examples involving maps The idea of maps here includes traditional cartographic representations of physical environments but more broadly encompasses the wide variety of ways that visualizations are used across all disciplines to enable understanding to generate new knowledge and to effect change The idea of thinking with maps is also used broadly Maps become not simply one among many items to learn about but indispensable tools for thinking across every field of inquiry in a way similar to that of textual and mathematical language Effective use of maps becomes a way to make knowledge much as writing or mathematical exploration not only displays ideas but also creates them The book shows that maps for thinking are not just a means to improve geographic knowledge as valuable as that may be Instead they provide mechanisms for rejuvenating our engagement with the world helping us to become more capable of facing our global challenges This book has a broader aim It is fundamentally about general principles of how we learn and know It calls for a renewed focus on democratic education in which both the means and ends are democratic Education just as the political realm should follow Dewey s dictum that democratic ends need democratic methods for their realization Maps and mapping are invaluable in that endeavor

Making Geography Matter Noel Castree,Trevor Barnes,Jennifer Salmond,2025-02-28 What is the purpose of Geography What do geographers study and why How do they seek to shape the world they interrogate This book addresses these questions by examining the lives and works of individual geographers both past and present Like all disciplines Geography is no more nor less than the collective endeavours of researchers and teachers operating in specific contexts The contexts both shape and are shaped by these individuals This book s biographical and autobiographical chapters transport readers to the times and places where geographers have sought to make Geography matter The result is a more vivid grounded understanding of the discipline than the many high level surveys of geographic thought paradigms currently written for university students This book s accessible essays each conclude with a study task Making Geography Matter is aimed at university students and their teachers who wish to understand the goals history and evolving practice of Geography It provides an alternative perspective both concrete and engaging to the many student focussed texts that map out numerous isms and ologies
