Modern China A Guide To A Century Of Change:

Modern China Graham Hutchings, 2001 *Modern China* Graham Hutchings, 2001 This work is an up to date account of modern China a country which even today remains one of the most enigmatic in the world This volume provides over 300 A Z dictionary style entries on all aspects of 20th century Chinese history and contemporary life Events covered include the last days of Imperial China the aftermath of the Mao era events in Tiananmen Square in 1989 and subsequent economic and political reforms

Historical Dictionary of Modern China (1800-1949) James Z. Gao, 2009-06-16 The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China s modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China s drive towards modernization and appendixes provide the reader with detailed information on China s cultural and economic transformation *Twentieth-Century China* Jeffrey N.

Wasserstrom, 2013-10-14 *Twentieth Century China New Approaches* is an important revisionist study of China s recent past The chapters throw light on a variety of subjects within the field which has recently undergone considerable change The three major parts of this reader take into account the historical shape of the century local perspectives on national history and reflections on cultural history The chapters in this volume reflect a move away from a Western centred analysis of Chinese history as well as the new wealth of archival material made accessible over the last decade They highlight in challenging ways important topics that have generated considerable excitement among historians Subjects discussed include the watershed date of 1949 feminism the revolutions the discourse of the communist party and political theatre in modern China

U.S. Naval Power in the 21st Century Brent Droste Sadler, 2023-05-15 2023 Naval Institute Press Author of the Year Finalist National Security Book Award This nation s Cold War and Global War on Terror defense structures need an update U S Naval Power in the 21st Century provides such a framework for the changed world we live in offering a detailed roadmap that shows how the United States can field a war winning fleet that can also compete aggressively in peacetime against dangerous competitors unlike any the nation has faced before Brent Sadler presents a compelling new strategy and organizing approach that he calls naval statecraft which acknowledges the centrality and importance of the maritime domain While similar in scale and scope to Cold War containment strategies against the Soviets naval statecraft is much more It must be to challenge China s involvement in global supply chains which gives that country significant financial heft and influence

around the world Unlike what existed during of the Cold War however Sadler provides a unique vision for competing with China and Russia Rather than simply calling for better coordinated U S diplomacy military operations and economic statecraft Sadler argues for integrating the levers of national power coherently and in a sustainable way This is no small feat and his approach is informed by a long career rich in working with various agencies of government foreign militaries including hostile ones and our allies It is an approach imminently appropriate to our times but comes with a realization that the nation is not ready for the competition it faces from China and Russia The book is a valuable contribution to the national debate over how best to respond to China s rise and Russia s antagonisms Biographical Dictionary of the People's

Republic of China Yuwu Song,2014-01-10 This biographical dictionary is an indispensable research tool for information about the prominent persons of the past seven decades in China The book documents nearly 600 Chinese individuals who contributed for better or worse to the development of Chinese life and culture since the founding of the People s Republic of China in 1949 Though the book is weighted toward political figures it includes persons in business the military academia medicine social movements the arts entertainment and athletics In addition to an objective description of the person s life an analysis is provided that identifies the individual s contributions and importance Politics in China William A.

Joseph,2014-03-14 On October 1 2009 the People s Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world s poorest countries into the world s fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest Politics in China is an authoritative introduction to how the world s most populous nation and rapidly rising global power is governed today Written by leading China scholars the book s chapters offers accessible overviews of major periods in China s modern political history from the mid nineteenth century to the present key topics in contemporary Chinese politics and developments in four important areas located on China s geographic periphery Tibet Xinjiang Hong Kong and Taiwan China at War Xiaobing Li,2012-01-10 This comprehensive volume traces the Chinese military and its experiences over the past 2 500 years describing clashes with other kingdoms and nations as

well as internal rebellions and revolutions As the first book of its kind *China at War An Encyclopedia* expands far beyond the conventional military history book that is focused on describing key wars battles military leaders and influential events Author Xiaobing Li an expert writer in the subjects of Asian history and military affairs provides not only a broad chronological account of China s long military history but also addresses Chinese values concepts and attitudes regarding war As a result readers can better understand the wider sociopolitical history of the most populous and one of the largest countries in the world and grasp the complex security concerns and strategic calculations often behind China s decision making process This encyclopedia contains an introductory essay written to place the reference entries within a larger contextual framework allowing students to compare Chinese with Western and American views and approaches to war Topics among the hundreds of entries by experts in the field include Sunzi s classic *The Art of War* Mao Zedong s guerrilla warfare in the 20th century Chinese involvement in the Korean War and Vietnam War and China s nuclear program in the 21st century

China Shakes the World James Kynge,2007 Drawing on his years in the country and his fluency in Mandarin Kynge probes beyond the familiar statistics to unearth the surprising reasons for China's explosive growth

The Far East and Australasia 2003 Europa Publications,2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume

East Asia's Other Miracle Alex J. Bellamy,2017-10-06 East Asia until recently the scene of widespread blood letting has achieved relative peace A region that at the height of the Cold War had accounted for around eighty percent of the world s mass atrocities has experienced such a decline in violence that by 2015 it accounted for less than five percent This book explains East Asia s other miracle and asks whether it is merely a temporary blip in the historical cycle or the dawning of a new and more peaceful era for the region It argues that the decline of mass atrocities in East Asia resulted from four interconnected factors the consolidation of states and emergence of responsible sovereigns the prioritization of economic development through trade the development of norms and habits of multilateralism and transformations in the practice of power politics Particular attention is paid to North Korea and Myanmar countries whose experience has bucked regional trends largely because these states have not succeeded in consolidating themselves to the point where they no longer depend on violence to survive Although the region faces several significant future challenges this book argues that the much reduced incidence of mass atrocities in East Asia is likely to be sustained into the foreseeable future

Professional Journal of the United States Army ,2007

Internet Policy in China Helen Sun,2012-07-10 The new Internet bar phenomenon in China reveals a contradictory time and a vital tug of war between the state and civil society Small private net bar operators are caught in the double roles of regulator and the regulated struggling to survive many Internet caf visitors largely enjoy emailing and online entertainment showing little interest in political or policy issues And both bar operators and visitors skillfully play a cat mouse game with the state

Internet Policy in China A Field Study of Internet Caf s reports the results of a multi layered study of this phenomenon Helen

Sun investigates how the Internet has been used by the state and individuals as well as the implications of Chinese Internet policies and regulations She conceptualizes media technology as a dependent variable that can be affected by other factors such as its availability the user s uses and expectations media policy the market and the nations state Internet Policy in China focuses on the Chinese telecommunications policy making system regulatory activities and the governmental means of control over Internet access and use at both the macro and micro levels Sun also discusses users perceptions and uses of the Internet in net caf s the dual role caf owners play in the frantic digital arena the mismatch between Internet regulations and net caf owners and goes their interaction with governmental policy and regulation and the social implications of their interactions during China s transitional time Toward Inclusive Learning Design Brad Hokanson, Marisa Exter, Matthew M. Schmidt, Andrew A. Tawfik, 2023-11-09 This book examines how society has been affected by the social upheaval of the years since George Floyd s death and efforts by those in education and educational technology to address the concerns of equity community and social justice This book is a practical yet scholarly guide in the pursuit of inclusive design drawing from a diverse range of authors with a broad range of application and theory The chapters go beyond a narrow view of inclusive learning design and address issues in a broad range of fields This book is appropriate for all levels of learning with a distinct focus on higher education and graduate education **Information Technology and Societal Development** Targowski, Andrew, 2008-10-31 Latent in the current environment of rapid technological advances are breakthroughs waiting to be discovered that will have profound impacts on how organizations will cope with the direction civilization is taking Information Technology and Societal Development examines in depth the full range of impacts of information technology on civilization and the development of societies Uniquely broad in the scope of examining the societal implications of informational technology this groundbreaking reference work makes an essential contribution to research libraries worldwide **Investment and Employment Opportunities in China** Jeffrey Yi-Lin Forrest, Tao Lixin, 2014-11-21 Presenting the most recent statistical data Investment and Employment Opportunities in China provides first of its kind coverage of the regional economic industrial investment and employment structures in China After establishing the theoretical foundation the rest of the book utilizes the model and the methodology presented by the authors to *Military Review* , 2007 **The Encyclopedia of the Industrial Revolution in World History** Kenneth E. Hendrickson III, 2014-11-25 As editor Kenneth E Hendrickson III notes in his introduction Since the end of the nineteenth century industrialization has become a global phenomenon After the relative completion of the advanced industrial economies of the West after 1945 patterns of rapid economic change invaded societies beyond western Europe North America the Commonwealth and Japan In The Encyclopedia of the Industrial Revolution in World History contributors survey the Industrial Revolution as a world historical phenomenon rather than through the traditional lens of a development largely restricted to Western society The Encyclopedia of the Industrial Revolution in World History is a three volume work of over 1

000 entries on the rise and spread of the Industrial Revolution across the world Entries comprise accessible but scholarly explorations of topics from the aerospace industry to zaibatsu Contributor articles not only address topics of technology and technical innovation but emphasize the individual human and social experience of industrialization Entries include generous selections of biographical figures and human communities with articles on entrepreneurs working men and women families and organizations They also cover legal developments disasters and the environmental impact of the Industrial Revolution Each entry also includes cross references and a brief list of suggested readings to alert readers to more detailed information The Encyclopedia of the Industrial Revolution in World History includes over 300 illustrations as well as artfully selected extended quotations from key primary sources from Thomas Malthus Essay on the Principal of Population to Arthur Young s look at Birmingham England in 1791 This work is the perfect reference work for anyone conducting research in the areas of technology business economics and history on a world historical scale **China Review International** ,2007 **Review of Current Military Literature** ,2007
