Making Of The New Europe:

Making the New Europe M. L. Smith, Peter M.R. Stirk, 2016-10-06 This volume evaluates the notion of European Unity in a period when European identity was subjected to the destructive consequences of Nazi and Fascist domination of much of the Continent By presenting the competing visions of transformation and reconstruction played out during the war years the book aims to provide broader based and more complex insights into forces that shaped the post war period than those in conventional accounts that locate the thinking about European unity only in the years after 1945

The Making of the New Europe Peter Ludlow, 2004 The European Councils in Brussels and Copenhagen in the second half of 2002 culminated in the decision to admit ten new members to the European Union from Central and Eastern Europe and the Mediterranean in May 2004 The story involves a large cast of actors from inside and outside the Union The central players are however the Danish Presidency the Commission and the heads of state or government in the member states The issues at stake included money the future of the Common Agricultural Policy Europe's Security and Defence Policy on the eve of the Iraq war and by no means least a growing struggle for power in the Union amongst the larger member states and between the small and the large

Public Opinion and the Making of Foreign Policy in the 'New Europe' Nathaniel Copsey, 2016-04-15 By drawing a new boundary between the EU and its eastern neighbours the European Union has since 1989 created a frontier that has been popularly described in the frontier states as the new Berlin Wall This book is the first comparative study of the impact of public opinion on the making of foreign policy in two Eastern European states on either side of the divide Poland and Ukraine Focusing on the vocal informed segment of public opinion and drawing on results of both opinion polls and a series of innovative focus groups gathered since the Orange Revolution Nathaniel Copsey unravels the mystery of how this crucial segment of the public impacts on foreign policy makers in both states He also takes a closer look at the business community and the importance of economic factors in forming public opinion The book presents a fresh approach to our understanding of how the public's view of the past influences contemporary politics

New Europe Donald McNeill, 2014-05-12 *New Europe Imagined Spaces* traces the radical transformation of European places and spaces over the last two decades Instead of the familiar schoolbook map of a Europe of nation states the book unpacks the differing imaginations of European identity in recent years Taking as its central problem the fluid nature of cultural and political identity it moves firmly away from and calls into question the perspective of the nation state as the primary source of imagined identity for Europeans The book contributes to key debates such as the emerging Europe of the Regions and the return of the city state examines the rebranding of the nation state and explores the impact of Europeanisation on existing place identity Emphasising mobility and movement the chapters explore borderlands and travel and also include a detailed discussion of the everyday life of Europeans Throughout iconic images of contemporary Europe are invoked Eurodisney the Reichstag Barcelona's Ramblas and the Bilbao Guggenheim and the way in which mundane artefacts and practices such as football walking cars food

passports and the Euro help construct identity is considered New Europe Imagined Spaces adopts a multidisciplinary approach to studying Europe providing students with an exploration of contemporary European space and place identity

The Politics of the New Europe Ian Budge, Kenneth Newton, 2014-01-21 A pioneering textbook which explains the dynamics of politics across Europe in the post Cold war era Comparing democratisation transition to a market economy and increasing economic and political integration in the countries of central and eastern Europe with experiences in Scandinavia and southern and western Europe the book provides a wealth of information and analysis on the state of Europe at the end of a momentous century of European and World history

Governing the New Europe Jack Ernest Shalom Hayward, Edward Page, 1995 Governing the New Europe provides a comprehensive and scholarly account of the changing political map of Europe as it emerges from the Cold War Exploring the variations of liberal democracy and market economy among the European states as well as current trends in these directions the contributors to this volume all leading authorities in European politics consider whether a common political model has begun to emerge out of historic European diversity Beginning with a discussion of the political economic and cultural development of Europe from a historical perspective the focus of the book shifts to an examination of the changing forms of European democracy and the move from public ownership and planning to privatization and deregulated competition Further essays analyze the challenge to national party systems and electoral performance from emerging social movements and organized interest groups Political and bureaucratic structures are also examined as is the new European constitutionalism reflected in the increasingly significant role of the judiciary Lastly attention is turned to several major themes in European politics the changing foundations of foreign and security policy the function of industrial champion firms and the retreat from the welfare state Primarily comparative in its scope Governing the New Europe does devote particular attention to specific major states as well as to the importance of the European Union to the political life of member and non member countries Neither exaggerating the common features of the patterns that have emerged in contemporary Europe nor capitulating to the complexity of enduring differences and instabilities between states Governing the New Europe will become one of the standard texts in its field Contributors Jack Hayward Jolyon Howorth Herbert Kitschelt Marie Lavigne Tom Mackie Michael Mezey Edward C Page Richard Parry Richard Rose Anthony Smith Alec Stone

Immigration and Politics in the New Europe Gallya Lahav, 2004-04-22 With almost a quarter of the world s migrants Europe has been attempting to regulate migration and harmonize immigration policy at the European level The central dilemma exposed is how liberal democracies can reconcile the need to control the movement of people with the desire to promote open borders free markets and liberal standards Gallya Lahav s book traces ten years of public opinion and elite attitudes toward immigration cross nationally to show how and why increasing EU integration may not necessarily lead to more open immigration outcomes Empirical evidence reveals that support from both elite and public opinion has led to the adoption of restrictive immigration policies despite the requirements of open borders Unique in

bringing together original data on European legislators and national elites longitudinal data on public opinion and institutional and policy analyses this 2004 study provides an important insight into the processes of European integration and globalization more broadly Searching for Security in a New Europe Gerald J. Protheroe,2004-03-01 Drawing on an array of archival material this study sheds light on Sir George Russell Clerk an important yet forgotten figure in British and European diplomatic history During the First World War Clerk was a senior Foreign Office official strongly sympathetic to the cause of the oppressed nationalities of the Austro Hungarian Empire This biographical study focuses on the most significant part of Clerk s career his role as a nation builder in post war Europe until his eventual downfall at the hands of Antony Eden and retirement in 1937 This is an excellent account of the thoughts and deeds of a remarkable man in British History *The Shape of the New Europe* Gregory F. Treverton,Council on Foreign Relations,1992 **Separatism and Sovereignty in the New Europe** Janet Laible,2008-11-23 This book investigates why despite European integration separatist nationalism continues to thrive in EU member states Laible demonstrates that the EU sustains the importance of statehood and therefore separatism and creates new forms of political capital that nationalists employ in their struggles for self government Party Government in the New Europe Hans Keman,Ferdinand Muller-Rommel,2012-05-31 This truly comparative volume examines the life cycle of party governments in Europe from 1990 onwards and analyses its role and function in contemporary European parliamentary democracies The life and the performance of party governments in Europe became more and more volatile and publicly contested In some cases it has even challenge the democratic quality of the state This book presents comparative analyses of party governments from formation and duration to performance It brings together some of the foremost scholars researching on party government to evaluate existing theories and compare both the developments in the Western and the new Eastern Europe in an empirically grounded comparative analysis The book discusses the interaction between various institutions political parties and policies and evaluates how institutional change and party behaviour can drive the life cycle of party government Party Government in the New Europe will be of interest to students and scholars of Comparative Politics Democracy Government and European Politics Political Parties in the New Europe Kurt Richard Luther,Ferdinand Müller-Rommel,2002 The scope and intensity of the challenges currently faced by western European political parties is exceptionally large threatening the viability of the manner in which they have traditionally operated and causing them to seek new behaviours and strategies This volume brings together some of the foremost scholars of European party politics whose evaluation of political parties in the new Europe is organised under four broad headings Parties and Society Parties as Purposive Organisations Parties and National Government and Parties the Nation State and Beyond The contributors review the latest empirical findings and provide a concise critical review of the theoretical and methodological state of the art They also highlight the analytical challenges confronting party researchers and suggest new avenues for party research **Lobbying in the new Europe** Klemens Joos,2011-05-06 The Treaty of

Lisbon came into effect on 1 December 2009. It gives the EU a new primary law framework and has significantly enhanced its competence and importance, thereby causing a remarkable increase in the EU's influence. Certain changes in the voting procedures should be particularly significant for companies alongside the double majority rule in Council decisions under the Lisbon Treaty: only a majority is now required in many areas previously governed by the principle of unanimity. Foremost examples here are justice and internal affairs, foreign trade and agriculture. Persuading its own national government that its concerns are legitimate is therefore only of limited benefit to a company as individual Member States can easily be outvoted in Brussels. A strong position in the company's home Member State only can rapidly become an insignificant minority position. Nevertheless, European actions and procedures remain obscure and inaccessible for many company heads. Companies for this reason often fail to see many opportunities and chances which a deeper understanding of and a strong presence in the European capital can offer a business. It is not simply the underlying conditions for companies in one Member State which are at stake but rather the conditions governing an internal market with around 500 million consumers. The need for effective and efficient lobbying has increased due to the recent renaissance of the State observed in the crisis in the context of partial nationalisation, far-reaching regulation of entire sectors and a general increase in state control of company decisions. Good channels of communication to legislative and executive decision makers are more important than ever. The publication helps to guide companies through the intricacies of Brussels and offers an insight into the complex but diverse and interesting service of lobbying. It is designed as a practical tool especially for decision makers and executives in companies. Numerous figures and tables illustrate the text. Main topics include the characteristics of lobbying at the European level taking account of the changes brought about by the Treaty of Lisbon, the notion of a lobbyist's practical tools and finally suggestions for a company's strategic positioning vis-à-vis decision makers in the European legislature and executive.

T. G. Masaryk and the Idea of European and World Federation Petr Zenkl, 1955 The New Europe, 1918 **The United States and the new Europe, 1985-1992**, *The New Europe* Robert William Seton-Watson, A. F. Whyte, 1917 **Tourism in the New Europe** Derek R. Hall, Melanie K. Smith, Barbara Marciszewska, 2006-01-01. This book examines the implications of EU enlargement for tourism in the region. It provides a country-by-country examination of each of the new member states in terms of their current patterns and trends of tourism development and the impacts of EU accession on them. Topics include historical trajectories of the European tourism development process, new structural and geographical patterns of European tourism, the politics of EU enlargement and implications for tourism policy, regional, national and local economic development, trends, social and cultural implications of transition and accession, tourism education in the new Europe and the marketing and re-branding of accession countries.

A New Narrative for a New Europe Daniel Innerarity, Jonathan White, Cristina Astier, Ander Errasti, 2018-10-31. According to the European Commission, Europe is facing a transversal crisis that obliges the rethinking and redefinition of its narrative. As a result of the economic crisis that has affected Europe during the past years

Europe has in turn faced a structural crisis that forces the reconsideration of its own existence The foundation of the European project the promises of Democracy and Human Dignity need to be assessed The internal crisis and global challenges require a paradigm shift to establish a new foundation upon which to keep those promises alive This crisis is multidimensional environmental cultural political social economic etc and the European Union should tackle it as such The book aims at contributing to that debate by offering a new conceptual approach to the core ideas of European integration process sovereignty diversity common challenges etc By doing so the edited volume settles the ground for some institutional and legal transformations that may reflect this new narrative for a new Europe

Negotiating Diplomacy in the New Europe Stefanos Katsikas, 2011-10-30 Bulgaria has faced previously unimaginable pressures over the last two decades as it struggles to adapt to a post Communist landscape and to reform both state and society in the wake of the fall of the Soviet Union while facing the challenge of increased efforts by NATO and the EU to expand into this region In Negotiating Diplomacy in the New Europe Stefanos Katsikas sheds new light on the mechanisms and factors which have influenced the making and shaping of Bulgarian foreign policy examining the extent to which both domestic factors and the international environment have affected its trajectory Following the promulgation of Gorbachev's now famous policies of glasnost and perestroika and the fall from power of the Bulgarian Communist Party led at the time by Todor Zhivkov many have directly attributed Bulgaria's changes in foreign policy to the processes of democratization witnessed throughout Eastern Europe However although this was to some extent the case the commonalities shared with the country's foreign policy during the Cold War era leave in question the extent to which the effects of democratization alone suffice to explain Sofia's post communist diplomatic and strategic policies By analysing the influencing factors of Bulgaria's foreign policy since 1989 Katsikas considers factors such as domestic policies as well as the effects of EU and NATO efforts to expand their influence and membership Rich in primary sources including personal interviews with key protagonists who have dominated foreign policy making in both communist and post communist Bulgaria Negotiating Diplomacy in the New Europe examines the shift of foreign relations not only within the context of post Cold War democratization but also the country's integration into wider Euro Atlantic frameworks It thus holds invaluable analysis for researchers of Europe's post communist international relations as well as those interested in the processes of democratization and those of foreign policy formation
