J. **Building reputations** Conor Lucey, 2018-05-10 Taking a cue from revisionist scholarship on early Youngson, 1966 modern vernacular architectures and their relationship to the classical canon this book rehabilitates the reputations of a representative if misunderstood building typology the eighteenth century brick terraced house and the artisan communities of bricklayers carpenters and plasterers responsible for its design and construction Opening with a cultural history of the building tradesman in terms of his reception within contemporary architectural discourse chapters consider the design decoration and marketing of the town house in the principal cities of the eighteenth and early nineteenth century British Atlantic world The book is essential reading for students and scholars of the history of architectural design and interior decoration specifically and of eighteenth century society and culture generally Robert and James Adam, Architects of the Age of Enlightenment Ariyuki Kondo, 2015-10-06 During the second half of the eighteenth century British architecture moved away from the dominant school of classicism in favour of a more creative freedom of expression At the forefront of this change were architect brothers Robert and James Adam Kondo's work places them within the context of eighteenth century intellectual thought Edinburgh's Literary Heritage and How it Changed the World Jan-Andrew Henderson, 2021-05-15 The fascinating history of Edinburgh's astonishing literary legacy Covering authors books journals ideas festivals attractions and landmarks William Morris and the Society for the Protection of Ancient Buildings Andrea Elizabeth Donovan, 2007-12-12 William Morris and the Society for the Protection of Ancient Buildings succeeded in preserving much of

the historic architecture of modern Britain and Europe and this book describes the details of these successes Adam Smith: An Enlightened Life Nicholas T. Phillipson, 2010-10-05 Nicholas Phillipson s intellectual biography of Adam Smith shows that Smith saw himself as philosopher rather than an economist Phillipson shows Smith s famous works were a part of a larger scheme to establish a Science of Man which was to encompass law history and aesthetics as well as economics and ethics Phillipson explains Adam Smith s part in the rapidly changing intellectual and commercial cultures of Glasgow and Edinburgh at the time of the Scottish Enlightenment Above all Phillipson explains how far Smith's ideas developed in dialog with his closest friend David Hume Publisher's description British Clubs and Societies 1580-1800 Peter Clark, 2000-01-06 Modern freemasonry was invented in London about 1717 but was only one of a surge of British associations in the early modern era which had originated before the English Revolution By 1800 thousands of clubs and societies had swept the country Recruiting widely from the urban affluent classes mainly amongst men they traditionally involved heavy drinking feasting singing and gambling They ranged from political religious and scientific societies artistic and literary clubs to sporting societies bee keeping and birdfancying clubs and a myriad of other associations Mending Bodies, Saving **Souls** Guenter B. Risse,1999-04-15 By chronicling the transformations of hospitals from houses of mercy to tools of confinement from dwellings of rehabilitation to spaces for clinical teaching and research from rooms for birthing and dying to institutions of science and technology this book provides a historical approach to understanding of today s hospitals The story is told in a dozen episodes which illustrate hospitals in particular times and places covering important themes and developments in the history of medicine and therapeutics from ancient Greece to the era of AIDS This book furnishes a unique insight into the world of meanings and emotions associated with hospital life and patienthood by including narratives by both patients and care givers By conceiving of hospitals as houses of order capable of taming the chaos associated with suffering illness and death we can better understand the significance of their ritualized routines and rules From their beginnings hospitals were places of spiritual and physical recovery They should continue to respond to all human needs As traditional testimonials to human empathy and benevolence hospitals must endure as spaces of healing The Incendiary Jessica Warner, 2011-03-11 In 1776 and 1777 during the American Revolution a young Scot known only as John the Painter took his war to England by committing acts of terror in the dockyards of the mighty British navy This is the first full length biography of that brilliant but disturbed young man His story offers chilling parallels to the present and insights into why certain young men are driven to commit unspeakable crimes Warner has written a book of history that reads like a picaresque novel but always with a modern twist Its hero travels to France and receives the blessing of the American envoy there King George III offers a reward for his capture Bow Street Runners are sent out inpursuit Newspapers print sensational stories A bill to suspend habeas corpus is rushed through Parliament and American privateers the unlawful combatants of their day are held without being charged The Incendiary takes readers on a fascinating journey from Europe

to colonial America and finally to the gallows at Portsmouth In this atmospheric and deftly researched tale of a young man who tried to bring down a superpower Warner has crafted a popular history with contemporary implications Routledge History Handbook of Gender and the Urban Experience Deborah Simonton, 2017-02-03 Play thrills danger The Wodrow-Kenrick Correspondence 1750-1810, 2024-12-12 This is the second volume of the and excitement Wodrow Kenrick Correspondence 1750 1810 Reverend James Wodrow 1730 1810 minister of the Church of Scotland at Stevenston in Ayrshire and Samuel Kenrick 1728 1811 tutor to a Renfrewshire family until 1763 and subsequently a merchant and banker in Bewdley Worcestershire began corresponding around 1750 soon after leaving the University of Glasgow They continued to do so until James Wodrow's death in 1810 Their correspondence is an exceptionally rich resource for the study of British culture and society in the era of Enlightenment and revolutions here made easily available to scholars for the first time Samuel Kenrick lived in England from 1765 and the men only met again in 1789 so their friendship was carried out almost entirely on paper for forty five years The correspondence constitutes a remarkable record of a friendship In Volume 2 1784 1790 Wodrow and Kenrick were long established in successful careers and their daughters were now adults A major theme in this book is Mary Kenrick's visit to Scotland to stay with the Wodrow family in summer 1784 and Helen Nell Wodrow's return with her to Bewdley to become part of the Kenrick household until September 1785 Wodrow himself visited Bewdley on the only occasions he ever did this in early September and late October 1788 on his way to and from London to arrange for the publication of two volumes of the sermons of his mentor Principal William Leechman of Glasgow University As well as discussing family friendship and the practicalities of publishing the letters in this volume contain lively and highly readable exchanges on theology and church politics in Scotland and England university politics in Glasgow a wide range of contemporary literature and an enormous spectrum of famous and less well known politicians authors clergymen and local figures in Ayrshire and Worcestershire Chinese Art Maxwell K.
