Rehabilitating Literary Theory Khaled Besbes, 2011 The present work seeks to bring literary theory in line with the most recent practical turn the humanities are witnessing When simplified succinctly presented and skillfully used in multi coded interpretation within a semiocritical framework literary theories become practical exercises in criticism not only facilitating the interpretation of literature but also making it more enjoyable and more rewarding This book is different from its counterparts in the sense that it includes an exceptionally expanded model of the practice of literary theories and replaces long and theoretical discussions with brief synopses of the examined theories It relies on less overused texts for illustration as it compiles and organizes the terms and phrases that are often used by the proponents of the discussed theories The most influential literary theories that have so far been developed in academia are
