The Sixth Sense of the Avant-Garde Irina Sirotkina, Roger Smith, 2017-04-20 The touch and movement senses have a large place in the modern arts This is widely discussed and celebrated often enough as if it represents a breakthrough in a primarily visual age This book turns to history to show just how significant movement and the sense of movement were to pioneers of modernism at the turn of the 20th century It makes this history vivid through a picture of movement in the lives of an extraordinary generation of Russian artists writers theatre people and dancers bridging the last years of the tsars and the Revolution Readers will gain a new perspective on the relation between art and life in the period 1890 1920 in great innovators like the poets Mayakovsky and Andrei Bely the theatre director Meyerhold the dancer Isadora Duncan and the young men and women in Russia inspired by her lead and esoteric figures like Gurdjieff Movement and the turn to the body as a source of natural knowledge was at the centre of idealistic creativity and hopes for a new age for a new man and this was true both for those who looked forward to the technology of the future and those who looked back to the harmony of Ancient Greece The book weaves history and analysis into a colourful thoughtful affirmation of movement in the expressive life

Appropriating History Matthias Schwartz, Nina Weller, 2024-09-03 Popular media play an important role in reconstructing collective imaginations of history Dramatic events and ruptures of the 20th century provide the material for playful as well as neo imperialist and nationalist appropriations of the past The contributors to the volume investigate this phenomenon using case studies from Belarusian Russian and Ukrainian popular cultures They show how in mainstream films TV series novels comics and computer games the reference to Soviet history offers role models action patterns and even helps to justify current political and military developments The volume thus presents new insights into the multi layered and explosive dynamics of popular culture in Eastern Europe

Yellow Crocodiles and Blue Oranges David MacFadyen, 2005-05-20 MacFadyen further analyses Soviet animation through phenomenology arguing that the latter is a viable alternative not only to dogmatic Marxism but also to the ideological vacuum of post Soviet times The book includes a comprehensive bibliography and filmography as well as a rich collection of images
