**Modernism** James Martell, 2025-01-23 The most current multidisciplinary and multivocal engagement with Sade's enduring influences on modernism and the philosophical need for continued analysis of his work and the questions it raises From

Lacan to Dal through Simone de Beauvoir Beckett Horkheimer Burroughs Pasolini Foucault Deleuze up to the Marquis de Sade's influence and impact on modernism and modern thinking is hard to measure Understanding Sade Understanding Modernism presents its readers with a chance to reflect on the importance of this radical oeuvre from different perspectives Contributors examine Sadean literature and thought through some of its main texts including 120 Days of Sodom History of Juliette The Crimes of Love and Philosophy in the Boudoir in a series of comparative essays that not only examine Sade's influence in French European and American thought but also critique it in the context of some of modern philosophy's most relevant subjects ecology nature universalism and the links between ethics and aesthetics The final section identifies key concepts and notions within Sade's corpus in a series of entries offering context and a discussion of their relevance for current thought

The Figure of Abraham in John 8 Ruth Sheridan, 2020-01-09 In the Gospel of John the character of Jesus repeatedly comes into conflict with a group pejoratively designated as the Jews In chapter 8 of the Gospel this conflict could be said to reach a head with Jesus labeling the Jews as children of the devil 8:44 a verse often cited as epitomizing early Christian anti Judaism Using methods derived from modern and post modern literary criticism Ruth Sheridan examines textual allusions to the biblical figures of Cain and Abraham in John 8:1-59 She pays particular attention to how these allusions give shape to the Gospel's alleged and infamous anti Judaism exemplified in John 8:44 Moreover the book uniquely studies the subsequent reception in the Patristic and Rabbinic literature not only of John 8 but also of the figures of Cain and Abraham It shows how these figures are linked in Christian and Jewish imagination in the formative centuries in which the two religions came into definition

Revolt, Affect, Collectivity Tina Chanter, Ewa Plonowska Ziarek, 2012-02-01 These original essays explore how the concept of revolution permeates and unifies Julia Kristeva's body of work by tracing its trajectory from her early engagement with the Tel Quel group through her preoccupation in the 1980s with abjection melancholia and love to her latest work Some of the leading voices in Kristeva scholarship examine her reevaluation of the concept of revolt in the context of the changing cultural and political conditions in the West the questions of the stranger race and nation her reflections on narrative public spaces and collectivity in the context of her engagement with Hannah Arendt's work her development and refinement of the notions of abjection melancholia and narcissism in her ongoing interrogation of aesthetics as well as her contribution to film theory Focused primarily on Kristeva's newest work much of it only recently translated into English this book breaks new ground in Kristeva scholarship

**Radicalism in French Culture** Niilo Kauppi, 2016-09-17 An invisible pattern draws together most studies dealing with French cultural radicalism in the 1960s with intellectual creation reduced to individual creation and the role of semiotic and social factors that influence intellectual innovation minimized Sociological approaches often see a more or less external link between social location and intellectual production but because of their structural approach they are incapable of taking into account unique historical circumstances the crucial role of personal impulses and more importantly the semiotic logic of ideas as conditions of

innovative thinking This ground breaking book will further an internal sociological analysis of ideas and styles of thought It will show that the defining but largely neglected feature of what has become French theory was a collective mind and style of thought an explosive but fragile mixture of scientific and political radicalism that rather quickly watered down to academic orthodoxy For some time radical intellectuals succeeded in producing ideas that were perfectly in tune with the demands of the consumers mostly the young university audience Ideas were used as part of radical posture that was set in opposition to the establishment and those in power Ideas could not be too empirical or verifiable and they had to shock It is not surprising that a slew of new sciences and concepts were invented to indicate this radical posture The central argument of this study is that ideas become power ideas only if they succeed in uniting individual and collective psychic investment in powerful social networks with significant institutional and political backing These conditions were met in the French context for a certain specific period of time From roughly the mid 1960s to the beginning of the 1970s radical intellectuals such as Roland Barthes Pierre Bourdieu Jacques Derrida Michel Foucault Julia Kristeva developed a host of new ideas concepts and theories a number of which have subsequently been labelled as French theory      *Sociological Abstracts* Leo P. Chall,1997 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers      French Intellectual Nobility Niilo Kauppi,1996-11-26 French thinkers like Roland Barthes Pierre Bourdieu A J Greimas Michel Foucault and Claude Levi Strauss created the structuralist and poststructuralist movements They succeeded Sartrean existentialism and formed a new aristocracy of culture French Intellectual Nobility is the first study to examine the conditions for the creation of these movements Through case studies in cultural history sociology semiology and literature the book discusses the processes that enabled the French intellectual nobility to reinvent itself By developing a historical and comparative approach Kauppi analyzes the challenges that an intellectual generation faced and he contributes to a context sensitive analysis of culture and power      **Modern European Criticism and Theory** Julian Wolfreys,2006-04-21 Modern European Criticism and Theory offers the reader a comprehensive critical overview of the widespread and profound contest of ideas within European theory The book focuses primarily on the thought of major voices in poetics philosophy linguistics and psychoanalysis as well as in literary and cultural studies from the Enlightenment to the present day Examining how conceptions of subjectivity identity and gender have been questioned the more than 50 essays written by acknowledged experts in their fields critically assess the ways in which we think see and act in the world as well as the ways in which we represent such thought psychologically politically and culturally A further reading list accompanies each chapter

**Realisms of the Avant-Garde** Moritz Baßler,Benedikt Hjartarson,Ursula Frohne,David Ayers,Sascha Bru,2020-09-21 The historical avant gardes defined themselves largely in terms of their relationship to various versions of realism At first

glance modernism primarily seems to take a counter position against realism yet a closer investigation reveals that these relations are more complex This book is dedicated to the links between realism modernism and the avant garde in their international context from the late 19th century up to the present day

**Avant-garde Performance & the Limits of Criticism** Mike Sell, 2008 Explores the dynamic interactions of performance politics and literary criticism in three U S countercultures in the 1950s and 60s

**Robert Rauschenberg and Surrealism** Gavin Parkinson, 2023-03-23 The art of Robert Rauschenberg 1925 2008 is usually viewed as quite distinct from Surrealism a movement which the artist himself displayed some hostility towards However Rauschenberg had a very positive reception among Surrealists particularly across the period 1959 69 In the face of Rauschenberg s avowals of his own literalism and insistence on his art as facts this book gathers generous evidence of the poetic metaphorical allusive associative and connotative dimensions of the artist s oeuvre as identified by Surrealists and thus extrapolates new readings from Rauschenberg s key works on that basis By viewing Rauschenberg s art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence 1954 62 Robert Rauschenberg and Surrealism shows how poetic inference of the artist s work was turned towards political interpretation By analysing Rauschenberg s art in the context of Surrealism and drawing from it new interpretations and perspectives this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history

**Subversive Intent** Susan Rubin Suleiman, 1990 With this important new book Susan Suleiman lays the foundation for a postmodern feminist poetics and theory of the avant garde She shows how the figure of Woman as fantasy myth or metaphor has functioned in the work of male avant garde writers and artists of this century Focusing also on women s avant garde artistic practices Suleiman demonstrates how to read difficult modern works in a way that reveals their political as well as their aesthetic impact Suleiman directly addresses the subversive intent of avant garde movements from Surrealism to postmodernism Through her detailed readings of provocatively transgressive works by Andr Breton Georges Bataille Roland Barthes Alain Robbe Grillet Marcel Duchamp Max Ernst and others Suleiman demonstrates the central role of the female body in the male erotic imagination and illuminates the extent to which masculinist assumptions have influenced modern art and theory By examining the work of contemporary women avantgarde artists and theorists including H l ne Cixous Marguerite Duras Monique Wittig Luce Irigaray Angela Carter Jeanette Winterson Leonora Carrington Barbara Kruger Jenny Holzer and Cindy Sherman Suleiman shows the political power of feminist critiques of patriarchal ideology and especially emphasizes the power of feminist humor and parody Central to Suleiman s revisionary theory of the avant garde is the figure of the playful laughing mother True to the radically irreverent spirit of the historical avant gardes and their postmodernist successors Suleiman s laughing mother embodies the need for a link between symbolic innovation and political and social change
