends in the European region and the world became caught up in sport as a powerful contemporary political statement This book was previously published as a special issue of the International Journal of the History of Sport **The Professionalisation of Women's Sport** Ali Bowes,Alex Culvin,2021-09-20 The Professionalisation of Women s Sport draws upon the expertise of a range of scholars from the fields of sport sociology sport history sport economics to critically discuss the complex and often fragmented histories of women s involvement in professional sport **International Sport** Richard William Cox,2004 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new **Female Gladiators** Sarah K. Fields,2010-10-01 Female Gladiators is the first book to examine legal and social battles over the right of women to participate with men in contact sports The impetus to begin legal proceedings was the 1972 enactment of Title IX which prohibited discrimination in educational settings but it was the Equal Protection Clause of the U S Constitution and the equal rights amendments of state constitutions that ultimately opened doors Despite court rulings however many in American society resisted and continue to resist allowing girls in dugouts and other spaces traditionally defined as male territories Inspired women and girls began to demand access to the contact sports which society had previously deemed too strenuous or violent for them to play When the leagues continued to bar girls simply because they were not boys the girls went to court Sarah K Fields s Female Gladiators is the only book to examine the legal and social battles over gender and contact sport that continue to rage today Sport and the Irish Alan Bairner,2004 Considers the relationship between sport national identities and gender in a contemporary Irish context **The Politics and**

Culture of Modern Sports Sheldon Anderson, 2015-12-15 This study examines the role of modern sports in constructing national identities and the way leaders have exploited sports to achieve domestic and foreign policy goals. The book focuses on the development of national sporting cultures in Great Britain and the United States, the particular processes by which the rest of Europe and the world adopted or rejected their games, and the impact of sports on domestic politics and foreign affairs. Teams competing in international sporting events provide people a shared national experience and a means to differentiate us from them. Particular attention is paid to the transnational influences on the construction of sporting communities and why some areas resisted dominant sporting cultures while others adopted them and changed them to fit their particular political or societal needs. A recurrent theme of the book is that as much as they try, politicians have been frustrated in their attempts to achieve political ends through sport. The book provides a basis for understanding the political, economic, social, and diplomatic contexts in which these games were played and to present issues that spur further discussion and research.

Handbook of Physical Education David Kirk, Doune Macdonald, Mary O'Sullivan, 2006-10-04 What is the condition of the field of Physical Education? How is it adapted to the rise of kinesiology, sport, and exercise science and human movement studies over the last thirty years? This Handbook provides an authoritative critical overview of the field and identifies future challenges and directions. The Handbook is divided into six sections: Perspectives and Paradigms in Physical Education Research; Cross-disciplinary Contributions to Research; Philosophy; Learning in Physical Education; Teaching Styles and Inclusive Pedagogies; Physical Education Curriculum and Difference and Diversity in Physical Education.

The Field Douglas Booth, 2007-05-07 2006 North American Society for Sports History Book of the Year. The literature on sport history is now well established, taking in a wide range of themes and covering every activity from aerobics to zorbing. However, in comparison to most mainstream histories, sport history has rarely been called upon to question its foundations and account for the basis of its historical knowledge. In this book, Booth offers a rigorous assessment of sport history as an academic discipline, exploring the ways in which professional historians can gather materials, construct and examine evidence, and present their arguments about the sporting past. Part 1 examines theories of knowledge, while Part 2 goes on to scrutinize the uses of historical knowledge in popular and academic studies of sport history. With clear structure, examples, summary tables, and a detailed glossary, *The Field* provides students, teachers, and researchers with an unparalleled resource to tackle issues fundamental to the future of their subject and sets the agenda for the debate to come.

Militarism, Hunting, Imperialism J.A. Mangan, Callum McKenzie, 2013-10-18 The late Victorian and Edwardian officer class viewed hunting and big game hunting in particular as a sound preparation for imperial warfare. For the imperial officer, in the making, the bloody hunting ritual was a visible hallmark of stirring martial masculinity. Sir Henry Newbolt, the period poet of subaltern self-sacrifice, typically considered hunting as essential for the creation of a masculine sporting spirit necessary for the consolidation and extension of the empire. Hunting was seen as a manifestation of Darwinian masculinity that maintained a

pre ordained hierarchical order of superordinate and subordinate breeds Militarism Hunting Imperialism examines these ideas under the following five sections martial imperialism the self sacrificial subaltern blooding the middle class martial male the imperial officer hunting and war martial masculinity proclaimed and consolidated martial masculinity adapted and adjusted This book was published as a special issue of the International Journal of the History of Sport The Oxford Handbook of Musical Repatriation Frank D. Gunderson, Robert C. Lancefield, Bret D. Woods, 2019 The Oxford Handbook of Musical Repatriation is a significant edited volume that critically explores issues surrounding musical repatriation chiefly of recordings from audiovisual archives The Handbook provides a dynamic and richly layered collection of stories and critical questions for anyone engaged or interested in repatriation or archival work Repatriation often is overtly guided by an ethical mandate to return something to where it belongs by such means as working to provide reconnection and Indigenous control and access to cultural materials Essential as these mandates can be this remarkable volume reveals dimensions to repatriation beyond those which can be understood as simple acts of giving back or returning an archive to its homeland Musical repatriation can entail subjective negotiations involving living subjects intangible elements of cultural heritage and complex histories situated in intersecting webs of power relations and manifold other contexts The forty eight expert authors of this book s thirty eight chapters engage with multifaceted aspects of musical repatriation situating it as a concept encompassing widely ranging modes of cultural work that can be both profoundly interdisciplinary and embedded at the core of ethnographic and historical scholarship These authors explore a rich variety of these processes many streams making the volume a compelling space for critical analysis of musical repatriation and its wider significance The Handbook presents these chapters in a way that offers numerous emergent perspectives depending on one s chosen trajectory through the volume From retracing the paths of archived collections to exploring memory performance research goals institutional power curation preservation pedagogy and method media and transmission digital rights and access policy and privilege intellectual property ideology and the evolving institutional norms that have marked the preservation and ownership of musical archives The Oxford Handbook of Musical Repatriation addresses these key topics and more in a deep richly detailed and diverse exploration Routledge Handbook of Football Studies John Hughson, Kevin Moore, Ramón Spaaij, Joseph Maguire, 2016-10-04 Football is unquestionably the world s most popular and influential sport There is no corner of the globe in which the game is not played or followed More countries are affiliated to FIFA football s governing body than to the United Nations The sport has therefore become an important component of our social cultural political and economic life The Routledge Handbook of Football Studies is a landmark work of reference going further than any other book in considering the historical and contemporary significance of football around the world Written by a team of leading sport scholars the book covers a broad range of disciplines from history sociology politics and business to philosophy law and media studies The central section of the book examines key themes and issues in football studies such as the World Cup and international

competition governance and ownership fandom and celebrity The concluding section offers in depth surveys of the culture and organisation of football in each of the regional confederations from UEFA to CONCACAF This book will be fascinating reading for any serious football fan and an essential resource for advanced students or scholars undertaking research in football or sport studies and any practitioner or policy maker working in football *Spaces of Masculinities* Kathrin

Hörschelmann,Bettina van Hoven,2013-03-07 Changing circumstances in Western and global societies have introduced new constraints and opportunities for men and the formation of male identities Meanwhile the emerging diversity of atypical identities atypical when compared with traditional conceptions of middle class white heterosexual men poses new challenges for the production and use of spaces *Spaces of Masculinities* provides a comprehensive introduction to the innovative and diverse research on spaces of masculinity Drawing on a variety of geographical research projects the central concern of the book is to highlight the significance of research on masculinity in sociological and geographical work dealing with constructions of gender

Sports and Play in Christian Theology Philip Halstead,John Tucker,2020-11-24 Sport is a major preoccupation of the modern world It consumes the time and energies of millions of people around the globe In fact for many participants it operates much like a functional equivalent of religion giving them a way to interpret and understand the world Sports stadiums are the cathedrals of our time Sports stars are the saints or demi gods through whom we access the transcendent Members of the sports media serve as religious scribes and sports fans are the worshiping faithful What is true of sport is also true more generally of play Nevertheless and quite remarkably Christian theologians and religious historians have been surprisingly slow to recognize the spiritual and cultural significance of sport and play or to engage in the study of these concepts This book attempts to redress that neglect by integrating sport and play with Christian faith and practice In *Sports and Play in Christian Theology* ten Christian scholars and practitioners explore sport and play from theological biblical historical and pastoral perspectives This rich collection of wide ranging reflections and focused case studies will help readers locate sport and play within Christian faith and practice *Sports around the World* John Nauright,2012-04-06 This

multivolume set is much more than a collection of essays on sports and sporting cultures from around the world it also details how and why sports are played wherever they exist and examines key charismatic athletes from around the world who have transcended their sports *Sports Around the World History Culture and Practice* provides a unique global overview of sports and sports cultures Unlike most works of this type this book provides both essays that examine general topics such as globalization and sport international relations and sport and tourism and sport as well as essays on sports history culture and practice in world regions for example Latin America and the Caribbean the Middle East and North Africa Europe and Oceania in order to provide a more global perspective These essays are followed by entries on specific sports world athletes stadiums and arenas famous games and matches and major controversies Spanning topics as varied as modern professional cycling to the fictional movie *Rocky* to the deadly ball game of the ancient Mayans the first three volumes contain overview

essays and entries for specific sports that have been and are currently practiced around the world The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture and more fully comprehend their cultural contexts The entries provide suggestions for further reading on each topic helpful to general readers students with school projects university students and academics alike Additionally the four volume Sports Around the World spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player

British Sport: a Bibliography to 2000 Richard Cox, 2013-12-16 Volume one of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian

Sport, Economy and Society in Britain 1750-1914 Neil Tranter, 1998-01-22 Concise up to date survey of the sporting revolution and its cultural and economic consequences

Residue Michael J. Ostwald, Chris Tucker, Michael Chapman, 2007

Gymnastics, a Transatlantic Movement Gertrud Pfister, 2013-10-18 This book explores analyses and explains divergent ideologies and practices of gymnastics in selected European nations It reconstructs the export and import processes from Europe to America and determines the processes interrelationships and transformations of these transatlantic movements in their new home country The book offers a more complete understanding of the role of gymnastics and expressive movements in cultural and ideological transmission over time and identifies the impact of these concepts on American physical education sports systems and sports cultures The main focus of the book lies in the two decades before and after World War I This concentration on a specific historical epoch allows us to identify parallel but also different developments of the various forms of gymnastics and of the transfer and implementation processes The volume covers the transfer and impact of German Turnen Czech Sokol and the Delsarte system in North America In addition it traces the influences of French gymnastics in South America and describes the tours of the world renowned Danish gymnastic reformer Nils Bukh in both Americas A focus will be the import of gymnastics but also on the adaption processes of these different concepts and their integration into the American culture This book was previously published as a special issue of the International Journal of the History of Sport

Sports Culture Ellis Cashmore, 2003-10-04 We live in a culture in which sports play an important role The growth in broadcasting merchandising iconography and the commercialization of sports has led to an increasing interest in the emerging field of sports culture This book examines individual issues people artefacts events and organizations in their historical social and cultural contexts Coverage is wide ranging with more than 170 entries including aggression Bosman Case corruption drugs eating disorders Fever Pitch Field of Dreams Michael Jordan Don King left handedness nationalism paternity racism Raging Bull rivalries tobacco The book also includes suggestions for further reading to help with further study and a comprehensive index
