-Ethics is the study of conduct and character, and a code of ethics is a guide for the expectations and standards of a profession.

-Ethical principles for individuals, groups of individuals, and societies are standards of what is right or wrong with regard to important social values and norms

Underlying Principles

-Autonomy: the right to make one's own personal decisions, even when those decisions might not be in that person's own best interest.

-Beneficence: action that promotes good for others, without any self-interest.

-Fidelity: fulfillment of promises.

-Justice: fairness in care delivery and use of resources.

-Nonmaleficence: a commitment to do no harm.

-Veracity: a commitment to tell the truth.

Nursing Interventions

WHO? WHEN? WHY? HOW?

-Nurses must demonstrate ethical principles with every patient

[Video Marketing Made Simple For Business Owners](#) Raymond Wayne, 2020-09-18 Video Marketing is literally on fire Embrace the Power and Potential of Video Marketing And use this medium to catapult your web business to the next level Check out on Video Marketing Made Simple For Business Owners Finally you have this once in lifetime opportunity to get your hands on the video marketing tools and what one group finds engaging and interesting another may not So it's important for businesses to understand what demographic they are targeting so they get the marketing just right for them But businesses don't have to go to such trouble when they're using video marketing because video marketing reaches every demographic and is interesting to every demographic And this is because men and women and people of every age love video As long as it's interesting and creative people will like a video regardless of their background or history This can be a bonus for businesses that know who their demographic is simply because more people will share it and like it even if they don't make up part of the business demographic But it's also especially good news for businesses with a shifting demographic or for those that don't know how makes up their demographic That happens sometimes when a business changes directions or changes their product or service slightly and then they have to start back at square one with their marketing efforts But when a business has already created videos as part of their marketing plan they don't have to change a

thing because those videos will already be suitable for every demographic Imagine one type of marketing that appeals to every single demographic It seems too good to be true but it is not That type of marketing is video marketing and reaching every demographic is just one very good reason why every business should be investing in it *Mastering Autodesk Inventor 2020* Curtis Waguespack, Autodesk Inventor was introduced in 1999 as an ambitious 3D parametric modeler based not on the familiar AutoCAD programming architecture but instead on a separate foundation that would provide the room needed to grow into the fully featured modeler it now is almost a decade later Inventor 2009 marks a change of focus in the development of Inventor from an up and coming application to the current release with the inclusion of the design accelerator wizards and with refined core functions The maturity of the Inventor tools happily coincides with the advancement of the CAD market's adoption of 3D parametric modelers as a primary design tool And although it is important to understand that 2D CAD will likely never completely disappear from the majority of manufacturing design departments 3D design will increasingly become a requirement for most With this in mind we have set out to fill the following pages with detailed information on the specifics of the tools while addressing the principles of sound parametric design techniques
