Japanese Foreign Policy A. Fukushima, 1999-02-26 Japanese foreign policy in international political affairs particularly after the Second World War was criticized as relying solely on bilateralism and dismissed as blindly emulating American foreign policy This book examines Japanese multilateralism from the Paris Peace Conference in 1919 to its latest bid for a permanent seat on the UN Security Council At the threshold of the twenty first century the author asserts that Japan can play a more proactive role in the United Nations and in the Asia Pacific through its cooperative security approach with emphasis on prevention of conflicts

the Cold War but Asia still faces serious security challenges These include the current security environment in the Korean peninsula across the Taiwan Strait and over Kashmir the danger of nuclear and missile proliferation and the concern with the rising power of China and with American dominance Indeed some experts see Asia as a dangerous and unstable place Alagappa disagrees maintaining that Asia is a far more stable predictable and prosperous region than it was in the postindependence period This volume also takes account of the changed security environment in Asia since September 11 2001 Unlike many areas studies approaches Alagappa s work makes a strong case for taking regional politics and security dynamics seriously from both theoretical and empirical approaches The first part of this volume develops an analytical framework for the study of order the salience of the different pathways to order is examined in the second part the third investigates the management of specific security issues and the final part discusses the nature of security order in Asia
