GOALS AND MEANS

"Know thyself!" These solemn words saluted the ancient Greeks at the entrance to the temple of the Pythian Apollo. And sagest of all Montaigne said that rather than know Claves he would know himself fully. Both the Greeks and Montaigne are right, but we can understand him better and completely unless we also understand others. We must observe our own characteristics against the background of those of other peoples.

It is a characteristic of primitive cultures that it is sufficient with itself. We are the only "proper" people, and to strangers we offer little more than a sting of the shoulder. The Hottentots call all the members of their own group *naam*; likewise in the Hottentots' name for themselves. Both words simply mean "name," or "proper human beings," and a certain note of disdain toward all others is implied. The basic emotion responsible for such designations also prevails on the highest levels of culture. Strangers do not speak a "mother language"; they are "foreigners" (*barbaroi*), as the Hottentots said, or say nothing of "mother" (*barbaroi*), the Hottentots name for the Chinese peoples. And, in any case, foreigners are "strangers" (*barbaroi*).

If we look beneath the surface, we soon discover, however, that all cultures have a common interest. Everywhere we see, or at least heard about the Australian boomerang, the sickle-shaped throwing implement which in others is described that it is like to hit the mark it returns to the point of origin. But how many of us know that the Indians of the southwestern United States used the same kind of weapons, that it is found in India and in certain parts of Africa, and is shown in various depicting

Cultural Analysis Hans Gullestrup, 2006 With internationalization the world is becoming smaller and the opportunity to meet people from other countries and cultures is becoming more common providing the need for cooperation shared knowledge and cross border trade Individual cultures tend to understand themselves best and base their understanding of the world and its peoples on ideas they each have come to believe irrespective of reality and thus make it difficult to reach a proper understanding of other cultures This book considers intercultural understanding and co action partly by means of general insights into the concept of culture and the dimensions which bring about cultural differences and partly as a methodology to analyze a certain culture whether one s own or others This leads towards an understanding of cultural complexity and cultural differences among people The book provides a discussion of a number of ethical issues which almost invariably will arise when people meet and co act across cultural boundaries Cultural Analysis offers a theoretical abstract proposal for cultural understanding intercultural plurality and complexity *Special Bibliography Series* , 1957 The Routledge Dictionary of Anthropologists Gérald Gaillard, 2004 This detailed and comprehensive guide provides biographical information on the most influential and significant figures in world anthropology from the birth of the discipline in the nineteenth century to the present day Each of the fifteen chapters focuses on a national tradition or school of thought outlining its central features and placing the anthropologists within their intellectual contexts Fully indexed and cross referenced The Routledge Dictionary of Anthropologists will prove indispensable for students of anthropology *Art, Culture, and Cuisine* Phyllis Pray Bober, 2001-06 How we define prepare and consume food can detail a full range of social
