Making it New Henry Geldzahler, 1996 This is Geldzahler's longtime curator of the Metropolitan Museum of Art written legacy a collection of essays interviews and talks covering three turbulent decades in which he and the artists he championed defined what was new and important in contemporary art Foreword by David Hockney *Leo and His Circle* Annie Cohen-Solal, 2010 Traces the life and career of the influential art dealer from his Jewish Italian heritage and midlife entry into the art world to his name making exhibition of an unknown Jasper Johns and emergence as a cultivator of period masters By the author of *Sartre* **The Trip** Deborah Davis, 2016-08-30 From the author of *Strapless* and *Guest of Honor* a book about a little known road trip Andy Warhol took from New York to LA in 1963 and how that journey and the numerous artists and celebrities he encountered profoundly affected his life and art **Translating Warhol** Reva Wolf, 2024-07-11 The first study of the translations of Andy Warhol's writing and ideas *Translating Warhol* reveals how translation has alternately censored exposed or otherwise affected the presentation of his political and social positions and attitudes and in turn the value we place on his art and person Andy Warhol is one of the most influential artists of the 20th century and a vast global literature about Warhol and his work exists Yet almost nothing has been written about the role of translations of his words in his international reputation *Translating Warhol* fills this gap developing the topic in multiple directions and in the context of the reception of Warhol's work in various countries The numerous translations of Warhol's writings words and ideas offer a fertile case study of how American art was and is viewed from the outside Both historical and theoretical aspects of translation are taken up and individual chapters discuss French German Italian and Swedish translations Warhol's translations of his mother's native Rusyn language and culture the Indian artist Bhupen Khakhar's performative translations of Warhol and Warhol as translated for documentary television *Translating Warhol* offers a fascinating multi faceted perspective on Warhol contributing to our understanding of his place in history as well as to translation theory and intercultural exchange **Artists, Performers, and Black Masculinity in the Haitian Diaspora** Jana Evans Braziel, 2008-06-27 Jana Evans Braziel examines how Haitian diaspora writers performance artists and musicians address black masculinity through the Haitian Creole concept of *gwo n g*s or big men She focuses on six artists and their work writer Dany Laferrière director Raoul Peck rap artist Wyclef Jean artist Jean Michel Basquiat drag queen performer and poet Assotto Saint and queer drag king performer Dr d a k a Mildr d Gerestant For Braziel these individuals confront the gendered sexualized and racialized boundaries of America's diaspora communities and openly resist domestic imperialism that targets immigrants minorities women gays and queers This is a groundbreaking study at the intersections of gender and sexuality with race ethnicity nationality and diaspora *Federalizing the Muse* Donna M. Binkiewicz, 2005-12-15 The National Endowment for the Arts is often accused of embodying a liberal agenda within the American government In *Federalizing the Muse* Donna Binkiewicz assesses the leadership and goals of Presidents Kennedy through Carter as well as Congress and the

National Council on the Arts drawing a picture of the major players who created national arts policy Using presidential papers NEA and National Archives materials and numerous interviews with policy makers Binkiewicz refutes persisting beliefs in arts funding as part of a liberal agenda by arguing that the NEA s origins in the Cold War era colored arts policy with a distinctly moderate undertone Binkiewicz s study of visual arts grants reveals that NEA officials promoted a modernist abstract aesthetic specifically because they believed such a style would best showcase American achievement and freedom This initially led them to neglect many contemporary art forms they feared could be perceived as politically problematic such as pop feminist and ethnic arts The agency was not able to balance its funding across a variety of art forms before facing serious budget cutbacks Binkiewicz s analysis brings important historical perspective to the perennial debates about American art policy and sheds light on provocative political and cultural issues in postwar America Making it New Henry Geldzahler,1994 For the past 35 years Henry Geldzahler controversial first curator of the Metropolitan Museum of Art s Department of Twentieth Century Art has been at the centre of America s lively and vital art scene Written in his disarmingly intimate inciteful and amusing style this is his first collection of essays interviews and talks with some of the most innovative artists of the last thirty years such as Frank Stella Alice Neel Louise Bourgeois Warhol and Hockney to name a few With a foreword by David Hockney **The Necessary Past** Annette Debo,2024-04-15 Uncovering how poetry refigures Black history to imagine a more just present and future Poets are lyric historians proclaimed Langston Hughes Today historical poetry offers a lyric history necessary to our current moment poetry with the power to correct the past realign the present and create a more hopeful or even hoped for future **The Necessary Past** *Revising History in Contemporary African American Poetry* focuses on six of today s most celebrated poets Elizabeth Alexander Natasha Trethewey A Van Jordan Kevin Young Frank X Walker and Camille T Dungy Their works reimagine the interiority of Black historical figures like the so called Venus Hottentot Sara Baartman and the would be spelling champion MacNolia Cox the African American Native Guard who fought in the Civil War and the unknown victims of domestic violence Jack Johnson and Jean Michel Basquiat Medgar Evers and those freed and enslaved in the early nineteenth century These poets shift the power dynamic in revising our shared history reconfiguring who speaks and whose stories are told and writing a past that frees readers to change the present and envision a more just future Abstract Bodies David J. Getsy,2015-11-03 Original and theoretically astute *Abstract Bodies* is the first book to apply the interdisciplinary field of transgender studies to the discipline of art history It recasts debates around abstraction and figuration in 1960s art through a discussion of gender s mutability and multiplicity In that decade sculpture purged representation and figuration but continued to explore the human as an implicit reference Even as the statue and the figure were left behind artists and critics asked how the human and particularly gender and sexuality related to abstract sculptural objects that refused the human form This book examines abstract sculpture in the 1960s that came to propose unconventional and open accounts of bodies persons and genders Drawing on transgender and queer theory David J Getsy

offers innovative and archivally rich new interpretations of artworks by and critical writing about four major artists Dan Flavin 1933 1996 Nancy Grossman b 1940 John Chamberlain 1927 2011 and David Smith 1906 1965 *Abstract Bodies* makes a case for abstraction as a resource in reconsidering gender's multiple capacities and offers an ambitious contribution to this burgeoning interdisciplinary field

**Warhol's Working Class** Anthony E. Grudin, 2017-10-20 This book explores Andy Warhol's creative engagement with social class During the 1960s as neoliberalism perpetuated the idea that fixed classes were a mirage and status an individual achievement Warhol's work appropriated images techniques and technologies that have long been described as generically American or middle class Drawing on archival and theoretical research into Warhol's contemporary cultural milieu Grudin demonstrates that these features of Warhol's work were in fact closely associated with the American working class The emergent technologies Warhol conspicuously employed to make his work home projectors tape recorders film and still cameras were advertised directly to the working class as new opportunities for cultural participation What's more some of Warhol's most iconic subjects Campbell's soup Brillo pads Coca Cola were similarly targeted since working class Americans under threat from a variety of directions were thought to desire the security and confidence offered by national brands Having propelled himself from an impoverished childhood in Pittsburgh to the heights of Madison Avenue Warhol knew both sides of this equation the intense appeal that popular culture held for working class audiences and the ways in which the advertising industry hoped to harness this appeal in the face of growing middle class skepticism regarding manipulative marketing Warhol was fascinated by these promises of egalitarian individualism and mobility which could be profound and deceptive generative and paralyzing charged with strange forms of desire By tracing its intersections with various forms of popular culture including film music and television Grudin shows us how Warhol's work disseminated these promises while also providing a record of their intricate tensions and transformations

**Allan Kaprow, Robert Smithson, and the Limits to Art** Philip Ursprung, Fiona Elliott, 2013-05-10 This innovative study of two of the most important artists of the twentieth century links the art practices of Allan Kaprow and Robert Smithson in their attempts to test the limits of art both what it is and where it is Ursprung provides a sophisticated yet accessible analysis placing the two artists firmly in the art world of the 1960s as well as in the art historical discourse of the following decades Although their practices were quite different they both extended the studio and gallery into desert landscapes abandoned warehouses industrial sites train stations and other spaces Ursprung bolsters his argument with substantial archival research and sociological and economic models of expansion and limits

*Materializing Queer Desire* Elisa Glick, 2010-03-30 How did the queer subject come to occupy such a central and in many respects contradictory place in the modern world of the early twentieth century What role has capitalism played in the development of modern gay and lesbian identities *Materializing Queer Desire* focuses on the figure of the dandy to explore how and why gay and lesbian subjects became heroes of modern life Elisa Glick argues that the gay subject emerged out of the specifically modern capitalist contradiction between the public

world of production and industry and the private world of consumption and pleasure Boldly bringing modernism into dialogue with Marxist and queer theory Glick offers an innovative materialist account of modern queer consciousness that challenges tendencies to oppose private eroticism and the systems of value that govern public interests In the process she illuminates the connections between aesthetic sexual and social formations in modern life between modernity's disruptive queer desires and their unfolding in an increasingly rationalized society
