Making Peace In The Global Village:

Making Peace in the Global Village ,1981-01-01 Advocates the role of a Christian approach to peacemaking in an age of increased militarism nuclear proliferation and an escalating international arms race **Leader's Guide for Making Peace in the Global Village by Robert McAfee Brown** Katherine A. Gehris,Paul D. Gehris,198? *Dictionary of Mission* Karl Muller,Theo Sundermeier,Stephen B. Bevans,Richard H. Bliese,2006-01-30 Conceived and developed by two of Europe s most eminent missiologists in the country where the scientific and sustained study of mission first took shape the Dictionary of Mission represents the finest of the chorus of voices that comprise contemporary missiology The choice of topics and the authors to address them reflects what Christian mission has become a genuinely worldwide and ecumenical phenomenon That there would be entries on regional theological developments is indicative of how the world church is developing A host of other topics here explored show too how the landscape of mission is changing Taken as a whole then the Dictionary of Mission is a road map through this exciting and challenging terrain from the Foreword Peacemaking ,2021-10-25 Peacemaking includes a large array of activities from local to global attempts to attain peace It includes consideration of international interstate and intertribal conflict resolution communal personal and interpersonal social justice deterrence of the use of nuclear weapons design of international treaties that prevent war or other forms of international conflict disarmament international organizations that secure the order among nations and even from some points of view war As the 20th century drew to a close we have witnessed peacemakers trying to end ethnic cleansing reinstate justly elected political leaders and reach compromises in the ideological differences that perpetuate age old conflicts We also see peacemaking in our schools homes and workplaces Philosophers have long been interested in peacemaking in one form or another and philosophical accounts of peacemaking reflect the variety of perspectives methods and activities developed in pursuing peacemaking In some instances philosophers expand upon the situations activities and methods of the peacemaker in the field The essays in this volume propose some theoretical arguments for various aspects of peacemaking offer nonmilitary alternatives to war and discuss practical examples of peacemaking in daily life The contributors analyze power relations language social groupings and distribution of resources At times they draw insight from social and historical models of conflict and conflict resolution This collection of essays on peacemaking aims to enlighten contemporary social and political discussions and contribute to achieving the ever challenging goal of peace **McLuhan's Global Village Today** Angela Krewani,2015-10-06 Marshall McLuhan was one of the leading media theorists of the twentieth century This collection of essays explores the many facets of McLuhan s work from a transatlantic perspective balancing applied case studies with theoretical discussions Military Chaplains' Review ,1983 *Space and the Global Village: Tele-services for the 21st Century* G. Haskell,Michael J Rycroft,2012-12-06 Recent developments in telecommunications have led to new developments in tele services particularly tele health and tele education for the benefit of those living in either the developed world or the

less developed world The benefits accrue to individuals and also to society at large An international and interdisciplinary Symposium was organized by the International Space University to bring together technical and non technical people to consider the future applications of space techniques to tele services The Proceedings of this Symposium are essential reading for all who need to appreciate the broad range of issues involved in this developing area From Tribal Village to Global Village Alison Brysk,2000 This book examines the rise of human rights movements in five Latin American countries Ecuador Mexico Brazil Nicaragua and Bolivia among the hemisphere s most isolated and powerless people Latin American Indians It describes the impact of the Indian rights movement on world politics from reforming the United Nations to evicting foreign oil companies and analyzes the impact of these human rights experiences for all of Latin America s indigenous citizens and native people throughout the world **With Roots and Wings** Jay B. McDaniel,2009-06-26 In With Roots to be open to the insights of people of other faiths as well as to share our own and to become centered on God McDaniel shows where the new universe story of Thomas Berry and Brian Swimme and the Christian story meet and differ where they complement and where they supplement one another With Roots Wings shows how to experience both green grace that comes from opening one s self to the rhythms of the cosmos and red grace symbolized in the crucifixion of Christ both of which are vital to a Christian ecological spirituality and praxis Most impressive is McDaniel s ability to absorb and reflect important lessons Christians can learn from Native Americans from Buddhists and Hindus from Muslims and Jews The complexity of the issues he addresses and his ability to explain them simply and clearly makes With Roots and Wings must reading for the general reader as well as ecological activists clergy and laity alike Nothing else comes near it in depth power and insight **Gods in the Global Village** Lester R. Kurtz,2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time
