Making Of The Modern Child:

The Making of the Modern Child Andrew O'Malley, 2004-06-01 This book explores how the concept of childhood in the late 18th century was constructed through the ideological work performed by children's literature as well as pedagogical writing and medical literature of the era Andrew O'Malley ties the evolution of the idea of the child to the growth of the middle class which used the figure of the child as a symbol in its various calls for social reform [Making Modern Girls](#)

Abosede A. George, 2014-11-15 In *Making Modern Girls* Abosede A. George examines the influence of African social reformers and the developmentalist colonial state on the practice and ideology of girlhood as well as its intersection with child labor in Lagos, Nigeria. It draws from gender studies, generational studies, labor history, and urban history to shed new light on the complex workings of African cities from the turn of the twentieth century through the nationalist era of the 1950s. The two major schemes at the center of this study were the modernization project of elite Lagosian women and the salvationist project of British social workers. By approaching children and youth specifically, girl hawkers as social actors and examining the ways in which local and colonial reformers worked upon young people, the book offers a critical new perspective on the uses of African children for the production and legitimization of national and international social development initiatives. *Making Modern Girls* demonstrates how oral sources can be used to uncover the social history of informal or undocumented urban workers and to track transformations in practices of childhood over the course of decades. George revises conventional accounts of the history of development work in Africa by drawing close attention to the social welfare initiatives of late colonialism and by highlighting the roles that African women reformers played in promoting sociocultural changes within their own societies [The Basics of Modern Child-Friendly Design](#)

Harry Brooks, 2025-08-10 In recent years, the conversation surrounding urban design has shifted significantly with a growing recognition of the importance of creating child-friendly environments. As cities expand and evolve, the need to prioritize the needs of children within these spaces has become increasingly evident. This eBook aims to explore the multifaceted aspects of child-friendly design, providing insights into how urban planners, architects, and communities can collaborate to create spaces that are not only safe and accessible but also engaging and nurturing for children. The journey of child-friendly design begins with understanding the unique perspectives and needs of children. Unlike adults, children experience their surroundings through a lens of curiosity and playfulness. Their interactions with urban spaces are often shaped by their developmental stages, physical abilities, and social dynamics. Therefore, it is crucial to adopt a holistic approach that considers these factors when designing public areas, parks, schools, and neighborhoods. Throughout this eBook, we will delve into various aspects of child-friendly design, exploring its significance in urban planning and the principles that underpin it. Each chapter will provide a comprehensive overview of different elements, from safety and accessibility to community involvement and sustainability. By examining real-world examples and best practices, we aim to inspire urban planners and designers to prioritize child-friendly principles in their

work In addition to the practical implications of child friendly design this eBook will also highlight the broader societal benefits that arise from creating environments that cater to children When urban spaces are designed with children in mind families are more likely to engage with their communities fostering social connections and promoting healthier lifestyles Ultimately child friendly design has the potential to transform urban environments into vibrant inclusive spaces that support the well being of all residents As we embark on this exploration of child friendly design we invite readers to consider the role they play in shaping the future of urban spaces Whether you are an urban planner architect educator or parent your insights and experiences are invaluable in creating environments that nurture the growth and development of children Together we can work towards building cities that are not only livable for adults but also thriving spaces for the next generation

Childhood and Children's Books in Early Modern Europe, 1550-1800 Andrea Immel, Michael Witmore, 2013-11-05 This volume of 14 original essays by historians and literary scholars explores childhood and children's books in Early Modern Europe 1550 1800 The collection aims to reposition childhood as a compelling presence in early modern imagination a ready emblem of innocence mischief and playfulness The essays offer a wide ranging basis for reconceptualizing the development of a separate literature for children as central to evolving early modern concepts of human development and socialization Among the topics covered are constructs of literacy as revealed by the figure of Goody Two Shoes notions of pedagogy and academic standards a reception study of children's reading based on book purchases made by Rugby school boys in the late eighteenth century an analysis of the first international best seller for children the abbe Pluche's *Spectacle de la nature* and the commodification of child performers in Jacobean comedies

Making Modern Mothers Heather Paxson, 2004-02-12 In Greece women speak of mothering as within the nature of a woman But this durable association of motherhood with femininity exists in tension with the highest incidence of abortion and one of the lowest fertility rates in Europe In this setting how do women think of themselves as proper individuals mothers and Greek citizens In this anthropological study of reproductive politics and ethics in Athens Greece Heather Paxson tracks the effects of increasing consumerism and imported biomedical family planning methods showing how women's nature is being transformed to meet crosscutting claims of the contemporary world Locating profound ambivalence in people's ethical evaluations of gender and fertility control Paxson offers a far reaching analysis of conflicting assumptions about what it takes to be a good mother and a good woman in modern Greece where assertions of cultural tradition unfold against a backdrop of European Union integration economic struggle and national demographic anxiety over a falling birth rate

Disability in Modern Children's Fiction John Quicke, 2024-05-01 First published in 1985 *Disability in Modern Children's Fiction* presents a case for the inclusion of a planned element in the mainstream curriculum specifically designed to encourage positive attitudes and actions towards children with special needs and for utilising the possibilities inherent in fiction for helping all children to explore their thoughts and feelings in this area The central chapters of the book are concerned with a critical examination of specific texts

focusing on how they deal with disability in a story context Books are grouped for discussion under common themes which have been teased out according to their contemporary relevance the effects on the family of a severely disabled child the struggle of a child with a disability for personal identity in oppressive social circumstances the interaction between disability race gender and social class the different reactions of normal children towards disabled peers the failings of the medical approach to disability love sex adolescence and disability the relationship between children and handicapped adults The penultimate chapter is concerned with an evaluation of picture books and quasi fiction for younger children This book will be of interest to students of disability studies pedagogy and literature
